3 Checklist

- I registered the kit.
- If you have not registered the kit, go back to section 1.
- I collected a sample from both nostrils.
- The nasal swab only touched the inside of the nostrils.
- I did not spill the fluid in the collection tube.
- Put tube inside the plastic bag.
- Put the capped collection tube inside the plastic bag with the absorbent pad.
- Release excess air from the bag and seal it shut.
- Clean the sample collection surface area with a disinfectant.
- Prepare the box for return shipping.
- The return box must be used to ship your sample to the lab.
- Check your box to make sure corners are not damaged and sides have no tears or holes.
- Put your sealed plastic bag with your collection tube in the box.
- Close box and seal with tape.

4 Send sample to lab

- For individuals under 18 years old, an adult should assist with packaging and UPS drop off.

Before sending the sample to the lab:

- If you miss any testing steps, results may be inaccurate or result in an error. If you have missed steps please discard kit components and clean your area. Get a new kit at your earliest convenience by visiting AmazonDx.com/FAQs.

Prepare the box for return shipping:

- The return box must be used to ship your sample to the lab.
- Check your box to make sure corners are not damaged and sides have no tears or holes.
- Put your sealed plastic bag with your collection tube in the box.
- Close box and seal with tape.
- Drop off the box with your sample at a UPS location on the same day.
- Collect and drop off Monday - Friday due to UPS shipping schedules.
- Before registering your kit and collecting your sample, confirm the last air drop off time at http://www.ups.com/dropoff.

## Eligible location types include

- The UPS Store®, UPS Drop Box or UPS Customer Center.

## UPS Access Point locations do not guarantee next day delivery.

## Eligible location types include

- The UPS Store®, UPS Drop Box or UPS Customer Center.

Before sending the sample to the lab:

- Expired samples cannot be processed. If your sample is expired you will receive a notification of error.

For individuals under 18 years old, an adult should assist with packaging and UPS drop off.

### STS Lab Holdco LLC (a subsidiary of Amazon.com Services LLC) offers this product with an FDA Emergency Use Authorization (EUA). This means that this product has not been FDA cleared or approved, but has been authorized for emergency use by FDA under an EUA for use by authorized laboratories. This product has been authorized only for the detection of nucleic acid from SARS-CoV-2, not for any other viruses or pathogens. The emergency use of this product is only authorized for the duration of the declaration that circumstances exist justifying the authorization of emergency use of in vitro diagnostics for detection and/or diagnosis of COVID-19 under Section 564(b)(1) of the Federal Food, Drug, and Cosmetic Act, 21 U.S.C. § 360bbb-3(b)(1), unless the declaration is terminated or authorization is revoked sooner.

410 Terry Ave N, Seattle, WA 98109, USA
Carefully read all instructions before you begin. This kit can be used for individuals 2 years and older. For 18 years and older, self-collect sample. For 14 years and older, self-collect sample under adult supervision. For 2 years and older, collect sample with adult assistance. Sample collection takes less than 10 minutes. The return box must be used to ship sample to the lab. Check box for pre-applied shipping label. Make sure corners are not damaged and sides have no tears or holes. If damaged, discard and get a new kit by visiting AmazonDx.com/FAQs. Drop off the sample at an eligible UPS location on the same day as collection. If you are collecting the sample for a child, explain the process step-by-step in advance so they know what to expect. Do not touch the soft tip of the swab. Do not touch or drink the fluid in the collection tube. If the fluid touches eyes or skin, rinse with water. If you spill the fluid or the swab touches any surface other than inside the test taker’s nostrils, discard the kit components. Clean the area with your routine household surface disinfectant, and get a new kit by visiting AmazonDx.com/FAQs.

Components:
(above left to right) instructions for use, nasal swab, collection tube with saline, biohazard plastic bag with absorbent pad, return box with shipping label, tape, fact sheet for individuals (not pictured)

Register your kit
Visit AmazonDx.com using your personal device, visit AmazonDx.com or view the QR code with your camera app. Sign in or create an account.

Collect your sample
Put the swab in the tube so the soft tip reaches the bottom. To break off the swab handle, hold the tube firmly. Bend the swab handle at the indicator line back and forth against the collection tube until it breaks. Discard the handle.

Remove the lid from the collection tube
Put the tube lid on a clean surface away from reach of children. If the lid top facing down, the collection tube in the tube holder provided in the box to avoid any fluid.

Open the swab pouch
Peel back the tab on the handle end to remove the nasal swab from the pouch. Hold by the handle, do not touch the soft tip. Discard the swab pouch.

Wash and dry hands
Wash your hands with soap and warm water for 20 seconds. Use hand sanitizer if there is no sink.

Recap the collection tube
Make sure the lid is on tight, so no fluid can spill out. If the collection tube leaks your sample cannot be processed. Wash your hands or use hand sanitizer if there is no sink.

Repeat in other nostril
In the other nostril using the same swab, rub the swab slowly at least 4 times taking about 15 seconds.

Swab first nostril
For individuals 14 years or older, insert the soft tip of the swab ½ - ¾ inch inside the nostril. For children 2-15 years old, insert the swab no more than ½ inch. Rub the swab in a slow circular motion against the inside walls of the nostrils at least 4 times. This should take about 15 seconds. If you spill the fluid or the swab touches any surface other than inside the test taker’s nostrils, discard the kit components. Clean the area with your routine household surface disinfectant, and get a new kit by visiting AmazonDx.com/FAQs.

Open the swab pouch
Peel back the tab on the handle end to remove the nasal swab from the pouch. Hold by the handle, do not touch the soft tip. Discard the swab pouch.

Wash and dry hands
Wash your hands with soap and warm water for 20 seconds. Use hand sanitizer if there is no sink.

Clean the area of the area where the sample will be collected.
