

Fabien Maldonado is a Professor of Medicine, Thoracic Surgery and Mechanical Engineering at Vanderbilt University. Originally from France, he attended the School of Medicine in Dijon and then moved to the US to complete a fellowship in Pulmonary and Critical Care Medicine at Mayo Clinic, Rochester, MN. He then completed an Interventional Pulmonary fellowship in Marseille, France, from 2009 to 2010. He helped start an Interventional Pulmonology fellowship program at Mayo Clinic as the co-program director, and currently serves as the program director for the interventional pulmonology fellowship at Vanderbilt university. He is a member of the Board of Directors of the American Association of Bronchology and interventional Pulmonology and serves on several steering committees for the American College of Chest Physicians and the American Thoracic Society. He recently completed a Master of Science in Philosophy, Science and Religion at the University of Edinburgh, UK. He has published over 200 peer-reviewed articles in the field of interventional pulmonology, bronchoscopy and pleural diseases. His main research interests include clinical trials in interventional pulmonology, CT-based quantitative imaging for lung cancer and robotic bronchoscopy in collaboration with the Vanderbilt institute for Surgery and Engineering, with funding from the Department of Defense and the National Institutes of Health. He is also a core faculty member of the Vanderbilt Center for Bioethics and Society.
