Activity Outline Topics in Public Health: Youth Suicide Trends in the United States October 23, 2020 Webinar

Activity Coordinator:

Ashlee Janusziewicz (ashlee.janusziewicz@fda.hhs.gov), Amy Ramanadham (Amy.Ramanadham@fda.hhs.gov),

Series Description

This series will educate PHS health professionals about topics that are pertinent to their roles within the various agencies within the Department of Health and Human Services and other Public Health Service agencies by presenting topics that directly relate to the HHS Strategic Plan, the Secretary's Strategic Initiatives, current topics for DHHS OPDIVs who utilize PHS health professionals, and/or other topics directly related to the advancement of public health.

Lecture Description

Suicide is a public health issue that has increased in overall rate for the last 17 years while other public health issues have decreased. Suicide remains the 10th leading cause of death and was one of two top-10 categories that didn't decrease in the last year. Over 48,000 individuals die by suicide each year. Despite these challenges, there have been advances in suicide prevention research, strategy, evidence-based practices and efforts. Increasing skills to identify and to assist a person struggling with suicidal ideation may save a life and help prevent a traumatic event for a family and community.

Series Objectives

- Describe scientific evidence supporting the HHS Initiatives, Surgeon General Priorities or any other public health concern
- Explain the multi-disciplinary approach in addressing public health issues
- · Identify public health concerns.
- Identify ways Public Health Professionals can impact public health issues.

Learning Objectives After completion of this activity, the participant will be able to:

- Illustrate knowledge of suicide signs and risk factors.
- Develop strategies for intervention and crisis care.
- Identify evidence-based trainings to further education on the topic.

Target Audience

This activity is intended for physicians, pharmacists, nurses, and other public health medical professionals interested in learning more about the initiatives other advances in public health.

Agenda

Lecture 1 October 23, 2020

Time	Topic	Speaker
2:00 - 3:00 PM	Youth Suicide Trends in the United States	Brandon Johnson, M.H.S.

Continuing Education Accreditation

In support of improving patient care, FDA Center for Drug Evaluation and Research is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC) to provide continuing education for the healthcare team.

This activity was planned by and for the healthcare team, and learners will receive 1 Interprofessional Continuing Education (IPCE) credit(s) for learning and change.

CME

FDA Center for Drug Evaluation and Research designates this live activity for a maximum of 1.00 *AMA PRA Category 1 Credit(s)*™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

CPE

This knowledge-based activity has been assigned ACPE Universal Activity Number JA0002895-0000-20-009-L04-P, and ACPE Universal Activity Number JA0002895-0000-20-009-L04-T for 1.00 contact hour(s).

CNE

FDA Center for Drug Evaluation and Research designates this activity for 1.00 contact hour(s).

CPH

Up to 1.00 CPH Recertification Credits may be earned at this event.

Requirements for Receiving CE Credit

Physicians, pharmacists, nurses, pharmacist techs, and those claiming non-physician CME: participants must attest to their attendance and complete the final activity evaluation via the CE Portal (ceportal.fda.gov). For multi-day activities, participants must attest to their attendance and complete the faculty evaluation each day. Final activity evaluations must be completed within two weeks after the activity - no exceptions.

Attention Pharmacists and Pharmacy Techs: Failure to provide your correct NABP AND Date of Birth information, in the required format, may result in the loss of credit for this activity. NABP profile number should be the 6-7 digit profile number assigned by the CPE Monitor and your birth date should be in the MMDD format (e.g. 0721) Do not provide your pharmacy license number. Please click the "My Account" tab and then navigate to "Edit Contact Information" to verify that your information is correct.

Important Note regarding completion of evaluations and receiving credit

Attendees have 14 days from the last day of the activity to log in, complete the required evaluation(s) and attest to your attendance to claim credit. Physicians and nurses may then view/print statement of credit. Pharmacists should log into the CPE monitor 10 weeks after the last session of the activity to obtain their CE credit.
