INGREDIENTS

Ingredients as defined by AAFCO

MIXING DIRECTIONS

Mix this Type B medicated feed with non-medicated feed ingredients to manufacture a complete feed containing 400 grams of Chlortetracycline per ton. The following table provides examples of mixing rates:

Type B Medicated Feed Concentration (g/ton)	Type B Medicated Feed to make one ton of Type C Medicated Feed (lb)	Drug Level in Type C Medicated Feed (g/ton)
8,000	100	400
10,000	80	400
16,000	50	400
20,000	40	400

Feed the resulting Type C medicated feed continuously for not more than 14 days.

Withdrawal Periods: No withdrawal period is required when used according to label.
