

## CURRICULUM VITAE

Date Prepared: 3/15/2021  
Name: David Brian Hackney, MD  
Office Address: Beth Israel Deaconess Medical Center  
330 Brookline Avenue. WCCB-90  
Boston, MA 02215 United States  
Work Phone: (617) 754-2009  
Work E-Mail: dbh@post.harvard.edu  
Work FAX: (617) 754-2004  
Place of Birth:

### Education

Year	Degree (Honors)	Fields of Study (Thesis advisor for doctoral research degrees)	Institution
1976	A.B. (cum laude)	Biochemical Sciences	Harvard College
1980	M.D.	Medicine	Cornell University Medical College

### Postdoctoral Training

08/80-06/83	Resident	Diagnostic Radiology	University of California, San Diego Affiliated Hospitals
07/83-06/85	Fellow	Neuroradiology	Massachusetts General Hospital

### Faculty Academic Appointments

1985-1991	Assistant Professor of Radiology at the Hospital of the University of Pennsylvania	Radiology	University of Pennsylvania
1991-1996	Associate Professor of Radiology at the Hospital of the University of Pennsylvania	Radiology	University of Pennsylvania
1996-2003	Professor of Radiology- at the Hospital of the University of Pennsylvania	Radiology	University of Pennsylvania
2003-	Professor	Radiology	Harvard Medical School

### Appointments at Hospitals/Affiliated Institutions

7/1/2003-	Staff Radiologist	Radiology (Neuroradiology)	Beth Israel Deaconess Medical Center
-	Staff Radiologist	Radiology (Neuroradiology)	Needham Hospital
-	Staff Radiologist	Radiology (Neuroradiology)	Harrington Hospital
7/1/85-12/90	Staff Radiologist	Radiology (Neuroradiology)	Children's Hospital of Philadelphia
7/85-12/03	Staff Radiologist	Radiology (Neuroradiology)	Hospital of the University of Pennsylvania
7/85-12/03	Staff Radiologist	Radiology (Neuroradiology)	Veteran's Administration Hospital
01/88-12/94	Staff Radiologist	Radiology	Will's Eye Hospital

### Other Professional Positions

1993-	Consultant - Radiological Devices Panel and Medical Devices Advisory Committee	Center for Devices and Radiological Health, Food and Drug Administration
-------	---	---

### Major Administrative Leadership Positions

Local

Year(s)	Position Title	Institution (note if specific department)
2001-2003	Director, Mentoring Program Department of Radiology	Hospital of the University of Pennsylvania
2001-2003	Section Chief (Acting)	Hospital of the University of Pennsylvania
2003-2004	Faculty Council	Harvard Medical School
2003-	Chief of Neuroradiology Department of Radiology	Beth Israel Deaconess Medical Center
2003-	Assistant Dean for Faculty Development	Harvard Medical School
2017-	Radiology Vice Chair, Equity and Diversity	Beth Israel Deaconess Medical Center

### Committee Service

Local

Year(s) of Membership	Member of Committee	Institution/Organization
	Dates of Role(s)	Title of Role(s)
1989-1992	Drug Usage and Effects Committee	Hospital of the University of Pennsylvania
1993-1998, 2000-2003	University Council	University of Pennsylvania
	1993-1994 Personnel Benefits Committee	University of Pennsylvania
	1993-1995, Steering Committee	
	2000-2003	
	1994-1998 Chairman, Personnel Benefits Committee	
1993-1998	Faculty Senate Executive Committee	University of Pennsylvania

1994-1996	Oversight Committee, Student Judicial System Reform	University of Pennsylvania
1995-1996, 1997-1999, 2000-2001, 2002-2003	Faculty Senate	University of Pennsylvania
	1996-1997 Secretary	
	2000-2002 Committee on the Faculty	
	2000-2002 Committee on Students and Educational Policy	
	2000-2003 Committee on the Economic Status of the Faculty	
	2000-2001 Faculty Senate, Chair-Elect	
	2000-2003 Faculty Senate Executive Committee	
	2001-2002 Faculty Senate, Chair	
	2000-2003 Senate Committee on Administration	
	2002-2003 Faculty Senate, Past Chair	
1996-1998	Benefits Redesign Team	University of Pennsylvania
1997-1999	Medical School Teaching Evaluation Committee	University of Pennsylvania
1998-2003	Committee on Appointments & Promotions, Department of Radiology	University of Pennsylvania
2001-2003	Chair, Department of Radiology Committee on Appointments and Promotions	Hospital of the University of Pennsylvania
2002-2003	Committee on Appropriateness Criteria	University of Pennsylvania
2002-2003	Trustees' Budget & Finance Committee	University of Pennsylvania
2002-2003	Capital Council	University of Pennsylvania
2002-2003	Planning & Budget Committee	University of Pennsylvania
2003-	Chair, Faculty Development Committee, Department of Radiology	Beth Israel Deaconess Medical Center
2003-2004	Council of Deans & Administrative Directors	Harvard Medical School
2003-2004	Faculty Council Docket Committee	Harvard Medical School
2003-2004	Underrepresented Minority Faculty Subcommittee	Harvard Medical School
2003-2005	Medical Education Reform	Harvard Medical School
	2003-2004 Co-Chair, Faculty Development Working Group	
	2003-2005 Faculty Development Working group	
	2003-2005 Steering Committee	
2004-2005	Chair, Faculty Diversity Committee, Faculty Council	Harvard Medical School
2003-2007	Committee on Promotions and Reappointments	Harvard Medical School
2004-2006	Quality Assurance Committee, Interventional Neuroradiology	Beth Israel Deaconess Medical Center
2007-2010	Subcommittee of Professors	Harvard Medical School
2006-2012	Human Subjects Institutional Review Board	Harvard Medical School

2009-2011	Task Force on Faculty Diversity and Development (FDD)	Harvard Medical School
2009-2011	FDD Task Force, Chair Subcommittee on Searches and Expanding the Pool	Harvard Medical School
2011-2014	Subcommittee of Professors	Harvard Medical School
2016-2016-	Committee on Senior Appointments (COSA)	Beth Israel Deaconess Med CTR
2016-	Promotions Review Board, HMS	
2020	Promotions Review Board, HMS, Vice Chair	
2017-18	Task Force on Promotion Criteria, chair	Harvard Medical School
	workgroup on new promotion pathway for teaching and educational leadership	
2017-19	HMS Task Force on Diversity and Inclusion, Career Development and Retention of Diverse Faculty subcommittee, Harvard Medical School	
2017-2019	Institutional Self-Study (ISS) Task Force, ISS Faculty Subcommittee, Harvard Medical School	
2019-23	Honors Committee, Harvard Medical School	

#### National and International

1993-1997	Radiological Devices Panel, Medical Devices Advisory Committee	FDA Center for Devices & Radiological Health
1994	Trauma Task Force	National Institutes of Health
1997-1998	Human Resources of the Commission on Neuroradiology & Magnetic Resonance	American College of Radiology
2004-	External Advisory Board, Brain Tumor SPORE, Nelson P01	University of California, San Francisco
2005	Neuroradiology Appropriateness Criteria Panel	American College of Radiology
2007-	Academy of Radiology Research Board of Trustees	
2008	State Of the Art (SOTA) Conference "Approaches to Traumatic Brain Injury Screening, Treatment, Management, and Rehabilitation"	Veteran's Administration
2012	Neurology Steering Committee	National Quality Forum
2012	Safe Use of Medical Imaging	American Board of Radiology Foundation
2016-2018	Neurology Steering Committee	National Quality Forum
2016-	Medical Imaging Drug Advisory Committee (MIDAC)	Food and Drug Administration
2017-	National Advisory Neurological Disorders and Stroke (NANDS) Council- (ad hoc, 2017. Member, 2018)	National Institute of Neurological Diseases and Stroke

#### Professional Societies

1980-	American College of Radiology	Member
1981-	Radiological Society of North America	Member
1985-	American Society of Neuroradiology	Senior Member
1985 -	International Society of Magnetic Resonance	Member

	in Medicine	
1985-2003	Pennsylvania Radiological Society	Member
1994-1998	American Society of Neuroradiology	Membership Committee, Member
	1996-1997	Chairman
1997-1998	American College of Radiology	Human Resources of the Commission on Neuroradiology & Magnetic Resonance, Member
1998-	American Board of Radiology	Examiner
1999-	Society for Neuroscience	Member
2001-2003	American Society of Neuroradiology	Nominating Committee, Member
	2002-2003	Chairman
2005-2007	American Society of Neuroradiology	Executive Committee
	2005-2007	Treasurer
2009-2012	American Society of Neuroradiology	Vice President, President-Elect, President
2009-2011	American Society of Neuroradiology	
	Program Committee	Member of each committee
	Research Committee	
	Nominating Committee	
	Financial Management Committee	
	Executive Committee	
	Administrative Committee	
2015-	Co-Chair, American Society of Neuroradiology, Financial Management Committee	
2009-2012	Radiological Society of North America	Annual Meeting Program Committee, Member
2009-2012	Radiological Society of North America	Neuroradiology Program subcommittee, Chair
2009-2012	International Society of Magnetic Resonance in Medicine	Annual Meeting Program
2014-	Radiological Society of North America	Committee on Scientific Affairs
2019-20	Radiological Society of North America	Committee on Scientific Affairs, Vice Chair
2020-22	Radiological Society of North America	Committee on Scientific Affairs, Chair
2020-	National Institutes of Health	Board of Scientific Counselors, Clinical Program

### Grant Review Activities

(NIH unless otherwise specified)

#### Regular Member

Code	Type		Type	Start	End
NS NST	IRG	NST-1 Subcommittee	REG	9/19/2008	6/30/2012
RGMEDI	IRG	Medical Imaging Study Section	REG	3/1/2004	6/30/2006
RGRNM	IRG	Diagnostic Radiology Study Section	REG	7/1/2002	4/30/2004
NS NST	IRG	Neurological Sciences Training	REG	7/1/1998	6/30/2002

#### Ad Hoc

DOD, Congressionally Directed Medical Research Programs	Spinal Cord Injury Research Program	1/23/2011- 1/25/2011
FDA	Radiological Health Devices Panel	09/24/10
NCI-A RTRB-H (L1)	Subcommittee A-Cancer Centers, University of New Mexico Site Visit	2/24- 26/2010
ZNS1 SRB-M (74)	Pediatric Neurology Training Review	02/08/10
EHDA-LST	Department of Defense Spinal Cord Injury Research Program , Exploratory Hypothesis Development Application- Local and Systemic Therapeutics,	January 2010
EHDA-ROM	Department of Defense Spinal Cord Injury Research Program , Exploratory Hypothesis Development Application- Rehabilitation and Outcome Measures	January 2010
BOFZAP	University of Leuven (K.U.Leuven)	December 2009
RCOG	Research Grants Review, Research Advisory Committee, Wellbeing of Women	December 2009
ZNS1 SRB-S (21)	Career Development & Fellowship Application	11/4/2009
ZRG1 SBIB-V (52)	RFA-OD-09-003 Challenge Grant Panel 33	8/11/2009

### Editorial Activities

#### Ad Hoc Reviewer

1986 -	Radiology
1987-	American Journal of Neuroradiology
1987-	Annals of Neurology
1991-	Magnetic Resonance in Medicine
1997-	Academic Radiology
1998-	New England Journal of Medicine
1998-	American Journal of Roentgen ology
2000-	Journal of Neuroscience Methods
2007-	Neuroimage
2007-	Journal of Neurology, Neurosurgery and Psychiatry

#### Other Editorial Roles

1988	Abstract Reviewer	Society of Magnetic Resonance in Medicine
1990-	Editorial Board Member	American Journal of Neuroradiology
1991-1995	Associate Editor	Radiology
1992	Issue Editor	Topics in Magnetic Resonance Imaging
1996-	Consultant to the Editor	Radiology

### Honors and Prizes

1999	Fellow	American College of Radiology
2003	Fellow	International Society of Magnetic Resonance in Medicine`

## Report of Funded and Unfunded Projects

### Funding Information

Past

Year(s)	Grant title Grant type and number Role on Project (if PI or site PI, total indirect costs) Description of the major goals

- 1987-1989 Other,  
#87-94, American Cancer Society Clinical Oncology Career Development  
P.I. (\$\_\_)  
Major Goal:
- 1988-1993 Magnetic Resonance of Spinal Cord Injury  
N.I.H.-NINDS,  
R01 NS 25921-01 RNM R  
P.I. \$586,208 total direct costs  
Major Goal: This study investigated the of MR imaging to determine the effects of a rat model of traumatic spinal cord injury. We determined the ability to characterize hemorrhage and edema of the cord using MR and the relationship between imaging findings and severity of injury.
- 1995-1997 James A. Shannon Director's Award, Magnetic Resonance of Spinal Cord Injury  
N.I.H.-NINDS-R01 NS 25921-06A1  
P.I. \$50,000 total direct costs  
Major Goal: This study investigated the of MR imaging to determine the effects of a rat model of traumatic spinal cord injury. We determined the ability to characterize hemorrhage and edema of the cord using MR and the relationship between imaging findings and severity of injury.
- 1995-1998 A Phase I Trial of HSVTK Gene Therapy for CNS Tumors  
N.I.H.-NCI, 1 R01-CA67790-02  
Co-P.I. (\$\_\_)  
Major Goal:
- 1996-1999 Magnetic Resonance of Spinal Cord Injury  
N.I.H.-NINDS, 2 R01-NS 5921-06A2 1996-99  
P.I. (\$\_\_)  
Major Goal:
- 2001-2003 R21-Ca93007-02 [Sydney Evans]1/1/2001-12/31/2003  
N.I.H.-NCI  
Assessment of Hypoxia in Malignant Gliomas Using EF5.  
The overall goal of the clinical program is to determine whether the presence, levels and patterns of EF5 binding are important in the prognosis and therapy response of cancer patients.
- 2002-2004 R21-NS04418901 [Gee]1/1/2002-12/31/2004  
NINDS  
Registration Methods for Diffusion Tensor MRI Studies of Spinal Cord Injury.  
To develop a method of non-rigid registration and spatial normalization of DT-MR images.  
Role: Co I
- 2002-2005 Object Definition in Tomographic Radiology  
N.I.H.-NINDS, R01-NS37172-03A2  
P.I. Udupa  
Major Goal: To develop theories, algorithms and heir practical computer implementations to identify and quantify object information captured in multidimensional medical images.
- 2001-2006 R01 NS41380-01 [Hackney]1/1/01-12/31/06  
NINDS  
Magnetic Resonance Imaging of Post Traumatic Axonal Degeneration and Regeneration.  
Role: PI  
\$ 573,513 Total Direct Costs  
Major Goals: This study uses magnetic resonance diffusion imaging to characterize axonal degeneration and regeneration in response to spinal cord injury.

2006-11

1 R01 CA115745-01A1 [Alsop]7/1/2006-6/30/2011

N.I.H.-NINDS

Title: "Blood Flow MRI for monitoring Glioma Angiogenesis"

The aims of this project are to measure blood flow and its reproducibility in glioma with MRI methods, to correlate blood flow with markers of angiogenic activity and with magnetic resonance spectroscopy measures, and to determine the blood flow characteristics of tumor recurrence following therapy. 0.6 calendar months

Role: Co-P.I.

2010--13

SCIRP 090251 Role:PI

DOD Spinal Cord Injury Research Program

(SCIRP) Translational Research Partnership Award

Role: PI

Magnetic Resonance Characterization of Axonal Response to Spinal Cord Injury

\$750,000 Total Direct Costs

This study uses diffusion, myelin imaging, and magnetization transfer techniques to assess the severity of axonal and myelin loss after spinal cord injury.

2019-2025

R56 AR075964-01 (Alkalay, Hackney, Balboni, multiple PI)

R56- 9/30/2019-4/1/2020 R01 4/1/20-3/31/25 1.68 CM

NIH \$500,290 DC/year

"Predicting Fracture Risk in Patients Treated with Radiotherapy for Spinal Metastatic Disease"

This project will employ bone turnover markers and mechanics of solids analysis of CT imaging of the vertebrae to predict the risk of pathologic fractures among patients who have been treated with radiotherapy for osseous spinal metastases. If successful, our approach may permit precise individualized estimates of fracture risk and hence guide therapy.

Role: Multiple Principal Investigator

## Report of Local Teaching and Training

### Formally Supervised Trainees

Year(s)	
1985-1987	Scott Atlas, MD/Professor
1985-1987	Michael Phillips, MD/Vice Chairman of Research and Academic Affairs, Imaging Institute,

Cleveland Clinic  
 1985-1987 Jeffrey Jarvik, MD/ Professor, University of Washington  
 1985-1987 Jeffrey Petrella, MD/Associate Professor  
 1985-1987 David Yousem, MD/Professor  
 1998-2000 Gul Moonis, MD/Assistant Professor  
 1999-2002 Eric Schwartz, MD/Associate Professor  
 2001- Chih Liang Chin/Other  
 2001-2002 Hardave Kharbanda/Post Doctoral fellow  
 2001-2001 Masaya Takahashi, PhD/Assistant Professor  
 2002- Andra Popescu/Other  
 2005-5  
 2005-6 Carlos Cunha, MD/ Assistant professor  
 2006-7 Nagamani Peri,MD/ Instructor  
 2007-8 Juan Ortega, MD/Assistant Professor  
 2008-9 Alice Fisher, MD/Instructor  
 2008-9 Harprit Bedi, MD/Assistant Professor  
 2009-10 Neel Madan, MD/Assistant Professor

## Report of Regional, National and International Invited Teaching and Presentations

### Invited Presentations and Courses

Year(s)	f presentation or name of course/ Type of presentation/role(s) (note if presentation the result of a selected abstract) Location (Sponsor, if any)
---------	---

#### National

No presentations below were sponsored by outside entities. Or Those presentations below sponsored by outside entities are so noted and the sponsor identified.

Year(s)	f presentation or name of course/ Type of presentation/role(s) (note if presentation the result of a selected abstract) Location (Sponsor, if any)
---------	---

2008	State of the Art (SOTA) Conference: Approaches to Traumatic Brain Injury Screening, Treatment, Management, and Rehabilitation, Arlington, VA, Veteran's Administration/ <i>Invited participant</i>
2010	Advanced Imaging of Degenerative Disk Disease, Radiological Society of North America, Chicago, IL
2011	Imaging of Spinal Injury. 49 <sup>th</sup> Annual Meeting, American Society of Neuroradiology, Seattle, WA, June, 2011

2011	Getting Promoted. 49 <sup>th</sup> Annual Meeting, American Society of Neuroradiology, Seattle, WA, June, 2011
2011	Imaging of Spinal Cord Injury, Eastern Neuroradiology Society, Chatham, MA
2011	Advanced Imaging of Degenerative Disk Disease, Western Neuroradiology Society, Rancho Mirage, CA

2014	Evaluation of Traumatic Spinal Ligamentous Injury. <b>14th Advanced Neuroradiology Course, National Neurological Institute</b> , Singapore, October 2014
2014	Diffusion Imaging of the Spinal Cord. <b>14th Advanced Neuroradiology Course, National Neurological Institute</b> , Singapore, October 2014

## Report of Clinical Activities and Innovations

### Current Licensure and Certification

Year	Type of License or Certification
1981	California Medical License
1984	American Board of Radiology, Certification
1985	Pennsylvania Medical License
1993	New Jersey Medical License
1995	CAQ in Neuroradiology
1996	Ohio Medical License
2003	Massachusetts Medical License
2005	Subspecialty Certification in Neuroradiology, renewed

### Practice Activities

List all clinical activities, both those at Harvard and its affiliates and those outside Harvard, and for each indicate:

Year(s)	Type of activity	Name and location of practice	Level of activity
---------	------------------	-------------------------------	-------------------

2003-present      Neuroradiology      Department of Radiology      3 1/2 days/week  
 Beth Israel Deaconess Medical Center,  
 Boston, MA

## Recognition

Year(s)	Name of award/recognition	Organization conferring recognition
2001- present	Best Doctor in America	
2006-present	"Top Docs" Boston Magazine	
2006-present	"America's Top Doctors"	
2011-present	USNews Top Doctor	

## Report of Scholarship

Peer-Reviewed Publications in Print or Other Media

### Research Investigations

### Narrative Report

My research has focused on imaging of the spine and spinal cord. I have long studied MR imaging of spinal cord injury. We initially demonstrated MR/pathologic correlation in an animal model of cord trauma defining the relationship between hemorrhage and edema at histologic inspection and MR imaging. We have extended these studies to determine the associations between the extent of MR abnormalities, the severity of mechanical injury and functional outcomes. We demonstrated that linear measures of injury size on MR images predicted the drop height in weight drop injuries. We established that diffusion imaging of the cord could contribute to understanding the nature and severity of the injury. Since that time, our work has focused on defining the information to be obtained from diffusion studies of cord trauma. We have followed with investigations of the role of the axonal membrane and myelin sheath in determining diffusion coefficients, measurements of pure intra-axonal diffusion coefficients in the larval sea lamprey, as well studies in the effect of neurotropic factors in recovery from injury and the resulting changes in diffusion characteristics in rats. An extension of this work included studies of the source of multiexponential diffusion behavior in white matter and a novel approach to simulating the MR diffusion experiment on light microscopic images of nervous tissue. This work confirmed that multiexponential fits of diffusion data do not reproduce the proportions of intracellular or extracellular fluid or their diffusion coefficients. We have related the MR diffusion findings to the severity of axonal loss and abnormal post traumatic distribution of axonal diameters. We demonstrated a method for direct imaging of spinal cord myelin content, rather than the inferred concentration based on water T2 measures. These studies have formed much of the foundation upon which interpretation of MR studies of spinal cord injury are based. More recently my focus has shifted to predicting spinal mechanics using noninvasive imaging. With CT we have demonstrated robust prediction of vertebral body failure load in bodies containing simulated lytic metastases. This is in support of a broader effort to predict the risk of pathologic fractures in patients with spinal metastases. We have used MR imaging to predict the mechanical properties of intervertebral disks. This work seeks to elucidate the role of aberrant mechanics on the evolution of degenerative disk disease. We have shown, at the proof of principle level, that we can use diffusion tensor imaging to characterize the annulus fibrosus and estimates of hydration and apparent diffusion coefficient to characterize the nucleus pulposus. Together, these methods provide input data for successful finite element modeling of the disk. We plan to extend this work in a cross sectional study of cadaver disks and refine the approach

to permit in vivo assessment of spinal mechanical responses to loading. Thus, we will be able to predict pathologic fracture risk in patients with metastases and to predict spinal mechanical performance in patients with degenerative disk disease. Throughout my career, I have taught medical students, radiology residents, and neuroradiology fellows. I have collaborated with and mentored junior faculty. I have supervised a small number of graduate students and postdoctoral fellows. As a neuroradiologist, my clinical responsibilities include performance and interpretation of magnetic resonance studies, computed tomography, myelography, and angiography of the central nervous system, head, neck, and a particular emphasis on the spine.

I have a long standing commitment to medical school faculty development. From my work with the University of Pennsylvania Faculty Senate, including serving as Chair of the Senate, to my work with the Office of Faculty Affairs at Harvard Medical School, to founding the Faculty Development Committee in my Department I have focused on progress of junior faculty up the ranks. I actively mentor those in my division and continue to support the Faculty Development Committee. At HMS, I have served on several committees that revised the promotions criteria and attempted to create a pathway past Assistant Professor for those of our faculty who focus on clinical work and clinical teaching.
