## GRAS Notice (GRN) No. 973 amendments https://www.fda.gov/food/generally-recognized-safe-gras/gras-notice-inventory

From: <u>Duncan Turnbull</u>
To: <u>Bonnette, Richard</u>

Subject: RE: GRAS submission for maple fiber

Date: Tuesday, December 08, 2020 4:47:53 PM

Attachments: <u>image001.png</u>

Renmatix Consumption Assessment 12-8-2020.xlsx

#### Richard:

Attached is a modified version of the exposure assessment spreadsheet for maple fiber with the originally proposed meat uses removed. This slightly reduces the overall total estimated exposure to maple fiber by about 10%.

Would it be helpful if I send a revised version of the GRAS Notice incorporating these changes? If so, would it be acceptable to send it as a pdf attached to an email?

**Subject:** GRAS submission for maple fiber

### Dear Dr. Turnbull,

I hope you and yours are doing well. Your submission on behalf of Renmatix, Inc. has completed our prefiling process. We've noted a few minor issues that will need to be corrected before we can file this submission. You do also have the option of asking us to cease our evaluation prior to filing so that the material (if needed) can be prepared before you resubmit as a new submission.

We note that the submission does not include specific suitability data that would typically be required by USDA for their evaluation of the use of the substance in their regulated products. For USDA, "suitability" relates to the effectiveness of the ingredient or substance in performing the intended purpose of use, and the assurance that the conditions of use in a FSIS-regulated establishment will not result in an adulterated product or one that misleads consumers. Regarding effectiveness, they review evidence that the ingredient is achieving the intended technical effect in the USDA product (e.g., emulsification, flavoring, antimicrobial).

USDA has asked that we not file GRAS notices with USDA-regulated uses that lack safety and/or suitability data. You can ask us by email to exclude USDA-regulated products from the intended uses described in the GRAS submission. That email would then be part of the submission going forward. If meat and poultry uses will need to remain, I suggest speak to USDA to ask about the kinds of data they will need, their contact information is below. You would also need to ask us to cease to evaluate this submission while the reviewed version containing the USDA suitability data was prepared. If the USDA-regulated uses are removed, we will need a revised exposure assessment that considers this change. This can be done after filing during the normal review process, but I thought it made sense to mention it now.

### FSIS/RIMS:

Melanie.Abley@fsis.usda.gov (Deputy Director)

Cc: Melvin.carter@fsis.usda.gov (Director)

We also noticed a missing Excel workbook (Renmatix Consumption Assessment 8-1-19.xlsx). Could you provide this also? Email is fine.

Once we have resolution on these issues, the notice should move along to a full review team.

Kind regards, Richard

### Richard E. Bonnette, M.S.

Subject: Re: Renmatix "maple fiber" GRAS notice - technical effects

**Date:** Tuesday, January 19, 2021 2:44:52 PM

Attachments: <u>image001.png</u>

### Thank you, Jason.

## Here is a clarification of the proposed uses of Maple Fiber:

Renmatix's maple fiber is intended for use as a food ingredient for some of the same range of uses as microcrystalline cellulose or cellulose gel (FCC 2016). Microcrystalline cellulose is listed as a miscellaneous food additive due to its broad functions in food. Specifically, Renmatix maple fiber may be used as an emulsifier (EMUL), a stabilizer (STAB) and in the miscellaneous (MISC) category as a humectant, a bulking agent and also to replace texturizers such as xanthan or guar gum, and to replace emulsifiers such as lecithin in some applications.

## Please let me know if this provides sufficient clarity.

### Sincerely,

### Duncan Turnbull, DPhil, DABT

**Subject:** Renmatix "maple fiber" GRAS notice - technical effects

RE: GRAS Notification for Maple Fiber on behalf of Renmatix

Dear Dr. Turnbull,

The GRAS notice for "maple fiber" that you submitted on behalf of Renmatix describes the intended uses as an emulsifier, a texturizer, and "some of the same range of uses as microcrystalline cellulose or cellulose gel." Could you specify to which technical effects the latter refers? We are preparing a letter to you explaining that we have filed this GRAS notice, and the letter needs to accurately describe the intended uses of the ingredient.

Please feel free to reach out (240-402-9241 or <u>jason.downey@fda.hhs.gov</u>) if you have any questions or concerns.

Sincerely,

Jason

Sorry for the confusion, Jason.

That wording was a leftover from an earlier version of the GRAS Notice that had included some confidential business information related to the manufacturing process. We subsequently decided that the information in question was not necessary for the purposes of a GRASS Notice, so the information was removed from the current version. Unfortunately, the wording you refer to regarding FOIA was not updated. It should simply say, none of the data and information in the notice is exempt from disclosure under FOIA.

You don't often get email from jason.downey@fda.hhs.gov. Learn why this is important

**Feedback** 

Hi Dr. Turnbull,

I had a quick question about GRN 973, Renmatix's maple fiber GRAS notice. In Part 1 of the notice, you state that none of the data and information in Parts 3-7 of the notice is exempt from disclosure under FOIA. There is no indication on the releasability of Part 2 of the notice. Is any of the information in Part 2 of GRN 973 exempt from disclosure under FOIA? Thank you,

Jason

#### Jason:

I apologize for the confusion. I have actually retired from Ramboll, though I do maintain a working email address (for now). I had passed along the ongoing work related to this GRN to one of my (former) colleagues, and I thought he had already sent you the "cease to evaluate" letter last week. Because it will take more that the requisite 10 days to respond fully to your comments and questions, the notifier requests that you cease your evaluation of the GRN (see attachment).

**To:** Duncan Turnbull <DTurnbull@ramboll.com> **Subject:** RE: GRN 973 - Questions to the Notifier

Hi Dr. Turnbull,

Our questions regarding GRN 973 were emailed to you more than 10 business days ago and we haven't received any updates. Given the extent of the unresolved issues with the notice, we suggest that the notifier request us to cease our evaluation of the notice, address the issues that we communicated in our April 01 email, and resubmit a new notice at a later date. Absent that, we are beginning to draft a response letter to GRN 973 stating the notice does not provide a basis to conclude the substance is GRAS under the conditions of its intended use. If we receive a written request that we cease our evaluation of the notice, we will stop drafting our "no basis" letter.

Please confirm receipt of this email and let me if you have any questions.

Sincerely,

Jason

### **GRN 000973**

Dear Dr. Downey,

Based on our correspondence with you and on behalf of Renmatix, Inc., the notifier of GRN 000973, in accordance with 21 CFR § 170.260(b), we hereby make the notifier's request to FDA to cease to evaluate GRN 000973.

The subject of GRN 000973 is maple wood fiber for use as a bulking agent, emulsifier, humectant, stabilizer, and texturizer in bread and bakery products, mayonnaise-based spreads, dips, and dressing, tomato-based sauces, dairy products, pasta, flour tortillas, flatbreads, granola and granola bars, batters, phyllo pastry, eggroll/dumpling wraps and similar products, margarine and emulsified spreads, icing, confectionery, chocolate and chocolate products, and nut butters and spreads at levels ranging from 1.4 to 34%.

We thank you and the GRN review team for the thoughtful comments regarding the GRN. We look forward to discussions regarding a subsequent notification at some future date.

Hi Dr. Turnbull,

During our evaluation of GRN 973, which you submitted on behalf of Renmatix for use of maple wood fiber in certain foods, we noted several questions and points in need of clarification, which are listed below. Please provide responses to these requests within **10 business days**. If you are unable to complete the response within that time frame, please contact me to discuss further options. If you have questions or need further clarification, please feel free to contact me. Thank you in advance for your attention to our comments.

Re: Renmatix, Inc., Submission GRN 000973

Dear Dr. Downey:

Ramboll US Consulting, Inc. submitted to the FDA GRN 973 on behalf of Renmatix, Inc., with Dr. Duncan Turnbull as the initial point-of-contact. Since its submission, Dr. Turnbull has retired, and his Ramboll colleagues, Drs. Joseph V. Rodricks and Gavin P. Thompson, have continued to work with Renmatix with regard to GRN 973.

Since Dr. Turnbull has retired, you now seek a new designated point-of-contact. Please contact me, Jennifer Miller, as the point-of-contact on GRN 973. My contact particulars as are follows:

Jennifer Miller
Chief Legal Officer, SVP
660 Allendale Road
King of Prussia, PA 19406
jennifer.miller@renmatix.com
484-751-4025

We confirm that Renmatix has submitted (via our consultant, Ramboll US Consulting) a request to FDA to cease to evaluate GRN 973. We will contact FDA as some future date regarding any additional actions. In the meantime, please contact us if you have any further questions or comments.

Very truly yours,

Jennifer Miller Chief Legal Officer, Sr Vice President, Secretary
