INSTRUCTIONS FOR USE
You must follow the test directions carefully to get an accurate result. Call OraSure Technologies at 1-833-601-0127 visit www.InteliSwab.com to obtain the complete instructions for use. FOR USE UNDER EMERGENCY USE AUTHORIZATION (EUA) ONLY. IMPORTANT: Swabbing the nostrils is critical for obtaining an accurate result. If you do not swab your nose, the device will produce a false negative result.

HOW TO USE THE INTELSWAB® COVID-19 RAPID TEST

1. Open the pouch containing the test device. Do NOT touch the flat pad with your fingers.
2. Turn open the pouch containing the tube and remove.
3. Stick the tube into the test stand on a flat sturdy surface. Do NOT remove the device from tube while the test is running. A pink background will pass through the result window as the test is working.
4. With the tube in upright position, GENTLY ROCK THE CAP BACK AND FORTH to remove the liquid. Do NOT pour out the liquid. Do NOT strike.
5. Tear open the two-part pouch. DO NOT pour out the liquid.
6. With the test stand at about 45°, return the tube upright and rock the cap back and forth. Do NOT rock the tube vigorously.
7. Tear open the pouch containing the test device with a device and a test. Instructions for use (in English and Spanish), Positive Result Reference Card and test stand.
8. Kit Contains: pointed device, with a device and a test. Instructions for use (in English and Spanish), Positive Result Reference Card and test stand.

INTERPRETING RESULTS:
Read test results in a well-lit area.

Note: The line next to the “C” does not show that an adequate sample has been collected.

POSITIVE RESULT
- The test is POSITIVE if:
  - There is a reddish-purple line next to the “T” and NO reddish-purple line next to the “C.”
  - There is a reddish-purple line next to the “T” and a reddish-purple line next to the “C.” (even if the “C” line is faint).
  - There is a faint reddish-purple line next to the “T” and a reddish-purple line next to the “C.”

As soon as possible…
Call your healthcare provider and use InteliSwab® Connect app to report your result. If you have emergency warning signs such as trouble breathing, persistent pain or pressure in the chest, new confusion, inability to wake, or stay awake or bluish lips or face, call 911 or go to the closest Emergency Room.

INVALID RESULT
- The test is NOT working and should be repeated if:
  - No lines are present.
  - The line next to the “T” or the line next to the “C” is not complete all the way across the window.

If the test did NOT work properly, contact OraSure Technologies, Inc. at 1-833-601-0127

DISPOSE
Remove the test device from the tube, put the cap back on the tube and throw away in normal trash. If you have a 2-pack test kit, DISPOSE OF ALL CONTENTS AND INSTRUCTIONS FOR COMPLETING ADDITIONAL TEST PROVIDED IN THE KIT.

REPORTING RESULT
Call your healthcare provider and use the InteliSwab® Connect app to report your result. For a list of compatible smartphones and how to download the app visit www.InteliSwab.com/app

NEXT STEPS…
Call your healthcare provider and use InteliSwab® Connect app to report your result. If your result is negative but you have signs and symptoms of COVID-19, contact your healthcare provider for additional testing.

NOT SURE OF YOUR RESULT
If you do not know your result or you are unsure of your result, contact OraSure Technologies at 1-833-601-0127 or go to www.InteliSwab.com

**IMPORTANT DO'S AND DON'TS**

**DO:**
- Use the InteliSwab® COVID-19 Rapid Test for testing for COVID-19 infection.
- Follow the Instructions for Use (reverse side) to obtain accurate results. Inadequate sampling may result in false results.
- Inspect the divided pouch. If the divided pouch has been damaged, discard the divided pouch and its contents before the results from the InteliSwab® COVID-19 Rapid Test may not be valid if the divided pouch is damaged.
- Use adequate lighting to read a test result.
- Use the test device and tube containing fluid only once and dispose of both properly.
- Wash hands thoroughly prior to testing and after use.
- Call your healthcare provider and use the InteliSwab® Connect app to report your result. For a list of compatible smartphones and to download the app visit www.InteliSwab.com/app.
- Store the InteliSwab® COVID-19 Rapid Test in a dry location between 35°-86°F (2°-30°C). Bring the divided pouch to room temperature (within 59°-104°F, 15°-40°C) before opening.
- Keep out of reach of children.

**DON'T:**
- Do NOT use the InteliSwab® COVID-19 Rapid Test for children under the age of 2.
- Do NOT use the InteliSwab® COVID-19 Rapid Test beyond the expiration date.
- Do NOT use if the packaging has been opened or damaged.
- Do NOT open the divided pouch until you are ready to start the test.
- Do NOT reuse the test device or tube.

QUESTIONS?
Go to www.IntelliSwab.com
or call 1-855-601-0227

The IntelliSwab™ COVID-19 Rapid Test detects active infection in individuals 2 years and older with symptoms within the first 7 days of onset or in individuals without symptoms when tested twice with at least 24 hours but no more than 48 hours between tests. See Instructions for Use for full intended use.

QUICK AND EASY RESULTS
• Use at home or anywhere there is a flat surface
• No professional supervision or video consultation required
• No phone or other equipment needed to interpret results

CONTENTS
• Two (2) pouches, each with:
  - Swab-use test device
  - Tube with developer fluid
  - Instructions for use in English and Spanish
  - Positive Result Reference Card
  - Fast stand

You will need a way to time the test for 30 minutes (a watch, clock or cell phone). To report results to public health, visit www.IntelliSwab.com/app for compatible smartphones and download information.

If you have symptoms of COVID-19, you can use a simple test. If you do not have symptoms of COVID-19, you will need at least two tests per person. You may need to purchase additional tests to perform serial (repeat) testing. This test is more likely to give you a false negative result when you have COVID-19 than a lab-based molecular test.

Store the IntelliSwab™ COVID-19 Rapid Test in a dry location between 35°-86°F (2°-30°C).

TESTING AT HOME OR ANYWHERE

The IntelliSwab™ COVID-19 Rapid Test is for use under the Food and Drug Administration’s Emergency Use Authorization only. This product has not been FDA cleared or approved, but has been authorized by FDA under an EUA. This product has been authorized only for the detection of protein from SARS-CoV-2, not for any other viruses or pathogens. The emergency use of this product is only authorized for the duration of the declaration that circumstances exist justifying the authorization of emergency use for COVID-19 tests under Section 564(b)(1) of the Federal Food, Drug, and Cosmetic Act, 21 U.S.C. 360bb-3, unless terminated or revoked sooner.

QUICK AND EASY RESULTS
• Use at home or anywhere there is a flat surface
• No professional supervision or video consultation required
• No phone or other equipment needed to interpret results

CONTENTS
• One (1) pouch with:
  • Single-use test device
  • Tube with developer fluid
  • Instructions for Use in English and Spanish
  • Positive Result Reference Card
  • Test stand

You will need a way to time the test for 30 minutes (a watch, clock or cellphone). To report results to public health, visit www.IntelliSwab.com/app for compatible smartphones and download information.

If you have symptoms of COVID-19, you can use a single test. If you do not have symptoms of COVID-19, you will need at least two tests per person. You may need to purchase additional tests to perform serial (repeat) testing. This test is more likely to give you a false negative result when you have COVID-19 than a lab-based molecular test.

Store the IntelliSwab™ COVID-19 Rapid Test in a dry location between 35°-86°F (2°-30°C).
