

Archived Tables – Other Countries and Territories

These tables are provided for historical purposes only.

As of September 27, 2017, DO NOT use this table to screen HCT/P donors for risk of Zika virus (ZIKV).

This table was previously posted on the Centers for Disease Control and Prevention’s (CDC’s) [Blood and Tissue Safety webpage](#) to identify ZIKV risk areas for other countries and territories. Based on new information, the possibility of mosquito-borne ZIKV transmission to travelers may have started before travel dates originally posted. As described in FDA’s [announcement](#) posted on September 27, 2017, this table is provided for historical purposes only and is not acceptable for screening donors as of September 27, 2017. Please refer to CDC’s [Blood and Tissue Safety webpage](#) for current information about areas with ZIKV transmission.

Table: Travel notice posting dates for countries and territories with reported local mosquito transmission of Zika virus

| Country or Territory | Date Travel Notification Posted |
|------------------------|---------------------------------|
| American Samoa | 2/1/2016 – 4/19/2017 |
| Angola | 3/10/2017 |
| Anguilla | 6/29/2016 |
| Antigua & Barbuda | 8/3/2016 |
| Argentina | 5/26/2016 |
| Aruba | 2/18/2016 |
| Bahamas | 8/23/2016 |
| Barbados | 1/26/2016 |
| Belize | 4/18/2016 |
| Bolivia | 1/22/2016 |
| Bonaire | 2/18/2016 |
| Brazil | 6/9/2015 |
| British Virgin Islands | 8/30/2016 |
| Cape Verde | 1/26/2016 |
| Cayman Islands | 8/11/2016 |
| Colombia | 12/10/2015 |

| Country or Territory | Date Travel Notification Posted |
|-----------------------------|--|
| Costa Rica | 2/1/2016 |
| Cuba | 3/19/2016 |
| Curacao | 2/1/2016 |
| Dominica | 3/19/2016 |
| Dominican Republic | 1/26/2016 |
| Ecuador | 1/22/2016 |
| El Salvador | 12/10/2015 |
| Fiji | 4/4/2016 |
| French Guiana | 12/18/2015 |
| Grenada | 5/12/2016 |
| Guadeloupe | 1/26/2016 |
| Guatemala | 12/10/2015 |
| Guinea-Bissau | 3/10/2017 |
| Guyana | 1/22/2016 |
| Haiti | 1/26/2016 |
| Honduras | 2/1/2016 |
| Jamaica | 2/3/2016 |
| Kosrae (FSM) | 4/1/2016 |
| Maldives | 3/10/2017 |
| Marshall Islands | 2/23/2016 |
| Martinique | 1/26/2016 |
| Mexico | 12/10/2015 |
| Micronesia | 4/1/2016 |
| Montserrat | 11/21/2016 |
| New Caledonia | 3/9/2016 – 3/10/2017 |
| Nicaragua | 2/1/2016 |
| Palau | 11/16/2016 |

| Country or Territory | Date Travel Notification Posted |
|------------------------------|---------------------------------|
| Panama | 12/10/2015 |
| Papua New Guinea | 4/29/2016 |
| Paraguay | 12/10/2015 |
| Peru | 5/5/2016 |
| Puerto Rico | 12/31/2015 |
| Saba | 7/26/2016 |
| Saint Barthelemy | 5/9/2016 – 5/26/2017 |
| Saint Lucia | 4/11/2016 |
| Saint Martin | 1/26/2016 |
| Samoa | 2/1/2016 |
| Singapore | 8/30/2016 |
| Sint Eustatius | 7/14/2016 |
| Sint Maarten | 2/29/2016 |
| Solomon Islands | 3/10/2017 |
| St. Vincent & the Grenadines | 2/29/2016 |
| St. Kitts and Nevis | 9/26/2016 |
| Suriname | 11/12/2015 |
| The Dominican Republic | 1/26/2016 |
| Tonga | 2/3/2016 |
| Trinidad & Tobago | 2/23/2016 |
| Turks & Caicos | 8/3/2016 |
| US Virgin Islands | 1/26/2016 |
| Venezuela | 12/10/2015 |

As of February 28, 2019, DO NOT use the table below to screen HCT/P donors for risk of Zika virus (ZIKV).

This table was previously posted on the Centers for Disease Control and Prevention's (CDC's) [Blood and Tissue Safety webpage](#) to identify ZIKV risk areas for other countries and territories where Zika virus transmission was

previously reported, but that were classified as having interrupted transmission. As described in FDA’s February 28, 2019 [announcement](#), this table is provided for historical purposes only and is not acceptable for screening donors as of February 28, 2019. On this date, all areas below were returned to purple shading. Purple is the color used for a country or territory with any prior or current reports of mosquito-borne Zika virus transmission. Please refer to CDC’s [Blood and Tissue Safety webpage](#) for current information about areas with ZIKV transmission.

Areas with Interrupted Transmission

Zika was previously found in the locations on this list, but scientists have determined the virus is no longer present. This means all travelers, including pregnant women, can visit these destinations with no known risk of getting Zika from mosquitoes.

| Area | Date of interruption |
|-----------------------|----------------------|
| American Samoa | 4/13/2017 |
| The Bahamas | 2/2/2018 |
| Cayman Islands | 7/20/2017 |
| Cook Islands | 3/10/2017 |
| Guadeloupe | 6/29/2017 |
| French Polynesia | 3/10/2017 |
| Isla de Pascua, Chile | 3/10/2017 |
| Marshall Islands | 1/9/2018 |
| Martinique | 6/29/2017 |
| Micronesia | 11/23/2017 |
| New Caledonia | 3/10/2017 |
| Palau | 11/23/2017 |
| Saint Barthélemy | 5/24/2017 |
| Vanuatu | 3/10/2017 |
