Reference: Notification of Statement on TRiBEX 500® Label

Dear Sirs,

This letter is to serve as notification that BIOTEST Laboratories, LLC. has included one of the statements listed in section 403 (r) (6) of the Federal Food, Drug, and Cosmetic Act on the labeling for it's dietary supplement TRiBEX 500®.

The text for which this disclaimer statement is used is as follows.

BIOTEST Laboratories uses herbal extracts that contain a rich supply of saponins and flavones. Although these herbs are naturally potent, BIOTEST uses a super-extraction process to harvest the greatest amount of saponins and flavones possible. This enhances TRiBEX 500's pro-testosterone properties, and results in a pure and extremely potent formulation that is unique to the BIOTEST® brand. TRiBEX 500 contains pharmaceutical-grade herbal extracts standardized for purity and potency.

A copy of this label is attached. See page 2.

I certify that the information contained in this notice is complete and accurate, and that BIOTEST Laboratories has substantiation that these statements are truthful and not misleading.

Sincerely,

  
Tim Patterson  
Chief Executive Officer
