I registered the kit.
If you have not registered the kit, go back to section 1.

I collected a sample from both nostrils.
The nasal swab only touched the inside of the nostrils.

I did not spill the fluid in the collection tube.

Put tube inside the plastic bag
Put the capped collection tube inside the plastic bag with the absorbent pad.

Release excess air from the bag and seal it shut.

Clean the sample collection surface area with a disinfectant.

Prepare the box for return shipping
The return box must be used to ship your sample to the lab.

Check your box to make sure corners are not damaged and sides have no tears or holes.

Put your sealed plastic bag with your collection tube in the box.
Close box and seal with tape.

Drop off the box with your sample at a UPS location on the same day.
Collect and drop off Monday - Friday due to UPS shipping schedules.

If you miss any testing steps, results may be inaccurate or result in an error. If you have missed steps please discard kit components and clean your area. Get a new kit at your earliest convenience by visiting AmazonDx.com/FAQs.

Checklist
If you cannot check all of the boxes below, the sample cannot be processed.

Before sending the sample to the lab
☐ I registered the kit.
☐ If you have not registered the kit, go back to section 1.
☐ I collected a sample from both nostrils.
☐ The nasal swab only touched the inside of the nostrils.
☐ I did not spill the fluid in the collection tube.

If you miss any testing steps, results may be inaccurate or result in an error. If you have missed steps please discard kit components and clean your area. Get a new kit at your earliest convenience by visiting AmazonDx.com/FAQs.

For In Vitro Diagnostic Use Only
For Use Under Emergency Use Authorization Only
For Use by Individuals 18 years and older (self-collected)
For Use by Individuals 14 years and older (self-collected under adult supervision)
For Use by Individuals 2 years and older (collected with adult assistance)

Expired samples cannot be processed. If your sample is expired you will receive a notification of error.

This product has been authorized only for the detection of nucleic acid from SARS-CoV-2, not for any other viruses or pathogens. The emergency use of this product is only authorized for the duration of the declaration that circumstances exist justifying the authorization of emergency use of in vitro diagnostics for detection and/or diagnosis of COVID-19 under Section 564(b)(1) of the Federal Food, Drug, and Cosmetic Act, 21 U.S.C. § 360bbb-3(b)(1), unless the declaration is terminated or authorization is revoked sooner.

For individuals under 18 years old, an adult should assist with packaging and UPS dropoff.
Before you start

Carefully read all instructions before you begin.
This kit can be used for individuals 2 years and older.
For 18 years and older, self-collect sample.
For 14 years and older, self-collect sample under adult supervision.
For 2 years and older, collect sample with adult assistance.
Sample collection takes less than 10 minutes.
The return box must be used to ship sample to the lab.
Check box for pre-applied shipping label. Make sure corners are not
damaged and sides have no tears or holes. If damaged, discard
and get a new kit by visiting AmazonDx.com/FAQs.
Drop off the sample at an eligible UPS location on the same
day as collection.
Before registering your kit, confirm the
last air drop off time at
http://www.ups.com/dropoff.
Expired samples cannot be processed.

Components:
- Instructions for use, Nasal swab, Collection
tube with saline, Biohazard plastic bag with absorbent pad,
Return box with shipping label, Tape
- Fact sheet for individuals (not pictured)

Visit AmazonDx.com
Using your personal device, visit AmazonDx.com or view the QR
code with your camera app.
Sign in or create an account.

Register your kit
Watch the overview video during the kit registration process. Write the code at
AmazonDx.com/FAQs.

Collect your sample
We recommend testing while seated.
If you are collecting the sample for a child, explain
the process step-by-step in advance so they know
what to expect.
Do not touch the soft tip of the swab.
Do not touch or drink the fluid in the collection tube.
If the fluid touches eyes or skin, rinse with water.
If you spill the fluid or the swab touches any surface
other than inside the test taker’s nostrils, discard
the kit components. Clean the area with your routine
household surface disinfectant, and get a new kit by
visiting AmazonDx.com/FAQs.

Enter the collection tube ID
Confirm the test kit’s personal information online. Then enter the
collection tube ID, found on the side
of the collection tube.

Press “Register kit”
Collect the sample immediately after registering.
The kit must be registered to get results.

Wash and dry hands
Wash your hands with soap and warm water for 20 seconds.
Use hand sanitizer if there is no sink.
Clean the surface of the area where
the sample will be collected.

Remove the lid from the collection tube
Put the tube lid on a clean surface nearby, with the lid top facing
down.
Put the collection tube in the tube holder provided in the box to avoid spilling fluid.

Open the swab pouch
Peel back the tab on the handle
and remove the nasal swab
from the pouch.
Hold by the handle, do not touch the
tip of the swab.
Discard the swab pouch.
Do not touch the soft tip of the
swab to any surface other than
inside the test taker’s nostrils.

Repeat in other nostril
In the other nostril using the same
swab, stab the swab slowly at
least 4 times taking about 15 seconds.

Recap the collection tube
Make sure the lid is on tight, so no fluid can spill out. If the collection
tube leaks your sample cannot be processed.
Wash your hands or use hand sanitizer if there is no sink.

Swab first nostril
For individuals 14 years or older, insert the soft tip of the swab
½ - ¾ inch inside the nostril.
For children 2-13 years old, insert
the swab no more than ½ inch.
Rub the swab in a slow circular
motion against the inside walls of
the nostril at least 4 times.
This should take about 15 seconds.

If collecting a sample from a child, be careful not to insert
the swab too far into the child’s
nostril. If you feel resistance, stop.

Do not spill the fluid in the
collection tube! If you spill the
fluid, clean the area and discard
your kit components.

Put swab in collection
tube soft tip down
Put the swab in the tube so the
soft tip reaches the bottom.
To break off the swab handle, hold
the tube firmly. Bend the swab
handle against the collection
tube until it breaks.
Discard the handle.
