Dear Dr. Yetley,

Please be advised that Jarrow Formulas, Inc. is marketing a product containing a "Structure and Function" statement on the label. According to the notification requirements set forth by the DSHEA (Dietary Supplement Health and Education Act, 1994) legislation, please be advised of the following:

Name of Product: Glucosamine Mega 1000™

Active Ingredient(s): Glucosamine Hydrochloride

Claim(s): "Supports Joint Function" - Glucosamine is a component of joints and intestinal tissue and is involved in the production of synovial fluid which lubricates the joints. Sulfur is also utilized in the production of cartilage tissue.

The following disclaimer appears on the label: This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

These claims are limited to, and a result of, what we believe to be a substantial body of scientific evidence supporting the functional role of these nutrients. A compendium of relative published research substantiating the above statement(s) is on file at the corporate office.

Respectfully submitted,

Siddharth S. Shastri, B.A., C.C.N.

97S - 0162

LET/648

USAGE: As a dietary supplement, take 1 or 2 tablets per day or as directed by your qualified health consultant.

Glucosamine Hydrochloride (HCl) is an aminoglycan comprised of an amino acid (glutamine) and a carbohydrate (glucose) that has been stabilized by complexing it to HCl (hydrochloric acid). **Glucosamine** is a component of joints and intestinal tissue and is involved in the production of synovial fluid which lubricates the joints. **Glucosamine HCl** is converted to N-acetyl-glucosamine by the goblet cells of normal intestines. **Glucosamine HCl** is **SALT FREE**. This product is best taken with BioSilicon™, the only high potency source of orthosilicic acid, the biologically active form of silicon.

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Each Quik-Solv™ tablet contains:
Glucosamine HCl..... 1,000 mg.

Quik-Solv™ tablets disintegrate within several minutes of ingestion.

Contents: Glucosamine Hydrochloride (HCl), microcrystalline cellulose (filler), magnesium stearate (lubricant).

Contains NO dairy, wheat, yeast, soy, corn, sucrose, starch, salt, artificial sweetener, color or preservative, or other common allergen.
