Herbal Solutions for Living Well

Mr. John Gordon
Acting Director
Division of Programs and Enforcement Policy
Office of Special Nutritionals
Center for Food Safety and Applied Nutrition
Food and Drug Administration
200 C Street
HFS-455
Washington, D.C. 20204

Dear Mr. Gordon:

Notice is hereby given pursuant to the requirements of Section 403(r)(6) (21 U.S.C. 343(r)(6)) of the Federal Food, Drug, and Cosmetic Act of a statement of nutritional support which has been made on the label and/or in the labeling in connection with the marketing of the dietary supplement BioPectin™ Modified Citrus Pectin. BioPectin Modified Citrus Pectin will be first marketed with this statement of nutritional support on June 6, 1996. The statement of nutritional support is as follows:

"Modified citrus pectin is a natural complex carbohydrate extracted from a selection of fine citrus fruit pulps. BioPectin™ is absorbed into the bloodstream, where it attaches to undesirable cells, helping your body to eliminate them. This may be particularly helpful for inhibiting the spread of defective prostate cells."

Very truly yours,

Flora Inc.
