

CURRICULUM VITAE

Updated 2/25/2022

MARGRIT WIESENDANGER, MD, PHD

margrit.wiesendanger@mssm.edu

APPOINTMENTS/EMPLOYMENT

07/2008 – 06/2009	<u>Instructor of Medicine</u> , Division of Rheumatology, Department of Medicine, Columbia University Medical Center, New York, NY
07/2009 – 06/2010	<u>Instructor of Medicine</u> , Divisions of Rheumatology and General Medicine, Dept. of Medicine, Columbia University Medical Center, New York, NY
07/2010 – 04/2015	<u>Assistant Professor of Medicine</u> , Division of General Medicine, Dept. of Medicine, Columbia University Medical Center, New York, NY
04/2015 – 02/2020	<u>Assistant Professor of Medicine</u> , Division of Rheumatology, Department of Medicine, Mount Sinai Health System, New York, NY
02/2020 – present	<u>Associate Professor of Medicine</u> , Division of Rheumatology, Department of Medicine, Mount Sinai Health System, New York, NY
07/2015 – present	<u>Program Director, Fellowship Training</u> , Division of Rheumatology, Department of Medicine, Icahn School of Medicine at Mount Sinai, New York, NY

GAPS IN EMPLOYMENT

Not applicable

EDUCATION

08/1987 – 06/1991	<u>Bachelor of Arts in East Asian Studies</u> , <i>magna cum laude</i> with Honors, Brown University, Providence RI
08/1992 – 06/2000	<u>Doctorate in Medicine and Philosophy</u> , Medical Scientist Training Program in Cell Biology/Immunology, Albert Einstein College of Medicine, Bronx, NY. Thesis Advisor: Matthew Scharff, MD
07/2000 – 06/2002	<u>Resident in Internal Medicine</u> , ABIM Research Pathway, Department of Medicine, Columbia University Medical Center, New York, NY
07/2002 – 04/2003	<u>Post-Doctoral Research Fellow</u> , Laboratory of Yongrui Zou, PhD, Department of Microbiology, Columbia University, New York, NY
05/2003 – 06/2005	<u>Clinical Scholar/Post-Doctoral Research Fellow</u> , Laboratory of Robert Darnell, MD, PhD, Rockefeller University, New York, NY
07/2005 – 06/2007	<u>Clinical Fellow in Rheumatology</u> , Laboratory of Betty Diamond, MD, Division of Rheumatology, Department of Medicine, Columbia University Medical Center, New York, NY

07/2007 – 06/2008

Research Fellow in Rheumatology, Laboratory of Robert Winchester, MD, Division of Rheumatology, Department of Medicine, Columbia University Medical Center, New York, NY

CERTIFICATION

08/2004, 12/2014

Diplomate – American Board of Internal Medicine (Internal Medicine)

08/2008, 12/2018

Diplomate – American Board of Internal Medicine (Rheumatology)

LICENSURE

06/2001

Physician License – State of New York, 222037

07/2003

Drug Enforcement Administration License – Department of Justice

HONORS/AWARDS

05/2000

Alpha Omega Alpha – Albert Einstein College of Medicine, New York, NY

06/2010

Ambulatory Teacher of the Year – Department of Medicine Residency Training Program, Columbia University Medical Center, New York, NY

06/2011

Keynote Speaker – Commencement Ceremony, Department of Medicine Residency Training Program, Columbia University Medical Center, New York, NY

04/2012

Daniel V. Kimberg Memorial Junior Faculty Teaching Award and Lecture – Department of Medicine, Columbia University Medical Center, New York, NY

04/2012

Volunteer Attending Award – Columbia Student Medical Outreach (CoSMO) Clinic, Columbia University College of Physicians and Surgeons, New York, NY

04/2013

Partnership Award – CoSMO Clinic, Columbia University College of Physicians and Surgeons, New York, NY

06/2013

Ewig Clinical Scholar Award for Outstanding Teaching, Department of Medicine, Columbia University Medical Center, New York, NY

05/2014

Morning Report Discussant Award – Department of Medicine Residency Training Program, Columbia University Medical Center, New York, NY

PATENTS

Not applicable

OTHER PROFESSIONAL ROLES

12/2009 - present	<u>Fellow</u> , American College of Rheumatology
06/2011 - present	<u>Fellow</u> , American College of Physicians
09/2017 – present	<u>Medicine Residency Selection Committee Member</u> , Department of Medicine, Icahn School of Medicine at Mount Sinai, New York, NY
06/2018	<u>Abstract Review Committee Member</u> , Section on Healthcare Disparities, American College of Rheumatology
06/2018 – 06/2020	<u>Planning Committee Member</u> , Graduate Medical Education Conference, Icahn School of Medicine at Mount Sinai, New York, NY
06/2019 – present	<u>Course Co-Director</u> , State of the Art Rheumatology for PCPs Conference, Icahn School of Medicine at Mount Sinai, New York, NY
06/2019 – present	<u>Special Government Employee and Committee Member</u> , Arthritis Advisory Committee, United States Food and Drug Administration, Silver Spring, MD
08/2019 – present	<u>Medicine Residency Clinical Competency Committee Member</u> , Department of Medicine, Icahn School of Medicine at Mount Sinai, New York, NY

RESEARCH PROFILE

Synovial biopsy for the discovery of novel genes and biomarkers in inflammatory arthritis (Laboratory of Percio Gulko, MD, Icahn School of Medicine at Mount Sinai)

Previous studies in the Gulko Lab have identified a number of genes responsible for regulating the severity of rheumatoid arthritis and joint damage. The lab has also studied the behavior of synoviocytes *ex vivo*, and plans to expand on this research through participation in the NIH sponsored Accelerating Medicines Partnership (AMP) program grant. I have completed training in musculoskeletal ultrasound-guided synovial biopsy through the AMP-approved skills training site at the University of Birmingham, UK, and we have received institutional IRB approval to perform this procedure. I have also successfully petitioned the credentialing committees at Mount Sinai Hospital, Mount Sinai Saint Luke's and West, Mount Sinai Beth Israel, and New York Eye and Ear Institute, to formally add "Musculoskeletal Ultrasound Guided Synovial Biopsy" to the Delineation of Privileges for the Division of Rheumatology.

CLINICAL PROFILE

Clinical Practice

My practice focuses on ambulatory patients with rheumatologic disease, who are evaluated in the Faculty Practice Associates (4 sessions weekly) or at the Center for Advanced Medicine (2 sessions weekly). Dividing my time between these two clinical sites permits to serve a diverse patient population, in terms of clinical syndromes and medical coverage profiles. I also serve as attending preceptor for the fellows' New Patient Rheumatology clinic (1 session weekly) and as consultation attending at the Mount Sinai Hospital (2-3 months per year). I do not specialize in any specific subset of autoimmune disease, which allows me to have a broad reach and impact in multiple different settings. The practice of general rheumatology is also optimal for training fellows in differential diagnosis and management of complex diseases.

Medical Education

Since July 2015, I have served as Program Director for the rheumatology fellowship. In this role, I have expanded the program complement, fortified and diversified the clinical experience for the fellows by

adding clinics and providing ambulatory experiences in allied fields, and am currently working on restructuring the scholarly activities component. In the Department of Medicine, I have participated in the housestaff didactics as a moderator for case-based presentations, and have welcomed medicine residents in my clinics, to provide clinical exposure to rheumatologic diseases. I also provide specialized lectures for the fellows in the Divisions of Pulmonary Medicine, Gastroenterology, and Allergy and Immunology. I am a regular participant in Review Courses organized by the Richmond University Medical Center, in Staten Island. For the Icahn School of Medicine at Mount Sinai, since 2016 I have moderated a small group series for the Molecules, Cells and Genes course, and for the Immunology course, in which I also serve as a lecturer.

IMPACT

Clinical Practice Impact

Over the past three years, I have built a successful clinical practice for outpatient rheumatology consultations and longitudinal care. I have received consistently positive reviews from patient satisfaction surveys, leading to a 4.9 star rating on my Mount Sinai Doctors Faculty Practice webpage. My enthusiasm and dedication to patient care has earned me the trust of several colleagues in other divisions of the Department of Medicine, who have requested my consultative opinion on their patients with challenging clinical situations. I have also been asked by the President's Office and the Executive Health Program to provide outpatient consultations on patients with special relationships to our institution. In the hospital-based Center for Advanced Medicine rheumatology clinic, I have increased my personal commitment to patient care to 2 sessions weekly, thus enhancing our group's ability to serve patients in our community, who would otherwise not have access to state of the art rheumatology care.

Medical Education Impact

My background in immunology and basic research has greatly enriched my skills as an educator, bringing another level of understanding to the often complex pathophysiology of autoimmune diseases, and their treatment. This has benefited both my patients and my trainees, and provided multiple opportunities for teaching across the continuum of medical education. First and foremost, I am dedicated to the training of rheumatology fellows, currently in my 4th year as the Program Director. Reviews have been consistently positive, as the fellows appreciate my enthusiasm for their learning and dedication to their well-being. We have been tackling different themes, from clinical service, didactics and research, in order to strengthen the program and diversify the portfolio for our trainees, and with the goal of nurturing careers in academic rheumatology. As for the first year medical students, according to the comments and reviews I have received for the Immunology and the Molecules, Cells and Genes courses, my passion for the discipline of rheumatology and for teaching disease pathophysiology is clearly apparent. For most students, this is their first foray into the multiple ways that the immune system relates to health and disease.

Research Impact

I have provided mentoring for rheumatology fellows, and for medicine residents who are interested in pursuing a career in rheumatology, in identifying and pursuing research opportunities. This has included abstract presentations at the Department of Medicine Research Day on April 1-2, 2019, as well as at the Graduate Medical Education Research Day on June 7, 2019. One of the abstracts is being submitted for consideration at the upcoming American College of Rheumatology annual meeting in November 2019.
