Office of Special Nutritionals
HSF-450
200 C Street, S.W. Washington, D.C. 20204

Dear Dr. Yetley,

In July 1996 Natural Organics, Inc. introduced two formulas which display structure and function claims on the label. Each formula is labeled with the mandatory FDA disclaimer. The product name and claim are as follows:

ImmunActin

A dietary supplement designed to nutritionally support the body's normal adaptogenic function.

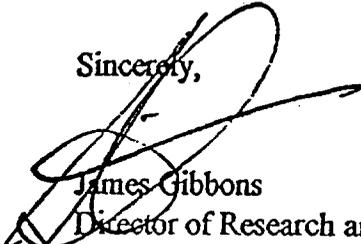

OcuActin

A dietary supplement designed as nutritional support for ocular.

Natural Organics can substantiate each of the above claims with the appropriate documentation and retains this information in permanent files.

If you should have any questions please do not hesitate to contact me.

Sincerely,

James Gibbons
Director of Research and Development
