GRANT ACTIVITY

ACTIVE

Network of Excellence in Neuroscience Clinical Trials (NEXT) – DCC [NIH U01 NS077352]
10/01/2011-06/30/2023

The University of Iowa provides infrastructure to facilitate rapid development and implementation of protocols for conducting clinical trials in neuroscience. The infrastructure is designed to accommodate dynamically changing requirements that naturally occur in clinical trials (both planned and unplanned). The DCC will provide a more rapid evaluation of promising treatments in neuroscience, and be a model that can be replicated across several studies and diseases.
