---

Dear Dr. Yong,

Vericel will be submitting a follow up 483 response from the MACI Pre-License Inspection in May 2016 to DMPQ (the Division listed on the Form 483) for Observation #3 regarding Design Controls. Given the timing of our teleconference tomorrow and to facilitate the BLA review, we are sending you a copy of this response in preparation for any discussion regarding the Design Controls or Design History File. The attached file provides:

- Follow up response to 483 Observation #3
- SOPs we committed to in the June 6, 2016 original 483 response
- Completed sections of the in-progress DHF to provide an interim update prior to the September 20, 2016 deadline (i.e., TOC, Design Intent Document, Traceability Matrix)

We look forward to speaking with you tomorrow.

Kind Regards,

Lorien Armour, RAC
