Digital Health Center of Excellence (DHCoE)
Listening Session

Bakul Patel, MSEE, MBA
Director, Digital Health
Center for Devices and Radiological Health (CDRH)

November 12, 2020
Objectives

• Provide an overview of the FDA’s Digital Health Center of Excellence (DHCoE)
  – Goals
  – Outcomes
  – Areas of Focus
  – Roadmap

• Opportunity to gain insight and input from stakeholders as the Digital Health Center of Excellence is built and begins to prioritize efforts while maintaining standards of safety and effectiveness
Digital Health Center of Excellence
Empowering digital health stakeholders to advance health care
Digital Health

The convergence of connectivity, data and computing power for healthcare and related uses across the life of an individual or a patient.

Moving health care from the Clinic to the Patient

Understanding patient’s behavior and physiology “In the wild”

Focusing on prevention for early/smaller interventions

Healthy living  Prevention  Diagnosis  Treatment Recovery  Home care

Leveraging computing power, sensors, connectivity and software
Digital Health Technology

Convergence of computing power, connectivity, sensors, and software used in healthcare.

- Used as a medical product
- Incorporated into a medical product (include a pharmacologic product)
- Used to develop a medical product
- Used to study a medical product
- Used as a companion or adjunct to a medical product, including diagnostics and therapeutics.
Why a Digital Health Center of Excellence?

• Part of the planned evolution of the digital health program

• Intent to
  • Drive synergy for digital health efforts
  • Align strategy with implementation
  • Prepare the FDA for the digital health future
  • Protect patients and maintain the FDA standards of safety and effectiveness
Our goal: Empower stakeholders to advance health care by fostering responsible and high-quality digital health innovation that meets FDA standards of safety and effectiveness.

The Digital Health Center of Excellence aims to:

- **Connect and build partnerships** to accelerate digital health advancements.
- **Share knowledge** to increase awareness and understanding, drive synergy, and advance best practices.
- **Innovate regulatory approaches** to provide efficient and least burdensome oversight.
Anticipated Outcomes

• Strategically advance science and evidence for digital health technologies that meets the needs of stakeholders.

• Efficient access to a highly specialized expertise, knowledge, and tools to accelerate access to digital health technology that maintain standards of safety and effectiveness.

• Aligned regulatory approach to harmonize international regulatory expectations and industry standards.

• Increased awareness and understanding of digital health trends.

• Consistent application of digital health technology policy and oversight approaches.

• Reimagined medical device regulatory paradigm tailored for digital health technologies.
# DHCoE Functional Areas

## Regulatory Innovation/Strategic Initiatives
- Pre-Cert
- Wearables
- Interoperability

## DH Technology Support
- Submission policy support
- Wearables
- Software development practices
- Software and digital health standards

## DH CoE Operations & Coordination/Partnerships
- **Internal:** Steering Committee, Advisory Group
- **External:** collaborations and partnerships

## DH Policy Development/Support
- Policy development and support
- DH inquiries
- Guidance/Policy development
- Submission support

## Advancing Regulatory Science
- Digital Pathology
- Patient-Generated Data
- Virtual Reality/Augmented Reality

## Regulatory Review Support
- Day – day review support for OHTs
- Implement DH policies
- Training for reviewers
- Implement competency tiers

## Advanced Manufacturing
- Case for Quality (Software in Manufacturing)
- Software used to manufacture medical device
- Digital twin for manufacturing

## Advanced Clinical Studies and RWE
- In silico modeling
- Use of RWE in DH devices
- RWE from digital health technology

## AI/ML in Medical Products
- Policy development and support
- IMDRF collaborations
- External engagement/collaboration

## Medical Device Cybersecurity
- Policy development and support
- IMDRF collaborations
- External engagement/collaboration

www.fda.gov/digitalhealth
Concept of Operations

FDA DH Advisory Group

Objectives:
- Provide Advice to DHCoE
- Identify common interest topics
- Develop FDA regulatory science agenda
- Identify and staff strategic partnerships

CDRH Digital Health Steering Committee

Objectives:
- Provide input to DH Policy agenda
- Provide input to Horizon scanning
- Align External partnerships agenda
- Provide input to regulatory science agenda

Aligning strategies Within FDA

DHCoE Operations & Coordination/Partnerships

Aligning strategies Within CDRH

Coordinating DH efforts

Dedicated DHCoE Resources

- DH Policy support
- DH Technology Support
- AL/ML in medical products
- Regulatory innovation /Strategic initiatives
- Medical Device Cybersecurity
- Advanced Manufacturing
- RWE and Advanced clinical studies

Virtual DHCoE Resources

- Regulatory Review support
- Regulatory Science and Research

www.fda.gov/digitalhealth
Digital Health Center of Excellence Services

**External to FDA**  Partner • Coordinate • Voice

**FDA - Wide**  Support • Align • Promote • Amplify

**CDRH Specific**  Lead • Build • Coordinate
Digital Health Center of Excellence Services

- Set and lead strategic direction in digital health
- Launch strategic initiatives
- Establish and promote best practices
- Enable efficient, transparent, and predictable product review with consistent evaluation quality
- Build new capacity to oversee and leverage DH technologies
- Create more shared resources
- Coordinate the development of cross cutting DH policies
Digital Health Center of Excellence Services

FDA - Wide
Support • Align • Promote • Amplify

✓ Provide scientific expertise across the Agency
✓ Offer training opportunities for FDA staff
✓ Disseminate shared resources
✓ Foster collaboration across FDA in common interest areas
✓ Facilitate synergies in regulatory science research in digital health
✓ Leverage, share, and avoid duplication of work
✓ Promote and showcase existing work at the Centers
Digital Health Center of Excellence Services

✓ Provide clarity on regulation
✓ Advance international harmonization on device regulatory policy
✓ Facilitate and build strategic partnerships
✓ Communicate FDA research interests
✓ Advance digital health device international standards
Following is our roadmap for bringing the benefits of digital health to all Americans, efficiently and collaboratively:

**Phase I: Communication**
*Fall 2020*
- Stakeholder Listening Sessions
- Update and develop resources for FDA staff
- Begin operationalizing the DHCoE and outcome measurement
- Amplify current work being done at FDA in digital health

**Phase II: Coordinate**
*Fall and Winter 2020*
- Build strategic partnerships for policy, regulatory science, and fellowships
- Develop resources for external stakeholders
- Create a digital health community of practice
- Assemble FDA and CDRH advisory groups

**Phase III: Amplify**
*Winter 2021 onwards*
- Continued strategic partnership building and communication
- Update and implement regulatory framework for digital health
- Harmonization with other regulators

**Build and Sustain Capacity**

Slide Presentation, Transcript and Webinar Recording will be available at:
http://www.fda.gov/training/cdrhlearn Under the Heading: Specialty Technical Topics; Sub heading: IT and Software

Please complete a short survey about your FDA CDRH webinar experience. The survey can be found here immediately following the conclusion of the live webinar
Panelists

Topics for Discussion: Collaboration and Goals

Panelists (in alphabetical order):

- **Amy Abernethy, MD, Ph.D.,** Principal Deputy Commissioner, FDA
- **Ray Dorsey, MD, MBA,** David M. Levy Professor of Neurology and Director of the Center for Health + Technology, University of Rochester Medical Center
- **Jesse Ehrenfeld, MD, MPH,** Board of Trustees, AMA
- **Rob Kowalski, Pharm.D.,** EVP, Head of Regulatory Affairs and US Head of Development, Novartis
- **Leslie Saxon, MD,** Professor of Clinical Medicine, Keck School of Medicine of USC
- **Nilay Shah, Ph.D,** Co-Lead, Yale University-Mayo Clinic CERSI

Moderator: **Bakul Patel, MSEE, MBA,** Director, Digital Health Center of Excellence, FDA
