---

Good morning --

The best way to train to become a clinical investigator is to take a course. The training cannot be done by a phone call. Each year FDA offers a three-day course (except this year). The next course will be November 2018. Please see the web link below.

[Clinical Investigator Training Course](#)

I am sure other professional groups in the research profession offer similar courses.

Kind regards,

The OGCP Group

Hello,

My name is [REDACTED] and I am contacting you on behalf of [REDACTED]. A [REDACTED] based in [REDACTED]. She would like to get more information on how to become a clinical trial investigator. She has many patients with Acne, Rosacea, and Eczema. If someone can give me a call on how we can move forward. Our office phone number is [REDACTED].

Thank you,

[REDACTED]
