**Subject:** Telecon Follow-Up: n in PI  
**Date:** Friday, April 29, 2016 2:47:16 PM

---

Dear Kim,

To follow-up in regard to your question we discussed via a telecon today, the definition of n in the tables of the PI would depend on what n is being reported in each table. For example:

For Table 2, n=number of subjects who reported the adverse reaction listed.

For Table 3, n=number of subjects reporting tape irritation.

Please verify that the definitions for n and N are accurate.

Thank you, Betsy
