Agenda

Utility of MRI Screening
Raina Dauria, MS
Vice President, Regulatory Affairs
Mentor Worldwide, LLC

Empowering Informed Patient Choices

Additional Q&A Responders
John Canady, MD
Michael Schwiers, PhD
Warren Foust
Laura Vellucci, PhD
Roger Wixtrom, PhD
Utility of MRI Screening
Mentor Experience on Utility of MRI

- MRI compliance rate low after 6 years post-implantation
- Multiple reasons why patients do not comply with MRI screening guidelines
  - Cost, negative experience, claustrophobia
- Since majority of ruptures occur ≥ 6 years post-implantation, adjustments to screening timeline may be warranted
- Validated, patient-centric solutions should be explored (e.g. high resolution ultrasound)
Empowering Informed Patient Choices
Mentor Provides Transparent and Balanced Information for Patients

Patient Materials

- Patient Education Brochures
  - Augmentation
  - Reconstruction
- Risk Information Booklet

Web and Social

- Company Website [www.MentorWWLLC.com](http://www.MentorWWLLC.com)
- Patient Website [www.BreastImplantsByMentor.com](http://www.BreastImplantsByMentor.com)
- Facebook Important Safety Information
- Sponsored Page on RealSelf.com
Mentor Provides Transparent and Balanced Information for Surgeons

Product Labeling and HCP Communications

- Product Insert Data Sheets
- Evidence-Based Perspectives
- Customer Letters

Web and Social

- Company website www.MentorWWLLC.com
- News Email Blasts

Professional Outreach

- Medical Congresses
- Field Representatives
