

Updates Made:

1. Keep current system display sort order - Sort by Product type for both Views - View by Product and View by Event
2. Added Help link that will open a new browser window with the Definitions page URL.
3. Relabled Found in to "Search term found in"
4. Added count for number of fields in which the search term was found.

Backlog items added:

1. Display sort by date in ascending order
2. Greyed out background for popup view details for mobile layout.

Weekly Enforcement Reports Quick Search **Advanced Search**

Quick Search ?

Quick search helps you to search quickly for "keyword(s)" pertaining to recalls after they have been classified.

Search Results will display the closest match(es) to the keyword(s) searched in the order based on "search for all keywords" criteria first and then "search any of the keyword(s) criteria.

Annotations

- Help Link**
Behavior: On Click
Result: Opens new browser window; navigates user to definitions page URL.
- Records per page dropdown**
Behavior: Disabled if the results are less than minimum records that can be displayed on screen.

Note: 50 records is for desktop view
10 records is for mobile view
- Default Sort Order**
Remains the same as current system display and sort by
- Search Term found in**
Displays:
- total number of fields where search term is found
- maximum of 5 field labels. If there are more than 5 field labels, then it includes "View All" link.
View All link:
Behavior: on click
Result: pushes all the content below and expands to display all the field labels that contain the search term AND displays "View Fewer" link

View Fewer link:
Behavior: on click
Result: moves the content below up and displays the original state of list of fields that contain search term.
- Pagination**
If there is only 1 page, the previous, next, first and last page links are disabled.
