

## Risk-Ranking Model for Food Tracing: Results for Commodity-Hazard Pairs

August 2020

Table 1 provides the commodity-hazard pairs associated with each commodity on the proposed Food Traceability List, including criteria scores for criterion 1 through criterion 7 (C1 through C7) and risk score for each commodity-hazard pair. For detailed information on how the criteria scores and the risk score for the commodity-hazard pair are determined, see the reference "Methodological Approach to Developing a Risk-Ranking Model for Food Tracing FSMA Section 204 (21 U.S. Code § 2223). August 2020."
