Before you get started:

- Your sample must be dropped off at a FedEx drop box on the same day you collect it.
- Do it on a weekday. FedEx won’t accept samples on a Saturday or Sunday.
- Don’t miss the last pickup. Find the latest pickup times at color.com/fedex-dropbox.
- Make sure you wash your hands!

Your kit includes:

- Swab
- Collection tube
- Barcode card
- Biohazard bag
- Return shipping mailer
- UN3373

Checklist before returning your kit:

☐ Did you activate your kit?
☐ Did you collect a sample from both nostrils?

Visit color.com/sample-return to learn more.

For Prescription Use Only, For In Vitro Diagnostic Use Only, For Emergency Use Authorization Only.
Activate your kit online at color.com/covid/activate. You need your unique barcode, which you’ll find on your collection tube.

Before collecting your sample, wash your hands thoroughly for 20 seconds and dry them well. Note: After closing the collection tube, wash your hands thoroughly for 20 seconds and dry them well.

Open the swab package. Starting from the handle end of the swab package, peel open the paper backing. Pull swab out of its packaging by the handle. Note: Do not touch the soft tip with your hands or lay it down on any surface.

Warning: Your sample will not be tested if the kit is not activated.

Rotate swab tip in first nostril, 3 times. Insert it into one nostril just until the soft tip is no longer visible, about 1 inch. Rotate it in a circle around the inside edge of your nostril at least 3 times. Note: Do not force the swab any further.

Rotate swab tip in other nostril, 3 times. Repeat the previous step in the second nostril, using the same end of the swab. Note: You will use the same swab for both nostrils.

Note: Do not force the swab any further.

Push the cap of the collection tube closed. You’ve almost done! Make sure the top is closed tightly.

Put collection tube into the biohazard bag. Seal the bag closed.

Put collection tube into the collection tube. The soft tip of the swab that went into your nose should go into the tube first.

Put swab into the collection tube. The soft tip of the swab that went into your nose should go into the tube first.

The soft tip of the swab that went into your nose should go into the tube first.

Warning: Your sample will not be tested if the kit is not activated.

Your kit includes:

- Swab
- Collection tube
- Barcode card
- Biohazard bag

Keep the cap nearby. Keep the lid nearby.

Remove the cap of the collection tube. Keep the cap nearby.

Put collection tube into the biohazard bag. Seal the bag closed.

Bring the biohazard bag to your designated test collection point. Your COVID-19 test collector will show you where to deposit your sample.

Note: If you miss today’s last pickup time, ask your COVID-19 test collector for a new kit.

Note: If you miss today’s last pickup time, ask your COVID-19 test collector for a new kit.
