Series Description

FDA's Division of Drug Information in the Center for Drug Evaluation and Research (CDER) sponsors a series of educational webinars targeting the needs of health care professionals and students. The webinars cover a broad range of FDA drug regulation and medication safety topics. These focused webinars support FDA's mission of promoting and protecting public health through interaction and education to strengthen current and future partnerships and relationships with clinicians and researchers.

Lecture Description

This webinar will discuss how the Office of Orphan Products Development (OOPD) advances the development of products for rare diseases. The webinar will also review the history of OOPD, the Orphan Drug Act, and other core programs within OOPD.
