

September 28-29

10th Anniversary

GLOBAL SUMMIT ON REGULATORY SCIENCE 2020

Save the Date
...going VIRTUAL in 2020

Theme: Emerging Technologies and Their Application to Regulatory Science

There is no registration fee; however, registration is required to attend.

Find more information/agenda and register at:

<https://aralliance.org/gsr>

Co-hosted by:

- National Center for Advancing Translational Sciences
- Global Coalition for Regulatory Science Research

Scientific Program Committee Co-Chairs:

- William Slikker Jr., U.S. Food and Drug Administration (William.Slikker@fda.hhs.gov)
- Marta Hugas, European Food Safety Authority (Marta.Hugas@efsa.europa.eu)

Regulatory science research presentations from global regulatory, research, and standards communities on emerging technologies. Topics include:

- **Emerging Technologies for the Safety Assessment of Food, Drugs, and Personal Care Products**
- **Approaches to Standardize and Validate Emerging Technologies for Regulatory Application**
- **Challenges and Opportunities of Emerging Technologies and Alternate Methods for Decision Making**
