Hi Cherie,

You can use this version if you haven't started working on this. I entered Mei-ying's edits/additions.

Subject: 125325 Kamada A1PI - IR

Hi Cherie,

I combined all the questions. Could you please add a header? Also, I made some comments for the reviewers in the text; thus, please do not accept changes. I would like the reviewers to see my changes and comments. Also, could you work on the 1st item with Ross and Kelly? Ross wanted us to include labeling instructions that Ross/Kelly sent also to Baxter and CSL. After you have the 1st item and the header could you please send this IR to all of us for concurrence?

We received all the mid-cycle review memos except for Iftekhar's. Not all the memos are in the EDR, I sent emails asking those who did not place their memos in the EDR to do that. A couple of memos have not been approved yet. Nevertheless, I included the comments from those memos. Will talk with Mei-ying to make sure that they are approved before we send the IR.

Ewa
