

**UPDATE ON SUCRAID® PRODUCT
IMMEDIATE ACTION REQUIRED
FOR ALL SUCRAID® PRESCRIPTIONS AND REFILLS AFTER SEPTEMBER 1, 2017**

Dear patients, prescribing physicians and other healthcare providers:

September 1, 2017

This letter is to update you on the limited supply of Sucraid® (sacrosidase) Oral Solution. As a temporary measure, since Sucraid® is in shortage, QOL is coordinating with FDA to provide Sucraid® from an unapproved Lot D0402 to physicians and patients/legal guardians of patients who have received information, understand the potential safety risks, and consent to the use of this product.

If you want to receive a prescription for Sucraid® after September 1, 2017, you and your doctor will have to complete the forms listed below.

To continue to get a prescription for Sucraid® (which will be **Lot D0402**), you **MUST** do the following:

1. **Communicate** with your doctor about the potential safety risks with using this lot.
2. **Patient Consent Form: Patient (or parent or guardian for minor patients) sign and date** an informed consent stating that you understand and accept the potential safety risks. **Give a copy of this document to your physician and send copies to the place[s] noted below.**
3. **Minor's Assent Form: If patient is a child aged 7 to 17 years, he or she must sign and date an assent** form stating that he or she understands the risks and assents. **Give a copy of this document to your physician and send copies to the place[s] noted below.**
4. **Physician's Acknowledgment Form:** Have **your doctor sign and date an acknowledgement** that he or she understands the manufacturing situation, the potential safety risks with using this lot, and has communicated with you about it. **The physician must send a copy of the Acknowledgment to the place[s] noted below.**
5. **Patient Questionnaire: Patients (or parent or guardian if patient under 18) fill out a questionnaire** about the use of **Lot D0402 AFTER** using Sucraid® Lot D0402.

Before You Can Receive Sucraid® Lot D0402, You Must Provide the Following:			
Each form must be signed and dated.	<i><u>Patient Consent Form</u></i>	<i><u>Minor's Assent Form</u></i>	<i><u>Physician's Acknowledgement Form</u></i>
Patients Under 7 years	Parents / Guardians	Not Required	Doctor

PHYSICIAN'S ACKNOWLEDGMENT FORM – LOT D0402

Physician Acknowledgment for the Distribution of SUCRAID®

Patient name (please print): _____ **DOB:** _____

This form is to be filled out by all Physicians prescribing Sucraid® for any patient that needs a prescription filled/refilled after September 1, 2017. A separate Acknowledgment Form needs to be completed for each patient prescribed Sucraid®, even if a previous Acknowledgment Form was provided for Lot A1147, A1150, B1210, B1102, B1213, C0502, C0902, C1201, C1102, or D0401.

QOL Medical has moved the manufacture of the active ingredient in Sucraid® (sacrosidase) Oral Solution to a new facility and has also recently changed the process. There is a shortage of Sucraid® because QOL is still preparing their complete submission to allow FDA evaluation of the unapproved process and facility in order to confirm that these meet FDA's pharmaceutical standards, including the minimum current good manufacturing practice (CGMP) requirements. As a temporary measure, since Sucraid® is in shortage, QOL is coordinating with FDA to provide patients with Sucraid® from an unapproved Lot D0402. This lot of Sucraid® was manufactured with the unapproved process and facility under conditions that may not meet FDA standards for pharmaceuticals.

The recent changes to the manufacturing process have concentrated on reducing the potential for microbiological contamination of the active ingredient in order to reduce the risk of bacterial byproducts. In addition to the unapproved process and facility, QOL has also changed the standard of sterility for Sucraid® oral solution. As a result, Lot D0402 is not sterile, however the quantity of microorganisms in Lot D0402 has been tested and confirmed to be within the FDA recommended levels for oral drugs at all points throughout the manufacturing process. There is a potential risk that Lot D0402 may contain viable microorganisms (e.g. bacteria) and bacterial byproducts derived from the manufacturing process. These possible bacteria or bacterial byproducts could be a safety concern for some people, such as those who are immunocompromised. While the quantity of microorganisms in Lot D0402 has been tested and confirmed to be within the FDA recommended levels for oral drugs at all points throughout the manufacturing process, there is still a remote chance that Sucraid® from Lot D0402 may cause symptoms in some patients, such as vomiting and diarrhea.

Please promptly report any adverse events such as diarrhea, vomiting, or any unexpected adverse events to us and to the FDA. If you have evaluated the potential risks against the benefits of this product and any alternate treatments, and believe that your patient should start or continue taking Sucraid®, please complete this form and provide it to SucraidASSIST™ as soon as possible.

By signing below you acknowledge that:

- You understand the potential safety risks outlined above;
- You or a member of your clinical staff have explained to the patient with sucrase-isomaltase deficiency (CSID) or his/her guardian the potential risks of taking this Lot D0402 of Sucraid®.
 - The patient, parent or legal guardian has given his/her signed consent to you or a member of your clinical staff to take Sucraid® made from this lot; and
- You agree to inform both the manufacturer of Sucraid®, QOL Medical LLC (Phone: 1-866-469-3773 | Fax: 772-365-3375 | Email: info@qolmed.com), and the FDA at 1-888-INFO-FDA (463-6332) of adverse events that occur while the patient is taking Sucraid®.

PATIENT CONSENT FORM – LOT D0402

Important Information and Consent Form Regarding the Receipt, and Use of SUCRAID® by Patients/Legal Guardians of Patients

This form is to be read and filled out by the patient with congenital sucrase-isomaltase deficiency (CSID) or his/her legal guardian who wishes to obtain Sucraid®, which is temporarily in limited supply.

QOL Medical has moved the manufacture of the active ingredient in Sucraid® (sacrosidase) Oral Solution to a new facility and has also recently changed the process. There is a shortage of Sucraid® because QOL is still preparing their complete submission to allow FDA evaluation of the unapproved process and facility in order to confirm that these meet FDA’s pharmaceutical standards, including the minimum current good manufacturing practice (CGMP) requirements. As a temporary measure, since Sucraid® is in shortage, QOL is coordinating with FDA to provide patients with Sucraid® from an unapproved Lot D0402. This lot of Sucraid® was manufactured with the unapproved process and facility under conditions that may not meet FDA standards for pharmaceuticals.

The recent changes to the manufacturing process have concentrated on reducing the potential for microbiological contamination of the active ingredient in order to reduce the risk of bacterial byproducts. In addition to the unapproved process and facility, QOL has also changed the standard of sterility for Sucraid® oral solution. As a result, Lot D0402 is not sterile, however the quantity of microorganisms in Lot D0402 has been tested and confirmed to be within the FDA recommended levels for oral drugs at all points throughout the manufacturing process. There is a potential risk that Lot D0402 may contain viable microorganisms (e.g. bacteria) and bacterial byproducts derived from the manufacturing process. These possible bacteria or bacterial byproducts could be a safety concern for some people, such as those with a weak immune system. While the quantity of microorganisms in this Lot D0402 has been tested and confirmed to be within the FDA recommended levels for oral drugs at all points throughout the manufacturing process, there is still a remote chance that Sucraid® from this Lot D0402 may cause symptoms in some patients, such as vomiting and diarrhea. Please let your doctor know immediately if you have adverse symptoms.

By signing below, you acknowledge that you have had a discussion with your physician and understand the potential risks. If you are willing to receive and use Sucraid® from this lot, please sign and fax a copy of this form to SucraidASSIST™ at Fax: 800-632-1944.

Your signature indicates that you consent to receive and use the Sucraid® from this lot and you understand and accept the potential safety risks described above with the unapproved Lot D0402 of Sucraid®. If you do not understand the above or what this could mean to you and want more information, please contact SucraidASSIST™ at 800-705-1962 for additional information.

MINOR'S ASSENT FORM

ASSENT FORM FOR CHILDREN TAKING SUCRAID®

You are being asked to read and sign this form because you take Sucraid® for a condition that causes you to be unable to digest table sugar, which is in a lot of your foods.

The company that makes Sucraid® ran out of its regular Sucraid® and there is not any regular Sucraid® available. However, you can choose to take another kind of Sucraid® so that you can keep taking the drug. This Sucraid® has a specific lot number on the bottle, D0402. This other Sucraid® has been tested and is very similar to the regular Sucraid® but there is a small chance that this other kind of Sucraid® could make you throw up or cause you to have a stomach ache that may be different from what you are used to having. If you do take this different Sucraid®, please let your doctor or your parents or other caregivers know right away if it causes you to have any problems.

If you do not want to receive this other kind of Sucraid®, you do not have to say yes or sign your name on this form. No one will be mad at you if you say no.

By signing your name you are saying that you have talked with your doctor or your parents/caregivers about taking this other kind of Sucraid®. If you want to receive and use this other kind of Sucraid® please sign your name.
