 National Children's Study (NIH – Vanderbilt RTI) \$199,700
 Vanguard Study: Schema for the Alternate Recruitment Strategy Substudy (NICHD)
 The National Children's Study will examine how environment, behavior, and genetics impact children's health, development, and growth. The study is in conjunction with the Davidson Partners for Children's Health, which includes the Tennessee Department of Health, Governor's Office for Child Care Coordination, Metro Nashville Health Department, Meharry Medical

College, Baptist Hospital, Centennial Hospital, Summit Hospital and Metro General Hospital.

Richard-Davis G (PI), Looney, K Project manager July 2010 - June 2011
Kenneth J. Ryan – Family Planning \$413,956

Our core objective is to provide an environment of excellence to develop competent physicians that will make valuable and extensive contributions to medicine, education, and research. It is the objective of this program to prepare residents to be millennium health care professionals. Our expectation is that upon completion of their training, residents will be compassionate, clinically.

Richard-Davis G (PI) April 2010 - March 2011
Susan B. Komen Nashville \$75,000

Women's Health Initiative Nashville (Project WHIN)
The Women's Health Initiative Nashville (Project WHIN) will educate middle Tennessee women on breast health and breast cancer prevention. The Initiative will sponsor six (6) awareness forums and free digital mammogram screening for 600 women in Nashville and surrounding locations and will deliver the importance of knowing one's breast health messages to women over a twelve month period through radio, TV, print, internet, and events.

Richard-Davis G (PI) 2010 – January 2013
Mammographic Breast Density Study (DOD) \$5,250

HRPO Log No. A-16293 (Proposal No. BC094093)
This grant collected data to evaluate the effect of ethnicity on digital mammography images, the existing parent mammographic breast density study at the Center for Women's Health Research.
