Dr. Sproule,

Of the ZUMA-1 phase 2 patients, 8 of the 111 patients who underwent leukapheresis did not receive conditioning chemotherapy. Per CSR Section 10.3, 1 subject (101-003-017) had leukapheresis but not conditioning because of manufacturing failure. Yet, CSR Section 10.2, CSR Table 11, and ADSL.xpt do not mention manufacturing failure; instead, the CSR's stated reasons for the 8 patients not receiving conditioning are 2 deaths from PD, 4 post-leukapheresis SAEs, and 2 patients with non-measurable disease. Resolve the discrepancies in the reported reasons for not receiving conditioning.
