BLUE BIRD LABELING
chlortetracycline hydrochloride
Type B Medicated Breeding Swine Feed

CAUTION: Federal law restricts medicated feed containing this veterinary feed directive (VFD) drug to use by or on the order of a licensed veterinarian.

For control of leptospirosis (reducing the incidence of abortion and shedding of leptospirae) caused by Leptospira pomona susceptible to chlortetracycline in breeding swine.

Active Drug Ingredient

Chlortetracycline* ................................................................. 401 – 80,000 g/ton**

Guaranteed Analysis

Crude Protein (Min) ................................................................. ____%
Lysine (Min) ........................................................................... ____%
Crude Fat (Min) ...................................................................... ____%
Crude Fiber (Max) ................................................................. ____%
Calcium (Min) ....................................................................... ____%
Calcium (Max) ....................................................................... ____%
Phosphorus (Min). ................................................................. ____%
Salt\(^a\) (Min) ................................................................. ____%
Salt\(^b\) (Max) ........................................................................... ____%
Sodium\(^b\) (Min) ................................................................. ____%
Sodium\(^b\) (Max) ............................................................................ ____%
Selenium\(^c\) (Min) ................................................................. ____ppm or %
Zinc\(^c\) (Min) ........................................................................... ____ppm or %

* Guarantee required only when nutrient added except when the feed is intended, represented or serves as a principal source of the nutrient.
\(^b\) Sodium guarantee required only when total sodium exceeds that furnished by the maximum salt guarantee.
\(^c\) Guarantee shall be stated in ppm when less than 10,000 ppm and in percentage when concentration is 10,000 (1%) or greater.

Ingredients

Ingredients as defined by AAFCO.

Mixing Directions

Thoroughly mix this Type B medicated feed with non-medicated feed ingredients to manufacture one ton of Type C medicated feed for breeding swine containing 400 grams chlortetracycline per ton.

The following table provides examples of mixing rates:

<table>
<thead>
<tr>
<th>Type B CTC concentration (g/ton)</th>
<th>Type B per ton of Type C (lb)</th>
<th>Non-medicated feed per ton of Type C (lb)</th>
<th>Type C CTC concentration (g/ton)</th>
</tr>
</thead>
<tbody>
<tr>
<td>10,000 (5 g/lb)</td>
<td>80</td>
<td>1920</td>
<td>400</td>
</tr>
<tr>
<td>20,000 (10 g/lb)</td>
<td>40</td>
<td>1960</td>
<td>400</td>
</tr>
<tr>
<td>40,000 (20 g/lb)</td>
<td>20</td>
<td>1980</td>
<td>400</td>
</tr>
<tr>
<td>80,000 (40 g/lb)</td>
<td>10</td>
<td>1990</td>
<td>400</td>
</tr>
</tbody>
</table>

The resulting Type C medicated feed should be fed continuously for not more than 14 days.

Manufactured by
Blue Bird Feed Mill
City, State, Zip

NET WEIGHT ON BAG OR BULK

*Deracin is the trade name of chlortetracycline hydrochloride formulation (Type A Medicated Article).
**The final printed feed label should list only a single drug concentration.
