Super: Make every moment precious.

Super: Make every moment count.

Super: Trulicity may help lower A1C.*

Super: For all those moments.

Once-weekly Trulicity works 24/7.

Trulicity® (dulaglutide) injection solution is a dipeptidyl peptidase-4 (DPP-4) receptor antagonist indicated for adjunctive use with diet and exercise to improve glycemic control in adults with type 2 diabetes mellitus (T2DM) as an adjunct to diet and exercise. Trulicity may help lower A1C.*

Contraindications: Trulicity is contraindicated in patients with type 2 diabetes mellitus who have uncontrolled Severe Hypoglycemia (less than 50 mg/dL), who are hypersensitive to dulaglutide, who have T2DM who are stable on insulin glargine or insulin detemir, patients with moderate to severe renal impairment (eGFR < 60 mL/min/1.73 m²), and patients with severe hepatic impairment. Trulicity is not recommended for use in patients with type 1 diabetes mellitus or diabetes mellitus secondary to certain conditions such as pancreatic diseases and Fontan circulation.

Warnings: Trulicity may cause serious side effects. Some possible serious side effects include: • Hypoglycemia • Pneumonitis, including interstitial lung disease and lung cancer • Tumors including carcinomas (including lung cancer), angiosarcoma, and basal cell carcinoma • Acute kidney injury • Anaphylaxis • Lipid changes • Kidney problems • Hypersensitivity reactions • Pancreatitis • Weight loss • Gastrointestinal effects • Gallbladder problems • Gallstones • Seizures • Acute kidney injury • Lipid changes

Precautions: Use of Trulicity with other antidiabetes medicines, including insulin, has not been systematically evaluated and is not recommended. If you use 2 antidiabetes medicines at the same time, you should monitor your blood sugar more closely. When you make changes to your antidiabetes medicines, your doctor may want to change your dose of Trulicity. When you stop Trulicity, your dose of your other antidiabetes medicine may need to be decreased or stopped.

Super: Trulicity may help lower A1C.*

*Along with diet and exercise.
