

Dermatologist (Physician)

The Center for Devices and Radiological Health ([CDRH](#)), a major regulatory component of the Food and Drug Administration (FDA) and the Department of Health and Human Services, is inviting applications for a Physician (Dermatologist) in the Division of Infection Control and Plastic and Reconstructive Surgery ([DHT4B](#)), Office of Health Technology 4 ([OHT4](#)). The division is specifically responsible for the Total Product Life Cycle (TPLC) review of infection control and plastic and reconstructive surgery devices, including wound care devices, dermal fillers, and other dermatological devices. As a Physician (Dermatologist), you will be applying your expertise to provide clinical insights on the regulatory policy, safety, effectiveness, and usability of the full range of infection control and plastic and reconstructive surgery devices and their accessories used in dermatological procedures.

Duties / Responsibilities

The Physician (Dermatologist) also performs the following duties:

- Review total product life-cycle actions (premarket, compliance, and post-market surveillance) related to infection control and plastic and reconstructive surgery medical devices. Actions may include 510(k), Premarket Approval (PMA), De Novo, IDE (clinical study reviews), pre-submission, submission issue request, 513(g), Medical Device Reports, recall and complaint submissions.
- Develop, modify, and evaluate guidelines concerning clinical data required in device actions to be submitted to the Agency. In this capacity, the incumbent participates as a member of a team of experts to develop agency- or center-wide guidelines applicable to the regulation of relevant medical devices.
- Present reviews, conclusions, opinions, and recommendations to outside stakeholders on submissions and review issues. These discussions will include key issues pertaining to the safety and effectiveness of infection control and plastic and reconstructive surgery medical device(s), outlines of deficiencies, and recommendations for approval or non-approval of the device or the submission.
- Enhance professional career development by collaborating with engineers, clinicians, and scientists to better understand medical device problems. Keep abreast of current events and findings and changes in medical device law and regulations through review of scientific and legislative literature, personal contact with relevant authorities, and by attending scientific meetings.

Professional Experience/Key Requirements

To qualify for this position, you must demonstrate in your resume the necessary experience for this position, which is equivalent to the following:

- Expertise in dermatology and dermatological devices.
- Ability to collaborate with a multi-disciplinary staff responsible for scientific, public health and/or regulatory activities associated with medical products (i.e., devices, biologicals, drugs, etc.).
- Ability to interpret and assess scientific data and technical reports to determine the safety and effectiveness of medical products.
- Ability to represent the organization on committees and at professional meetings, conducting outreach to relevant stakeholder populations, and leading strategic achievement of organizational goals.
- Scientific and medical expertise on medical devices; professional knowledge and understanding of current FDA regulations, policies, and procedures pertaining to safe and effective medical devices.

Salary

Salary is equivalent to GP-0602-14, plus physician market pay (Title 38), and is commensurate with education/experience. U.S. Public Health Service Commissioned Corps Officers may also apply.

Basic Qualifications

Physician, (GP-0602): A Doctor of Medicine or equivalent degree from a foreign medical school must provide education and medical knowledge equivalent to accredited schools in the United States. Evidence of equivalency to accredited schools in the United States is demonstrated by permanent certification by the [Educational Commission for Foreign Medical Graduates](#), a fifth pathway certificate for Americans who completed premedical education in the United States and graduate education in a foreign country, or successful completion of the U.S. Medical Licensing Examination.

Licensure

Applicant must possess a current, active, full, and unrestricted license or registration as a Physician from a State, the District of Columbia, the Commonwealth of Puerto Rico, or a territory of the United States. It is highly desired that the prospective candidate has eligible Board Certification.

Additional Conditions of Employment

- United States Citizenship is required.
- This position requires occasional travel.
- One-year probationary period may be required.
- Background and/or security investigation required.
- All applicants born male, on (or after) 12/31/1959, must be registered with the [Selective Service System](#) OR have an approved exemption.
- This position is subject to strict prohibited financial interest regulations which could restrict the type of financial interest (stock holdings) for the employee, the spouse, and minor children of the employee. For additional information on the prohibited financial interests, please visit the FDA Ethics and Integrity Office website at <https://www.fda.gov/about-fda/jobs-and-training-fda/ethics>.

Application Period

Monday April 25, 2022 – Monday May 23, 2022

How to Apply

We invite you to apply today by completing the following steps:

1. Submit your electronic resume or curriculum vitae to CDRH Recruitment at CDRHRecruitment@fda.hhs.gov. Reference Job Code: **2020-OHT4-DHT4B-026**
2. Create/Log-in to your [USAJOBS account](#) and review the official job opportunity announcement located on USAJobs.gov at <https://go.usa.gov/xtsuQ>. Applications **MUST** be received by applying to the official job opportunity announcement located in the link above.

Required documentation should include: a copy of your current, active, unrestricted medical license and a copy of your Doctor of Medicine transcripts (official/unofficial) or ECFMG. Your transcripts must show completion/conferred date. Additional supporting documentation may include a bibliography, summary of research accomplishments, and names/contact information of three references.
