

TOXICOLOGIC PATHOLOGY ASSOCIATES, INC. (TPA)

National Center for Toxicological Research
Jefferson, AR 72079

CAREER OPPORTUNITIES

Posting closes August 1, 2019

Toxicologic Pathology Associates, Inc (TPA) is seeking candidates for histotechnician positions. TPA provides pathology and pathology-related services to the Food and Drug Administration's National Center for Toxicological Research (NCTR) located in Jefferson, Arkansas. Current positions range from entry level laboratory technician who can execute basic laboratory procedures to more advanced histotechnician positions for individuals who have an HT or HTL (ASCP) certification. Potential candidates should have highly developed cognitive skill sets and may be responsible for complete project performance for both large and small projects.

TPA provides a comprehensive benefits package to its employees and a competitive starting salary commensurate with experience, expertise and skill set. Employment of successful candidates will contingent upon receipt of a satisfactory drug screening report, obtaining the necessary federal government security clearance and successful passing of a required physical examination. Drug screening is provided by an off-site third party and is paid for by TPA. The annual physical examination is provided by the NCTR Occupational Medical Program and is at no cost to the employee. Interested candidates should submit their resume and contact information to:
