INGREDIENTS

Ingredients as defined by AAFCO

MIXING DIRECTIONS

Mix this Type B medicated feed with non-medicated feed ingredients to manufacture a complete feed. The following table provides examples of mixing and feeding rates:

Type B Medicated Feed Concentration (g/ton)	Type B Medicated Feed to make one ton of Type C Medicated Feed (lb)	Drug Level in Type C Medicated Feed (g/ton)	Type C Medicated Feed Consumption (lbs. of feed per head per day)
1400	400	280	0.5
700	400	140	1
700	200	70	2
350	400	70	2
280	200	28	5
140	400	28	5

Feed the resulting Type C medicated feed to provide 70 mg chlortetracycline per head per day.

Withdrawal Periods and Residue Warnings: No withdrawal period is required when used according to label. A withdrawal period has not been established for this product in pre-ruminating calves. Do not use in calves to be processed for veal.
