

FDA Staff Manual Guides, Volume I – Organizations and Functions

Department of Health and Human Services

Food and Drug Administration

Office of Information Technology

Office of Information Security

Effective Date: December 14, 2018

1. Office of Information Security (DCNFAA).

- A. Directs and oversees the Information Technology (IT) security program.
- B. Ensures and promotes the confidentiality, integrity, and availability of the Food and Drug Administration (FDA) IT networks and information in compliance with individual privacy and civil liberties and with Federal, Department and FDA security requirements.
- C. Oversees FDA IT security policies, standards, and guidelines as necessary to implement the FDA IT Security Program and monitors their implementation.
- D. Directs, manages, and oversees the intelligence-driven threat mitigation strategy that enables the integration of intelligence, counterintelligence, insider threat, and operational/cyber security principles.
- E. Establishes and maintains liaison relationships with federal partners on IT and cyber security matters.
- F. Maintains the Homeland Secure Data Network (HSDN) to support IT security and cyber operations.

2. Authority and Effective Date.

The functional statements for this Office of Information Security were approved by the Secretary of Health and Human Services and effective on December 14, 2018.
