08/2020-present	Section Chief (interim), General Surgery, University of Michigan, Ann Arbor

Clinical Interests

- My clinical practice is devoted to innovative, advanced minimally invasive therapies focused on hernia treatment, benign diseases of the esophagus and morbid obesity.

Research Interests

- My main research interests lie in health services research with a focus in implementation science - the effective and sustainable adoption of evidence-based recommendations into actual practice. Specifically, my work centers on improving outcomes in hernia disease through minimization of low value care. Additionally, this skill set translates to my research in gender equity which concentrates on identifying and closing the gender achievement gap in academic surgery.

Teaching Activity

National

04/2012-04/2014 Course: SAGES Mini-medical school. Volunteered for a program at our national meeting that is aimed at introducing high school students to surgery. 2012 - San Diego, California
2013 - Baltimore, Maryland 2014 - Salt Lake City, Utah

04/2012-04/2014 Course: SAGES advanced laparoscopic course for residents. Invited to participate in a 2 day course geared towards advancing the laparoscopic skills of surgical resident attendees. Responsible for both didactic lectures and hands-on training. 2012- 2014 Cincinnati, Ohio.

04/2014-present Course: SAGES flexible endoscopy course. Invited faculty to participate in a course for minimally invasive and bariatric surgery fellows to gain hands on experience with endoscopy in the early stage of fellowship. Responsible for both didactic lectures and hands on training. Cleveland, Ohio.

10/2015 Course: American College of Surgeons: Bariatric Surgery: Managing Complications - Skills and Strategies. Invited faculty for hands-on didactic course teaching surgeons in practice endoluminal management of complications following bariatric surgery. Chicago, Illinois.

01/2016 Course: Co-Director, "Evolving Strategies in Minimally Invasive Surgery". Joint Stony Brook University and Ohio State University CME course. New Orleans, LA

04/2016-present Course: SAGES LAPCO TT (train the trainer). LAPCO TT is a teaching methodology developed at The Imperial College meant to train surgeons to coach and mentor adult learners e.g. surgeons in practice. I have been trained in this methodology and now actively participate in the hernia ADOPT program. This program is aimed at increasing national adoption of minimally invasive hernia repair. Through this program I am mentoring 3 surgeons, one international and 2 in the United States. This required hands-on mentorship at the 2016 SAGES meeting through a cadaver course and continual web based and e-support throughout the year. Houston, Texas.

09/2016-10/2016 Course: Co-Chair, Women Leadership in Surgery Conference, New York, NY. September 30-October 1, 2016.

10/2016 Course: American College of Surgeons: Bariatric Surgery: Managing Complications - Skills and Strategies. Invited faculty for hands-on didactic course teaching surgeons in practice endoluminal management of complications following bariatric surgery. Washington DC.

11/2017 Course: Chair, Michigan Womens Surgical Collaborative - Women in Leadership Surgery Conference, Ann Arbor, MI. November 10-11, 2017.

10/2018 Course: Planning Lead, Bile Duct Injury Consensus Conference. October 20th, 2018. Boston, Massachusetts.

11/2018-12/2018 Course: Chair, Michigan Womens Surgical Collaborative - Women in Leadership Surgery Conference, Ann Arbor, MI. November 30th-December 1st, 2018.

12/2019 Course: Chair, Michigan Womens Surgical Collaborative - Women in Leadership Surgery Conference, Ann Arbor, MI. December 13-14, 2019.
