

## Pre-Hatch-Waxman Abbreviated New Drug Applications in the Orange Book

### DESCRIPTION

This is a list of products currently included in the Orange Book and identified as an "ANDA" in the Orange Book that were approved in a pre-Hatch-Waxman abbreviated new drug application (PANDA) for safety and effectiveness under section 505(c) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) prior to the enactment of the Hatch-Waxman Amendments. This list includes only those PANDAs submitted under section 505(b) of the FD&C Act and does not include applications for antibiotic drug products approved under section 507 of the FD&C Act before the enactment of the Food and Drug Administration Modernization Act of 1997.

This list includes two sections: 1) products listed in the Prescription Drug Product List of the Orange Book; and 2) products listed in the Discontinued Drug Product List of the Orange Book. The list is presented in alphabetical order by the Established Name of the drug; the list also includes the Proprietary Name, Application Holder, Dosage Form, Route, Strength, Application Number, and Approval Date for each product.
