

CURRICULUM VITAE -- SASCHA DUBLIN

ADDRESS 1730 Minor Avenue, Suite 1600, Seattle, WA 98101-1448
Phone (206) 287-2870; fax (206) 287-2871
Email: Sascha.Dublin@kp.org

CURRENT AND PREVIOUS POSITIONS

Senior Scientific Investigator, Kaiser Permanente Washington Health Research Institute (formerly Group Health Research Institute), Seattle, WA, 10/2018-present
Associate Scientific Investigator (4/2013-10/2018) and Assistant Scientific Investigator (9/2007-4/2013), Kaiser Permanente Washington Health Research Institute, Seattle, WA
Affiliate Professor (7/2020-present), Associate Professor (7/2014-7/2020) and Affiliate Assistant Professor (1/2008-7/2014), Epidemiology Department, School of Public Health, University of Washington, Seattle, WA

EDUCATION AND TRAINING

A.B. Renaissance Studies, *magna cum laude*, Brown University, Providence, RI, 1992
M.D./Ph.D (in Epidemiology), University of Washington, Seattle, WA; Ph.D. 12/99, M.D 6/01
Residency, Internal Medicine, Oregon Health & Science University, Portland, OR (completed 6/04)
Fellow, Health Services Research & Development, VA Puget Sound, Seattle, WA (7/04-8/07)

HONORS AND AWARDS

1990 Kenneth Grief Prize for best essay on Shakespeare, Brown University, Providence, RI
1991 Phi Beta Kappa
1992 Thomas & Lydia Carpenter Premium, Brown University, Providence, RI
1994 Birch Award, American Medical Women's Assoc. - best research paper by a medical student
1997 Association of Women in Science Educational Foundation Citation of Merit
1997 Bertakis Award for Outstanding Oral Presentation, Western Student Medical Research Forum
1997 Student Workshop, Society for Epidemiologic Research, Edmonton, Canada
1997 New Investigators' Workshop, American Society for Preventive Oncology, New Orleans, LA
1997 Magnuson Scholar, University of Washington, Seattle, WA
1998 Achievement Rewards for College Scientists fellowship
1999 Lilienfeld Prize, Society for Epidemiologic Research - best research paper by graduate student
1999 Outstanding Student Award, Epidemiology Dept., University of Washington, Seattle, WA
2003 Alpha Omega Alpha medical honors society
2004 Humanitarianism award, Internal Medicine residency, OHSU
2004 Outstanding Teaching award, Internal Medicine residency, OHSU
2006 Summer Institute on Aging Research, National Institute on Aging, Wye River, MD
2007 Paul Beeson Career Development Award in Aging, National Institute on Aging
2008 Outstanding Reviewer, *Annals of Internal Medicine* (also named in 2009-2011, 2013, 2014, and 2016)
2009 Distinguished Reviewer, *Journal of General Internal Medicine*
2009 Selected for Young Investigators plenary session, HMO Research Network Annual Meeting
2010 Merck/American Geriatrics Society New Investigator Award
2010 Outstanding Poster Award, American Geriatrics Society Annual Meeting
2011 Early Career Investigator Award, HMO Research Network Annual Meeting
2011 Emerging Clinical Leaders program, Group Health, Seattle, WA

- 2012 Honorable Mention, Best Paper Award, *Pharmacoepidemiology and Drug Safety* (co-author)
- 2014 Invited faculty, Society for Epidemiologic Research Student Workshop, Seattle, WA
- 2014 Best paper award (co-author), Epidemiology Section, American Geriatrics Society Annual Scientific Meeting
- 2017 Best Paper Award, *Pharmacoepidemiology and Drug Safety* (co-author), for paper on oral diabetes drugs in combination with insulin and risk of myocardial infarction and stroke
- 2017 Honorable Mention, Best Paper Award, *Pharmacoepidemiology and Drug Safety* (co-author), for paper on exposure to sulfonamide antibiotics in pregnancy and risk of birth defects
- 2018 Honorable Mention, Best Paper Award, *Pharmacoepidemiology and Drug Safety* (co-author), for paper on opioid risk reduction initiatives and risk of motor vehicle collisions in patients on chronic opioid therapy
- 2018 Nominated for Outstanding Faculty Mentor Award, KP Washington Health Research Institute
- 2019 Editors' Choice Award, *Journal of the American Geriatric Society* (co-author), for a paper on dementia risk in relation to use of proton pump inhibitors
- 2019 Outstanding Reviewer, *Pharmacoepidemiology and Drug Safety* (also named in 2010, 2011, 2013 and 2015)
- 2020 Federal Labs Consortium for Technology Transfer (FLC) Impact Award, for a project that developed a mobile app to collect information from patients about medication exposure and outcomes. *This award honors employees whose technology transfer efforts have made a tangible and lasting impact on the populace or marketplace ranging from a local to a global scale.* My role on this project was as a co-investigator and site Principal Investigator.

GRANTS AND CONTRACTS

ACTIVE

- None (PI: Brown) 10/1/2020-8/8/2022
 GlaxoSmithKline
 Title: GSK Pregnancy Exposure Study
 Major Goal: Using data from 6 healthcare systems or insurance providers nationwide, we will describe the use of certain biologic medications in women of childbearing age and pregnant women. We will also describe characteristics associated with exposure to these medications. These activities will lay the groundwork for future studies of pregnancy outcomes. Aims 2 and 3 focus on using electronic health records (EHR) data to obtain richer data about exposed women.
 Role: Co-Investigator (leading Aims 2 and 3) and Site Principal Investigator
 Direct costs: \$187,298 (at KPWHRI only)
- R01AG069734 (PIs: Dublin and Barnes) 9/18/2020-5/31/2025
 National Institute on Aging
 Title: Low-cost Detection of Dementia Using Electronic Health Records Data: Validation and Testing of the eRADAR Algorithm in a Pragmatic, Patient-Centered Trial
 Major Goal: To conduct a pragmatic clinical trial of targeted dementia screening in primary care. We will identify high-risk patients using a novel risk score, eRADAR, which draws on information from the electronic health record. We will carry out clinical trials at Kaiser Permanente Washington and UC San Francisco comparing targeted screening of high-risk individuals vs. usual care (no screening). Outcomes we will study are dementia diagnosis rates, healthcare utilization, and patient experience and satisfaction.
 Role: Multiple Principal Investigator
 Direct costs: \$2,552,795
- R01AG067427 (PIs: Dublin and Barnes) 7/15/2020-4/30/2024
 National Institute on Aging

Title: Identifying and Supporting Patients with Undiagnosed Dementia Using the EHR Risk of Alzheimer's and Dementia Assessment Rule (eRADAR): A Pilot Clinical Trial
Major Goal: To conduct a pilot randomized trial of targeted dementia screening in primary care. We will identify high-risk patients using a novel risk score, the electronic health record Risk of Alzheimer's and Dementia Assessment Rule (eRADAR), which draws on information from the electronic health record. This study will randomize about 50 primary care providers and their 24,000 patients to receive targeted outreach vs. usual care. We will examine acceptability, feasibility, dementia diagnosis rates, and healthcare utilization, to lay the groundwork for a future full-scale clinical trial.
Role: Multiple Principal Investigator
Direct costs: \$1,992,997

None (PI: Dublin) 6/1/2020-12/31/2021
Garfield Memorial Fund
Title: Potential for Repurposing Currently Approved Medications to Fight COVID-19: A Proof-of-Concept Study
Major Goal: Using data from 3 Kaiser Permanente regions, to examine the use of various medications in relation to risk of acquiring infection with SARS-CoV-2, and 2) to examine illness severity associated with the use of these medications compared to non-use, including the outcomes of hospitalization, admission to the intensive care unit (ICU), and mortality.
Role: Principal Investigator
Direct costs: \$263,615

R24 AG064025 (PIs: Boyd and Steinman) 8/15/2019-7/31/2024
National Institute on Aging
Title: U.S. Deprescribing Research Network
Major goal: To develop and disseminate evidence about deprescribing for older adults, the structured process of stopping unnecessary or potentially harmful medications in a safe and effective way. The network will provide resources and supports to catalyze the expansion of deprescribing research and to promote collaboration and mutual learning.
Role: Co-lead, Data and Resources Core

U01 CE002967 (PI: Phelan) 9/30/2018-9/29/2022
Centers for Disease Control and Prevention
Title: Reducing CNS-active Medications to Prevent Falls and Injuries in Older Adults
Major Goals: To refine and test an intervention to reduce falls in older adults by reducing the use of central-nervous-system-active medications among older adults who receive medical care through Kaiser Permanente (KP) Washington.
Role: Co-Investigator

R01 AG057508 (PIs: Yaffe, Larson) 9/15/2017-4/30/2022
National Institute on Aging
Title: Multi-domain Alzheimer's Risk Reduction Study Pilot
Major Goals: To develop and then pilot test a unique personalized multiple risk factor reduction strategy for older people aiming to prevent dementia. This project will shape plans for a larger nationwide trial of multiple risk factor reduction to prevent dementia.
Role: Co-Investigator
Direct Costs (all sites): \$2,000,727

COMPLETED

None (PI: Dublin) 1/1/2020-12/31/2020
KP Washington Health Research Innovation Fund

Title: Building New Collaborations and Exploring New Data Sources to Study Pregnancy Outcomes
Major Goal: To explore and access new data sources to study medication safety in pregnancy, including New Zealand country-wide data on pregnancy exposures and outcomes and Washington State's All-Payer Claims Database.

Role: Principal Investigator

Direct costs: \$44,606

HHSF223201400042I (PI: Toh)

9/15/2016-9/14/2020

Food and Drug Administration

Title: Medication Exposure in Pregnancy Risk Evaluation Program (MEPREP)

Major Goals: To maintain all data, data linkages, standardized datasets, and organizational structure created in the Medication Exposure in Pregnancy Risk Evaluation Program pilot program.

Role: Site Principal Investigator

Direct costs (KPWA only): \$36,590

R01 HD082141 (PI: Dublin)

9/5/2015-6/30/2020

National Institute of Child Health and Human Development

Title: Moderate Hypertension in Pregnancy: Safety and Effectiveness of Treatment

Major Goals: 1) To evaluate the effect of treatment of mild to moderate hypertension in pregnancy, compared to no treatment, on maternal and infant outcomes; 2) to compare outcomes with different antihypertensive medications; and 3) to determine whether the benefits and risks vary by maternal race/ethnicity or obesity status.

Role: Principal Investigator

Direct costs: \$3,318,411

HHSF223201400042I (PI: Toh)

9/29/2016-12/31/2019

Food and Drug Administration

Title: Evaluation of the Risk of Neural Tube Defects Among Live Births Exposed to Maternal Prescription Opioids During Early Pregnancy

Major Goal: To measure the association between in utero exposure to prescription opioids during early pregnancy and neural tube defects.

Role: Co-Investigator

Direct costs (all sites): \$3,507,047

None (PI: Dublin)

1/1/2019-12/31/2019

KP Washington Health Research Institute Development Fund

Title: Exploring New Data Sources for Pregnancy Research

Major Goal: To explore and access new data sources to study medication safety in pregnancy, including New Zealand country-wide data on pregnancy exposures and outcomes and Washington State's All-Payer Claims Database.

Role: Principal Investigator

Direct costs: \$76,918

U01AG006781 (PIs: Larson and Crane)

5/15/2015-4/30/2020

National Institute on Aging

Title: Alzheimer's Disease Patient Registry

Major Goals: 1) to examine the independent and joint effects of multiple modifiable cardiovascular risk factors and their treatments on the aging brain and 2) to explore why some people retain functioning despite considerable physical and neuropathological comorbidity, examining predictors of resilience and robust aging.

Role: Co-Investigator

Direct costs: \$10,154,578

R56 AG056417 (PI: Barnes) 9/15/2017-9/14/2019
National Institute on Aging
Title: Development and Validation of the EMR Risk of Alzheimer's and Dementia Assessment Rule
Major Goals: To develop and validate the EMR Risk of Alzheimer's and Dementia Assessment Rule (eRADAR), an automated tool that will use information in the electronic medical record to identify patients likely to have current, undiagnosed dementia. We will conduct focus groups and interviews with patients, caregivers, clinicians and health care system leaders to learn how to best implement eRADAR in clinical practice.
Role: Site Principal Investigator; Co-Investigator
Direct costs (all sites): \$500,000

JA #32369 (PI: Hansen) 2/1/2018-7/31/2019
Jazz Pharmaceuticals
Title: Analysis of the Risk of Motor Vehicle Accidents in Patients with Obstructive Sleep Apnea
Major Goals: To examine the association between obstructive sleep apnea and motor vehicle collisions.
Role: Site Principal Investigator; Co-Investigator
Direct costs (KPWA only): \$214,771

R21AG055604 (PI: Scherrer) 4/15/2017-6/30/2019
National Institute on Aging
Title: A Big Data Research Study on the Relationship between Metformin Use and Dementia
Major Goal: To measure the association between use of metformin and risk of developing dementia using data from the Veteran's Health Administration and Kaiser Permanente Washington.
Role: Site Principal Investigator; Co-Investigator
Direct costs (KPWA only): \$98,940

None (PI: Dublin) 1/1/2016-12/31/2018
Group Health Foundation Partnership for Innovation
Title: Evaluating the Impact of the Gestational Diabetes Guideline Change at Group Health
Major Goal: To evaluate the impact on pregnancy outcomes of major changes to the Group Health guideline about screening and treatment for gestational diabetes. Outcomes to be studied include prevalence of gestational diabetes, cesarean delivery, labor induction, large for gestational age infant, macrosomia, neonatal intensive care unit stay, and neonatal hypoglycemia.
Role: Principal Investigator
Direct costs: \$330,332

HHSF223201000009I (PI: Adams) 10/1/2014-9/29/2018
Food and Drug Administration
Title: Retrospective Cohort Study of High Dose Proton Pump Inhibitor (HD-PPI) Use, Labeled PPI Use, or H2 Receptor Antagonist (H2RA) Use on Risk of Hip Fractures and a Nested Case-control Study of Cytochrome P4502C19 Pharmacogenetics
Major Goals: To study the association between use of high dose proton pump inhibitors and hip fracture, including pharmacogenomics.
Role: Co-Investigator
Direct costs (KPWA only): \$80,814

R01 HD071986 (PIs: Dublin and Getahun) 9/1/2013-5/31/2018
National Institute of Child Health and Human Development
Title: Elective Induction of Labor and Pregnancy Outcomes

Major Goals: 1) To examine maternal and infant outcomes associated with elective induction of labor compared to expectant management at 38, 39 and 40 weeks of gestation; and 2) to examine how risks vary according to maternal race/ethnicity, parity, and obesity status.

Role: Multiple Principal Investigator

Direct costs: \$2,613,463

HHSF223201400030I (PI: Platt)

9/1/2016-04/30/2018

Food and Drug Administration

Title: Collection of Patient-Provided Information through a Mobile Device Application to Support FDA Sentinel

Major Goal: To develop a generalizable approach for collecting patient-reported data via a mobile platform to support medical product safety surveillance. We will develop and pilot test a mobile app to capture data from pregnant women about medication exposures, pregnancy outcomes, and potential confounders that will be matched with Kaiser Permanente electronic health data.

Role: Co-Investigator, Site Principal Investigator

Direct costs (at KPWA): \$171,970

None (PI: Lapham)

1/1/2017-12/31/2017

Group Health Research Institute Development Fund

Title: Cannabis Use During Pregnancy: Pilot Quantitative and Qualitative Data

Major Goal: To conduct preliminary quantitative and qualitative pilot work to describe the prevalence of cannabis use, possible reasons for cannabis use, and pregnancy outcomes, among pregnant women within Kaiser Permanente Washington.

Role: Co-Investigator

R24AG045050 (PI: Gurwitz)

1/1/2016-12/31/2017

National Institute on Aging

Title: Electronic Medical Record (EMR) Predictors of Undiagnosed Dementia

Major Goals: To obtain pilot data to support future work to develop an automated risk score to identify patients who are likely to have undiagnosed dementia. We will explore novel EMR data suggesting chaotic patterns of care (e.g., missed clinic visits); describe patterns of health care utilization; and describe medication adherence in patients with undiagnosed dementia compared to patients without dementia.

Role: Principal Investigator of pilot project

Direct costs (at KPWA): \$25,000

IHS-1306-02198 (PI: Von Korff)

5/1/2014-4/30/2017

Patient-Centered Outcomes Research Institute

Title: Evaluation of a Health Plan Initiative to Mitigate Chronic Opioid Therapy Risks

Major Goals: To evaluate Group Health's chronic opioid therapy risk mitigation initiative to determine whether it reduced risks of prescription opioid use disorders and affected pain outcomes of chronic pain patients using opioids long-term. We will also assess effects of the risk mitigation initiative on major adverse health events including fractures, motor vehicle accidents, and opioid overdose.

Role: Co-investigator

None (PI: Barnes)

8/1/2015-12/31/2016

Tideswell Foundation

Title: Detection of Undiagnosed Dementia Through the Electronic Medical Record (EMR)

Major Goal: The aims of this pilot study are: 1) Within a prospective cohort study of incident dementia, to identify a cohort of patients whose dementia went unrecognized by their healthcare providers; and 2) to compare the characteristics of patients with unrecognized dementia to those of study participants without dementia.

Role: Co-Investigator

None (Dublin) 1/1/2016-8/31/2016

Group Health Research Institute Development Fund

Title: Pregnancy Perspectives: Hypertension in Pregnancy

Major Goal: To conduct focus groups of pregnant women and women who have given birth in the past 3 years who had hypertension during pregnancy to solicit their perspectives on interventions including which outcomes are most important, to help guide future research.

Role: Principal Investigator

Direct costs: \$49,974

None (Dublin) 3/1/2015-10/31/2015

Group Health Research Institute Development Fund

Title: Pregnancy Perspectives

Major Goal: To conduct focus groups of pregnant women and women who have given birth in the past 3 years to solicit their perspectives on interventions in pregnancy including treatment for diabetes, to help guide future research.

Role: Principal Investigator

Direct costs: \$39,979

HHSF223200510012C-COA7 (PI: Platt) 9/1/2014-9/30/2015

Food and Drug Administration

Title: Feasibility Assessment for a Claims-based Retrospective Case-Control Study of the Association between Opioid Use during Pregnancy and Neural Tube Defects Using Data from the Medication Exposure in Pregnancy Risk Evaluation Program (MEPREP)

Major Goal: To determine feasibility of conducting a case-control study of exposure to examine whether use of opioids in early pregnancy increases risk of birth defects in exposed infants.

Role: Site Principal Investigator

None (PI: Dublin) 8/1/2012-7/31/2015

Branta Foundation

Title: Medications and Dementia Risk in Older Adults

Major Goals: To study the association between 3 medication classes - opioid pain medications, benzodiazepines, and general anesthesia - and brain outcomes in older adults, including dementia, global cognitive trajectory, and neuropathology. The opioid analyses will 1) compare the impact of long versus short acting medications and 2) assess whether opioid effects differ in subgroups including by age, gender, and baseline cognitive function.

Role: Principal Investigator

Direct costs: \$360,285

HHSF223200910006I (PI: Platt) 12/18/2013-5/17/2015

Food and Drug Administration

Title: Efforts to Develop the Sentinel Initiative: A Protocol-based Assessment of Selected Medications and Death

Major Goals: To develop and implement protocols to assess the associations of antibiotics and antidepressants with sudden cardiac death, including assessing the feasibility of linking the Mini-Sentinel Distributed Database with the National Death Index and establishing a process for this linkage.

Role: Co-Investigator

HHSF223200910006I (Platt) 1/1/2014-3/31/2015

Food and Drug Administration

Title: Efforts to Develop the Sentinel Initiative: Analytical Methods to Assess the Robustness of Drug Safety Monitoring
Major Goals: To identify and implement sensitivity analyses that can be carried out within the Mini-Sentinel context to examine the potential impact on results of biases such as residual confounding, exposure, and outcome and covariate misclassification.
Role: Workgroup member

None (PI: Dublin) 1/1/2011-12/31/2014
Branta Foundation

Title: Pneumonia Risk Project
Major Goals: 1) To examine pneumonia risk in relation to use of angiotensin-converting enzyme inhibitors; 2) to compare different methods for studying medications and pneumonia risk, identifying and disseminating "best practices"; and 3) to develop a risk score for pneumonia based on simple and easily obtained measures.
Role: Principal Investigator
Direct costs: \$367,516

R03 AG042930 (PI: Dublin) 8/1/2012-7/31/2014
National Institute on Aging

Title: Opioids and the Aging Brain: Dementia, Cognitive Decline and Neuropathology
Major Goals: To examine whether long-term use of prescription opioids is associated with a) higher incidence of all-cause dementia or Alzheimer's disease; b) more rapid decline in global cognitive functioning, and c) higher burden of Alzheimer's disease neuropathology.
Role: Principal Investigator
Direct costs: \$100,000

HHSF223200910006I (PI: Platt) 5/8/2012-12/31/2013
Food and Drug Administration

Title: Efforts to Develop the Sentinel Initiative: Birth Certificate Data Matching for the Post-Licensure Rapid Immunization Safety Monitoring (PRISM) Program
Major Goals: To expand the data available for post-marketing vaccine safety surveillance by investigating and supporting matching of health plan data to state birth certificate and fetal death certificate data for Mini-Sentinel Data Partners.
Role: Co-Investigator

HHSF223200910006I (PI: Platt) 9/1/2012-10/31/2013
Food and Drug Administration

Title: Efforts to Develop the Sentinel Initiative: Using Supplemental Information for Improved Confounder Adjustment
Major Goals: 1) To develop a 2-phase sampling design strategy for supplemental data collection (e.g. medical record review) to refine a signal detected in automated data; 2) To develop a framework to determine which confounders should be collected; and 3) To develop an alternative strategy through which supplemental information could be collected on an ongoing basis, before a signal is detected.
Role: Workgroup Lead

HHSF22301008T (PI: Platt) 9/12/2012-9/11/2013
Food and Drug Administration

Title: Feasibility Assessment for Retrospective Cohort Study of Risk of Hip Fractures Associated with High Dose, Long Term Proton Pump Inhibitor (PPI) Use or H2 Receptor Antagonists (H2RA) and Cytochrome P450 Pharmacogenomics

Major Goals: 1) To create and describe a cohort of new users of prescription PPI or H2RA, including a nonuser comparison group, including evidence of ability to link patient records to biospecimens; and 2) to develop innovative strategies to address confounding by indication and analyze pharmacogenetic influences of CYP2C19 inhibition.

Role: Co-Investigator

K23 AG028954 (PI: Dublin)

9/15/2007-8/31/2013

National Institute on Aging

Title: Pharmacoepidemiology in the elderly: medications, pneumonia risk and confounding. Paul Beeson Career Development Award in Aging.

Major Goals: To develop a career as an independent physician-investigator studying medication safety in older adults; to provide new knowledge about medications and risk of pneumonia in older adults; and to contribute to improved research methods in studies of medication safety in older adults.

Role: Principal Investigator

Direct costs: \$800,000

HHSF223200510012C-COA7 (PI: Platt)

9/14/2011-8/31/2013

Food and Drug Administration

Title: Systemic Sulfonamide Use During Pregnancy and the Risk of Selected Congenital Abnormalities in the Offspring

Major Goals: 1) To measure the association between exposure to sulfonamides during pregnancy and congenital abnormalities in the offspring. 2) To maintain all data, data linkages, standardized datasets, and organizational structure created in the Medication Exposure in Pregnancy Risk Evaluation Program pilot program.

Role: Site Principal Investigator

Direct costs (all site): \$1,419,830

None (PI: Dublin)

1/1/2010-12/31/2012

Group Health Research Institute Development Fund

Title: Natural Language Processing to Identify Pneumonia from Radiology Reports

Major Goal: To validate Natural Language Processing tools to identify pneumonia cases from electronic radiology text reports and to assess these tools' transferability to other health care systems.

Role: Principal Investigator

HHSF223200510012C-COA7 (PI: Platt)

10/1/2010-9/30/2011

Food and Drug Administration

HMORN CERT Epidemiological Studies of the Adverse Effects of Marketed Drugs: Prescribing in Pregnancy

Major Goals: This project builds on previous work creating a multisite data repository for studies of birth outcomes. The specific objectives are: 1) to evaluate gestational age assumptions based upon administrative health plan data compared to birth certificate data, and 2) to describe the prevalence and patterns of use of antidiabetic medications during pregnancy.

Role: Site Principal Investigator

HHSF223200910006I (Platt)

4/1/2010-7/31/2011

Food and Drug Administration

Title: Efforts to Develop the Sentinel Initiative: Review of the Evidence for Selected Health Outcomes of Interest (HOIs): Atrial Fibrillation

Major Goals: To review the literature to identify algorithms that have been examined to identify atrial fibrillation using electronic health data, summarize the test characteristics of those algorithms, and identify areas for future research.

Role: Principal Investigator

P30 AG0345592 (PI: Teri) 9/30/2009-8/31/2011
National Institutes of Health
Title: Cognitive Function and Breast Cancer Care – Roybal Center
Major Goals: To investigate how often cognitive and functional status are assessed prior to treatment for breast cancer and to determine how these characteristics influence treatment decisions.
Role: Co-Investigator on this Roybal Center pilot project

HHSF223200510012C (Platt) 10/4/2010-7/31/2011
Food and Drug Administration
Title: Center for Drug Evaluation and Research Antiepileptic Study
Major Goals: This project will build on work started during Year 2 of CERT III where the process for multisite active surveillance for medication safety was developed and tested. We will develop additional methods to understand and overcome potential biases that arise during active drug safety surveillance. This work will focus on the brand-to-generic transition of several antiepileptic medications.
Role: Site Principal Investigator

U18 HS016955 (PI: Platt) 9/1/2007-8/31/2011
Agency for Healthcare Research and Quality
Title: HMO Research Network Center for Education and Research on Therapeutics III: Infrastructure
Major Goals: To continue studies on drug safety and pharmacovigilance in a population-based setting. The Year 4 pilot project led by Dr. Dublin has the following aims: 1) to describe labor induction trends across 10 health plans from 2001-2007, including induction without a documented indication; 2) to describe characteristics of women undergoing elective induction compared to medically indicated induction or no induction; and 3) to validate the algorithm for elective induction through medical record review.
Role: Lead Investigator for Year 4 project; Site Principal Investigator in all years

HHSF223200510012C-COA7 (Platt) 8/18/2008-9/22/2010
Food and Drug Administration
Title: HMORN CERT Epidemiological Studies of the Adverse Effects of Marketed Drugs: Prescribing in Pregnancy
Major Goals: This multisite collaborative project will develop infrastructure to enable the ongoing study of medication use and outcomes in pregnancy. Specific components include: 1) maternal-infant record linkage; 2) linkage to infants' birth certificate data; 3) validation of data elements through medical chart abstractions; and 4) annual update of the datasets.
Role: Site Principal Investigator, Group Health

5 U18 HS016955 (PI: Platt) 9/1/2008-8/31/2010
Agency for Healthcare Research and Quality
Title: HMO Research Network CERT III – Adverse Drug Reactions
Major Goals: Aim 1) to pilot test prospective surveillance, using sequential testing methodologies, for identifying serious adverse drug reactions (ADRs) to newly marketed drugs. This project will examine safety of new generic antiepileptic drugs compared to the equivalent branded medications. Aim 2) To develop a new mixed structure model data mining method.
Role: Site Principal Investigator, Group Health

HHSF223200510010C (PI: Platt) 7/1/2008-6/30/2009
Food and Drug Administration
Title: HMORN CERT Epidemiological Studies of the Adverse Effects of Marketed Drugs: ADHD and Cardiovascular Outcomes: Medical Record Review

Major Goals: To validate data elements from the ADHD Phase I study by reviewing charts of patients suffering ischemic or hemorrhagic stroke.

Role: Site Principal Investigator, Group Health

HHS290200500331-TO4-WA1 (PI: Platt)

9/1/2007-2/28/2009

Agency for Healthcare Research and Quality

Title: A Multicenter, Observational Cohort Study To Assess the Cardiovascular Risks of Medications Prescribed for Attention Deficit Hyperactivity Disorder

Major Goals: To examine the risks of serious cardiovascular events including stroke, sudden cardiac death, and myocardial infarction in children and adults receiving medications for ADHD.

Role: Site Principal Investigator, Group Health

Ovarian Cancer and Prescription Drug Use. University of WA Royalty Research Fund. Project director (dissertation project; P.I. Dr. Noel Weiss). August 1997-July 1998.

Johnson & Johnson/Woodrow Wilson Foundation Dissertation Grant in Women's Health, 1997.

SELECTED PRESENTATIONS, POSTERS AND ABSTRACTS

REFEREED PODIUM PRESENTATIONS

Fuller S, Gleason K, Walker RL, Fortmann SP, Albertson-Junkans L, Powers JD, Lee MH, Floyd JS, Temposky L, Shortreed SM, Bayliss EA, Harrington LB, Kuntz JL, Pieper L, Van Marter J, **Dublin S (presenter)**. Validity of Electronic Health Records-Based Measures for COVID-19 Hospitalization and Severe Outcomes. Oral presentation, International Conference on Pharmacoepidemiology (online conference), August 24, 2021.

Dublin S, Walker RL, Floyd JS, Shortreed SM, Fuller S, Albertson-Junkans LH, Harrington LB, Greenwood-Hickman MA, Green BB, Psaty BM. Renin-angiotensin-aldosterone system inhibitors and COVID-19 infection or hospitalization: a cohort study. Oral (online) presentation at special web-based session, Specific Treatment-Outcome Association Studies of COVID-19, presented by the International Society for Pharmacoepidemiology, December 1, 2020.

Dublin S, Akosile M, Avalos LA, Cheetham TC, Easterling TR, Chen L, Nance N, Bider-Canfield Z, Holt VL, Neugebauer RS, Reynolds K, Badon SE, Shortreed SM. Comparing maternal and neonatal outcomes with use of different antihypertensive medications in pregnancy. Oral presentation, International Conference on Pharmacoepidemiology (online conference), September 2020.

Dublin S, Akosile MA, Chen L, Avalos LA, Cheetham TC, Easterling T, Holt VL, Badon SL, Neugebauer RS, Reynolds K, Walker RL, Shortreed SM. Does the type of antihypertensive medication used in pregnancy affect risk of pre-eclampsia? Oral presentation, International Conference on Pharmacoepidemiology, Philadelphia, Pennsylvania, August 26, 2019.

Barnes DE (presenter), Zhou J, Walker RL, Larson EB, Lee SJ, Boscardin WJ, Marcum Z, **Dublin S**. Development and Validation of the Electronic Health Record Risk of Alzheimer's and Dementia Assessment Rule (eRADAR). Oral presentation, Alzheimer's Association International Conference, Los Angeles, California, July 2019.

Wartko PD (presenter), Weiss NS, Enquobahrie DA, Chan KCG, Stephenson-Famy A, Mueller BA, **Dublin S**. Validity of maternal weight and gestational weight gain measures from birth certificates. Oral presentation, Society for Epidemiologic Research Annual Meeting; June 19, 2019; Minneapolis, MN.

Palazzo L (presenter), Figueroa-Gray M, Hsu C, Greenwood-Hickman MA, Barnes D, **Dublin S**. Recognizing risk: New ways to use health data for patient centered dementia care. Society for Applied Anthropology, Portland, Oregon, March 2, 2019.

- Chen L (presenter), Easterling T, Cheetham TC, Reynolds K, Avalos LA, Holt V, Neugebauer S, Shortreed SM, Akosile M, Kamineni A, Walker R, Badon SE, **Dublin S**. Using Blood Pressure Values from Electronic Medical Records to Identify Hypertension During Pregnancy. Oral presentation, 2018 Joint Hypertension Scientific Session, Chicago, Illinois, September 2018.
- Wartko PD (presenter), Weiss N, Enquobahrie DA, Mueller BA, Chan GKC, Stephenson-Famy A, **Dublin S**. Association of antidepressant continuation in pregnancy with maternal gestational weight gain and gestational diabetes. Oral presentation, International Conference on Pharmacoepidemiology, Prague, Czech Republic, August 25, 2018.
- Harding BN (presenter), Scherrer JF, Floyd J, Farr SA, **Dublin S**. Methods to detect dementia in the electronic health record: Comparing cognitive test scores with dementia algorithms. Oral presentation, International Conference on Pharmacoepidemiology and Therapeutic Risk Management Annual Meeting, Prague, Czech Republic, August 26, 2018.
- Dublin S**. Collecting Patient-Reported Data via a Mobile App for Pregnancy Studies. Oral presentation, Teratology Society 58th Annual Meeting, Clearwater, Florida, June 24, 2018.
- Pocobelli G (presenter), Yu O, Fuller S, Fraser J, Wartko P, Chen L, Newton KM, McCulloch D, Warwick S, **Dublin S**. Maternal and neonatal outcomes in relation to adoption of the 1-step approach to identifying gestational diabetes mellitus. Oral presentation, Society for Maternal-Fetal Medicine Annual Meeting, Dallas, Texas, February 2, 2018.
- Dublin S**. Developing a mobile app for studies of medication safety. Oral presentation as part of a symposium entitled, "Listening to the Patient Voice in Pharmacoepidemiological Research: Opportunities for Innovation and Inclusion." International Conference on Pharmacoepidemiology, Montreal, Quebec, Canada, August 29, 2017.
- Dublin S**, Gray SL, Walker RL, Yu O, Aiello Bowles EJ, Anderson, ML, Crane PL, Larson EB. Proton pump inhibitor use and dementia risk. Oral presentation, International Conference on Pharmacoepidemiology, Montreal, Quebec, Canada, August 2017.
- Dublin S**, Von Korff M, Saunders K, Walker RL, Thakral M, Sherman KJ, Ludman E, Hansen RN, Parchman M, Shortreed SM. Impact of risk reduction initiatives on rates of opioid overdose. Oral presentation, International Conference on Pharmacoepidemiology, Montreal, Quebec, Canada, August 2017.
- Gray SL, Anderson ML, **Dublin S** (presenter), Hanlon JT, Hubbard R, Walker RL, Yu O, Crane P, Larson EB. Cumulative Use of Strong Anticholinergic Medications and Incident Dementia. Oral presentation, International Conference on Pharmacoepidemiology, Boston, MA, August 22-26, 2015.
- Gray S, Anderson ML, **Dublin S**, Hanlon J, Yu O, Walker R, Hubbard R, Crane P, Larson E. Anticholinergic medication use and incident dementia. Oral presentation and winner of Best Paper Award, Epidemiology Section, American Geriatrics Society Annual Scientific Meeting, Orlando, Florida, May 2014. *J Am Geriatr Soc* 2014; 62(Suppl. 1): S11.
- Dublin S**, Walker RL, Gray SL, Hubbard R, Anderson ML, Yu O, Crane PK, Larson EB. Use of opioids and risk of dementia in older adults. Oral presentation, International Conference on Pharmacoepidemiology, Montreal, Canada, August 26, 2013. Abstract: *Pharmacoepidemiology and Drug Safety* 2013; 22(Suppl 1): 8. Epublished 7 Oct 2013. DOI: 10.1002/pds.3512.

Dublin S, Jackson ML, Marsh T, Setoguchi-Iwata S, Jonsson Funk M, Brookhart MA. New approaches to account for selection bias and confounding by frail health status (accepted symposium; I was the organizer and moderator). International Conference on Pharmacoepidemiology, Montreal, Canada, August 27, 2013.

Dublin S, Solti I, Matheny ME, Kors JA, Carrell D. Unlocking the secrets of free text through natural language processing: an introduction for pharmacoepidemiologists (accepted symposium; I was the organizer and moderator). International Conference on Pharmacoepidemiology, Montreal, Canada, August 28, 2013.

Dublin S, Walker RL, Jackson ML, Nelson JC, Weiss NS, Jackson LA. Discrepant results in pneumonia studies using solely administrative data compared to medical record review. Oral presentation. International Conference on Pharmacoepidemiology, Chicago, IL, August 15, 2011.

Dublin S, Baldwin E, Walker R, Haug P, Carrell D, Chapman W. Accuracy of Natural Language Processing To Identify Pneumonia From Electronic Radiology Reports (oral presentation, plenary session). 16th Annual HMO Research Network Conference, Boston MA, March 24, 2011. Received 2011 Early Career Investigator Award.

Dublin S, Walker RL, Jackson ML, Nelson JC, Weiss NS, Jackson LA. Use of proton pump inhibitors and histamine type 2 receptor blockers is not associated with pneumonia risk (oral presentation). International Conference on Pharmacoepidemiology and Therapeutic Risk Management, Providence, RI, August 2009.

Dublin S. Statin use and risk of pneumonia. Invited oral presentation, Young Investigators plenary session. 15th Annual HMO Research Network Conference, Danville, PA, April 29, 2009.

Dublin S. Healthy user bias in studies of vaccine effects. Oral presentation as part of workshop titled, "Selective prescribing, frailty, and healthy-user effects in pharmacoepidemiology." International Conference on Pharmacoepidemiology, Copenhagen, Denmark, August 19, 2008.

POSTER PRESENTATIONS

Leonard CE, Dawwas GK, Brensinger CM, Bilker WB, **Dublin S**, Miano TA, Hennessy S. Signals of muscle relaxant drug interactions associated with unintentional traumatic injury: A population-based screening study. Poster presentation at International Conference on Pharmacoepidemiology (online conference), August 2021. Selected for Spotlight Session on Drug Interactions.

Rothschild CW, **Dublin S**, Brown JS, Klasnja P, Herzig-Marx C, Reynolds JS, Wyner Z, Chambers C, Martin D. Use of a mobile app to capture supplemental health information during pregnancy: implications for clinical research. Poster presentation at International Conference on Pharmacoepidemiology (online conference), August 2021. Selected for Spotlight Session on Digital Epidemiology.

Hansen RN, Pocobelli G, Eavey J, Akosile M, Wellman R, Johnson R, Bron M, Carls G, **Dublin S**. Obstructive Sleep Apnea and Risk of Motor Vehicle Accidents. [Psych Congress abstract]. Poster presented at Psych Congress, September 10-13, 2020, Virtual Meeting.

Wartko PD, Howe AS, Shortreed SM, Mangione-Smith R, **Dublin S**. Trends in antinausea medication use in pregnancy in New Zealand, 2006-2016. International Conference on Pharmacoepidemiology (online conference), September 2020.

- Carls G, Hansen RN, Pocobelli GS, Eavey J, Akosile MA, Wellman RD, Johnson RL, Bron M, **Dublin S**. Obstructive Sleep Apnea and Risk of Motor Vehicle Accident. Hypertension treatment disruption during pregnancy among women with chronic hypertension. Poster presentation, 2018 Joint Hypertension Scientific Session, Chicago, Illinois, September 2018. (Received an onsite Poster Award.)
- Wartko PD (presenter), **Dublin S**, Kiel L, Ewing J, Albertson-Junkans L, Hsu C, Lapham G. Prevalence and frequency of cannabis use among pregnant women in a large health care system in Washington State. Poster presentation, Annual Meeting of the Society for Pediatric and Perinatal Epidemiologic Research, Baltimore, Maryland, June 19, 2018.
- Wartko PD (presenter), Weiss N, Enquobahrie DA, Mueller BA, Chan GKC, Stephenson-Famy A, **Dublin S**. Association of antidepressant continuation in pregnancy with maternal gestational weight gain, gestational diabetes and infant birth weight. Poster presentation, Annual Meeting of the Society for Pediatric and Perinatal Epidemiologic Research, Baltimore, Maryland, June 19, 2018.
- Dublin S**, Walker RL, Bobb JF, Caughey AB, Holt VL, Wing DA, Shi JM, Dukhovny D, Getahun D. Outcomes after non-indicated induction of labor compared to expectant management: an observational study. Poster presentation, Society for Maternal-Fetal Medicine Annual Meeting, Dallas, Texas, February 1, 2018.
- Chen L, Pocobelli G, Yu O, Shortreed S, Osmundson S, Fuller S, Wartko P, Fraser J, McCulloch D, Warwick S, Newton K, **Dublin S**. Early pregnancy hemoglobin A1c values and pregnancy

outcomes: a population based analysis. Poster presentation, Society for Maternal-Fetal Medicine Annual Meeting, Dallas, Texas, February 3, 2018.

Marcum Z, Larson E, Walker R, Golchin N, Rosenberg D, Crane P, **Dublin S**, Gray S. Initiation of Medications Acting on the Central Nervous System (CNS) and Fall-Related Injuries. International Conference on Pharmacoepidemiology, Montreal, Quebec, Canada, August, 2017.

Harding B, Weiss NS, **Dublin S**. Proton Pump Inhibitor Use and Fracture Risk in Older Adults. Poster presentation, International Conference on Pharmacoepidemiology, Montreal, Quebec, Canada, August 2017.

Dublin S, Walker RL, Shortreed SM, Saunders K, Ludman E, Hansen RN, Sherman K, Thakral M, Parchman M, Von Korff. Opioid Risk Reduction Initiatives and Risk of Injuries in People Using Chronic Opioid Therapy. Poster presentation, International Conference on Pharmacoepidemiology, Montreal, Quebec, Canada, August 2017.

Lee SJ, Larson EB, **Dublin S**, Walker RL, Marcum Z, Barnes DE. Electronic Medical Record (EMR) Predictors of Undiagnosed Dementia. Alzheimer's Association International Conference, London, UK, July 18, 2017 (poster presentation).

Allen L, Austin TR, Wong SP, Stephenson-Famy A, **Dublin S**. Reducing early-term elective deliveries in Washington State: impact on neonatal intensive care unit admissions for infants born to women aged 35 years and older. Poster presentation, Society for Maternal Fetal Medicine Annual Meeting, Las Vegas, Nevada, January 28, 2017.

Hansen RN, Walker RL, Shortreed SM, **Dublin S**, Saunders K, Ludman EJ, Von Korff M. Impact of an opioid risk reduction initiative on motor vehicle crash risk among chronic opioid therapy patients. Poster presentation, International Conference on Pharmacoepidemiology, Dublin, Ireland, August 2016.

Dublin S, Getahun DT, Walker RL, Holt VL, Bobb J, Darney B, Dukhovny D, Lai J, Pocobelli G, Wing DA, Caughey AB. Validity of electronic health data for pregnancy outcomes. Poster presentation, International Conference on Pharmacoepidemiology, Dublin, Ireland, August 2016.

Hansen C, Andrade SE, Freiman H, **Dublin S**, Haffnerreffer K, Cooper WO, Cheatham TC, Toh D, Li D, Raebel MA, Kuntz, JL, Perrin N, Rosales AG, Carter S, Pawloski PA, Maloney EM, Graham DJ, Sahin L, Scott PE, Yap J, Davis R. Sulfonamide Use during the First Trimester of Pregnancy and Risk of Selected Congenital Anomalies among Live Births. Poster presentation, International Conference on Pharmacoepidemiology, Boston, MA, August 22-26, 2015.

Paul KJ, Walker RL, **Dublin S**. Anticholinergic Medication Use and Risk of Community-acquired Pneumonia in Older Adults. Poster presentation, International Conference on Pharmacoepidemiology, Boston, MA, August 22-26, 2015.

Bowles EJA, Larson EB, Pong RP, Walker RL, Anderson M, Yu O, Gray S, Crane PK, **Dublin S**. Anesthesia Exposure and Risk of Dementia and Alzheimer's Disease: A Prospective Study. Poster presentation, International Conference on Pharmacoepidemiology, Boston, MA, August 22-26, 2015.

Dublin S, Walker RL, Gray SL, Hubbard RA, Anderson ML, Yu O, Crane PK, Larson EB. Prescription opioid use and risk of dementia or cognitive decline (poster; selected for Best Poster competition.) 20th Annual HMO Research Network Conference, Phoenix, AZ, April 1, 2014.

Li T, **Dublin S**, Gray SL, Nelson JC, Weiss NS, Larson EB. Factors associated with suboptimal benzodiazepine use in an older US cohort, 2004-2006. Poster presentation, American Geriatrics Society Annual Scientific Meeting, Chicago, IL, April 29-May 2, 2009. *Journal of the American Geriatrics Society* 2009; 57:S43-44.

INVITED ORAL PRESENTATIONS

Dublin S. Introduction to Geriatrics and Deprescribing Research at Kaiser Permanente Washington. Invited talk (given remotely), Palliative Care physicians' monthly meeting, Kaiser Permanente Washington, Seattle, WA, August 5, 2021.

Dublin S. Studying Medications and COVID-19 Outcomes Using Electronic Health Data. Invited seminar (given remotely) for the Rutgers Institute for Health, Health Care Policy and Aging Research Brown Bag Seminar Series, Rutgers University, New Brunswick, NJ, May 20, 2021.

Dublin S. Studying Medications and COVID-19 Outcomes Using Electronic Health Data. Invited seminar (given remotely) for the Center for Clinical Epidemiology and Biostatistics, University of Pennsylvania, Philadelphia, PA, January 14, 2021.

Dublin S. Evaluation of Kaiser Permanente Washington's gestational diabetes screening change. "Bright Spots" plenary session, Kaiser Permanente Center for Effectiveness and Safety Research Annual Meeting, Seattle, WA, May 22, 2019.

Dublin S and Pocobelli G. Perinatal outcomes associated with the one-step approach to identifying gestational diabetes. University of Washington Epidemiology Department Seminar, Seattle, WA, January 29, 2019.

Dublin S and Pocobelli G. A Learning Health System story: perinatal outcomes associated with a major change in gestational diabetes screening. NIH Collaboratory Grand Rounds Webinar and accompanying podcast, January 25, 2019. Available at <http://rethinkingclinicaltrials.org/grand-rounds-hub/>

Dublin S, Pocobelli G, Yu O, Fuller S, Warwick S. Maternal and neonatal outcomes after a change in approach to diagnosing gestational diabetes. Scientific seminar, Kaiser Permanente Washington Health Research Institute, November 13, 2018.

Early Detection of Dementia: Clues in the EMR (Electronic Medical Record). Webinar presented as part of the Healthcare Systems Research Network-Older Americans Independence Centers AGING Initiative, June 29, 2017.

Studying Pregnancy Outcomes with Electronic Medical Records Data. Invited talk, 2nd Seattle Symposium on Health Care Data Analytics. Seattle, Washington, October 24, 2016.

Studying Pregnancy Outcomes Using Electronic Health Data. Invited talk, National Institute of Child Health and Human Development/Health Systems Partnerships: New Approaches to Advancing Maternal, Child and Rehabilitation Research. National Institute of Child Health and Human Development, Bethesda, Maryland, May 23, 2016.

Studying Pregnancy Outcomes Using Electronic Health Data. Invited seminar, Group Health Research Institute, Seattle, Washington, May 10, 2016.

Engaging Stakeholders in Your Research. Junior Investigator Workshop, Healthcare Systems Research Network annual meeting, April 14, 2016. Role: session organizer and panelist.

Studying Pregnancy Outcomes Using Electronic Health Data. Invited seminar, Epidemiology Department, University of Washington, Seattle, Washington, March 29, 2016.

Leading a Research Team. Presentation to the University of Washington T32 training program on Reproductive, Perinatal and Pediatric Epidemiology, Seattle, Washington, January 8, 2016.

Leadership Development: Key Skills for Leading a Research Team. Presentation to the University of Washington T32 training program on Reproductive, Perinatal and Pediatric Epidemiology, Seattle, Washington, November 13, 2015.

Study Populations: Internal and External Validity and Generalizability. Lecture, Epi 101 course for Group Health Research Institute staff, October 19, 2015.

Speaker and panelist, "Valid Use of Big Data for Pediatric and Perinatal Epidemiology" (plenary session). Society for Pediatric and Perinatal Epidemiologic Research annual meeting, Denver, CO, June 15, 2015.

Two-Phase Study Designs to Improve Efficiency of New Data Collection. FDA Public Workshop: Addressing Inadequate Information on Important Health Factors in Pharmacoepidemiology Studies Relying on Healthcare Databases. Silver Springs, MD, May 4, 2015.

Building Relationships with Funders. New Investigator Career Development Session, HMO Research Network annual meeting, March 11, 2015. Role: session co-organizer and panelist.

Pregnancy Research using Electronic Medical Records. University of California, San Diego Division of Teratology and Dysmorphology's Joint Stats/Epi Methods Seminar, San Diego, CA, November 25, 2014.

Studying Elective Induction Outcomes using Health Plan Data and Electronic Medical Records. Presentation to the University of Washington T32 training program on Reproductive, Perinatal and Pediatric Epidemiology, Seattle, Washington, November 14, 2014.

Pregnancy Research using Electronic Medical Records. Center for Pharmacoepidemiology, Karolinska Institute, Stockholm, Sweden, August 22, 2014.

Birth Certificate Linkage: The Good, the Bad and the Unruly. Presentation to HMO Research Network Virtual Data Warehouse Improvement Group, Burlingame, CA, April 18, 2013.

Accounting for Bias in Medication Safety Studies that use Real-World Healthcare Data. Guest lecture to the Introduction to Pharmacoepidemiology class, University of North Carolina, Chapel Hill, NC, February 26, 2013.

Research Opportunities in Integrated Healthcare Delivery Systems. Invited seminar, University of North Carolina Department of Epidemiology, Chapel Hill, NC, February 26, 2013.

Accounting for Bias in Medication Safety Studies that use Real-World Healthcare Data. Invited seminar, Center for Pharmacoepidemiology Research and Training, University of Pennsylvania, January 31, 2013.

Statins and Infection: Miracle or Myth? Grand Rounds, University of Washington Division of Gerontology and Geriatric Medicine, January 18, 2013.

Accounting for Bias in Medication Safety Studies that Use Electronic Healthcare Data. Scientific seminar at Group Health Research Institute, December 11, 2012.

High-Risk Medications in the Elderly. Continuing Medical Education presentation to Group Health's Nursing Home Services division, Seattle, WA, June 7, 2012.

Studying Drug Safety in the Real World: New Data, Expanding Opportunities. Presentation to Medical Scientist Training Program (MD/PhD students), University of Washington, Seattle, WA, September 15, 2011.

Atrial Fibrillation: New Risk Factors and Outcomes. Continuing Medical Education presentation to Group Health's Nursing Home Services division, Seattle, WA, August 4, 2011.

NATIONAL AND INTERNATIONAL RESPONSIBILITIES

FDA Antimicrobial Drugs Advisory Committee to review Emergency Use Authorization for molnupiravir to treat mild to moderate COVID-19, November 30, 2021

Co-Chair, Newcomer Track, 2021 International Conference on Pharmacoepidemiology

Planning Committee, 2022 International Conference on Pharmacoepidemiology

Ad hoc grant reviewer, Neurological, Aging and Musculoskeletal Epidemiology study section, National Institutes of Health, October 6-7, 2021.

Member, Technical Expert Panel to inform development of standards for exchange of maternal and infant clinical health data for research; convened by NIH, July 2021-present.

Member of the Steering Committee, Innovation in Medical Evidence Development and Surveillance (IMEDS), Reagan-Udall Foundation for the FDA, March 2020-present.

Co-Chair, Newcomer Track, 2021 International Conference on Pharmacoepidemiology

Planning Committee, 2020 International Conference on Pharmacoepidemiology

Abstract reviewer for Newcomer Track, 2020 International Conference on Pharmacoepidemiology

Planning Committee, 2019 International Conference on Pharmacoepidemiology

Abstract reviewer, International Conference on Pharmacoepidemiology, yearly from 2009-present

Member, Physician Engagement Council, Society for General Internal Medicine Improving Wisely project focused on improving the quality of prescribing by reducing polypharmacy and high risk prescribing in older adults, 2018

Letter of Intent reviewer, HMO Research Network-Older Adults Independence Centers AGING Network pilot project applications, February 2017

External reviewer for PhD dissertation on influenza infection and pregnancy outcomes, McGill University, December 2015

Ad hoc grant reviewer, career development award, UK Medical Research Council, September 2015

Grant reviewer, pilot grant submissions, HMO Research Network-Older Adults Independence Centers AGING Research Network pilot projects, February 2015

Abstract reviewer, American Geriatrics Society annual meeting, 2015

Abstract reviewer, HMO Research Network Annual Meeting, 2015

Invited faculty, Society for Epidemiologic Research Student Workshop, Seattle, WA, June 2014

Member, Early Career Investigator Award selection committee, HMO Research Network Annual Meeting, January 2013

Abstract reviewer and session moderator, HMO Research Network Annual Meeting, 2012
Conference co-organizer, International Workshop on Pharmacoepidemiology and Biostatistics for visiting Chinese researchers and leaders in Traditional Chinese Medicine, Seattle, Washington, December 2-4, 2011
Planning Committee, Beeson Scholars Annual Meeting, 2011
Independent Safety Monitor for randomized clinical trials at Group Health, Vaccine Therapeutics Efficacy Unit, 2008-2018
Member, HMO Research Network Virtual Data Warehouse Pharmacy Working Group, 2008-2012

LOCAL RESPONSIBILITIES

Member, Gestational Diabetes Guideline Review Team, Kaiser Permanente Washington, Summer 2021.
Member, Promotions Committee, Kaiser Permanente Washington Health Research Institute, January 2020-present
Founder and leader, Kaiser Permanente Washington Health Research Institute Pharmacoepidemiology and Therapeutics Methods Interest Group, 2009-present
Member, Morale Award Selection Committee, Kaiser Permanente Washington Health Research Institute, 2016- present
Member, Gestational Diabetes Guideline Review Team, Kaiser Permanente Washington, December 2017-Spring 2018
Chair, Evaluation Committee for potential new faculty hire, Group Health Research Institute, Fall 2016
Member, Birnbaum Award Selection Committee, Group Health Research Institute, 2016
Member, Faculty Search Committee, Group Health Research Institute, 2014
Strategic Planning and Development Steering Committee, Group Health Research Institute, Seattle, WA, July 2011-January 2012
Clinician-Scientist Task Force, Group Health Research Institute, Seattle, WA, 2009
New Investigator Orientation Working Group, Group Health Research Institute, Seattle, WA, 2009
Member, Diabetes Screening Guideline Development Group, Group Health, Seattle, WA, 2008

MENTORSHIP

Laura Harrington, PhD, Assistant Scientific Investigator, Kaiser Permanente Washington Health Research Institute, Seattle, WA (primary faculty mentor)
Paige Wartko, PhD, Research Associate, Kaiser Permanente Washington Health Research Institute, Seattle, WA (primary faculty mentor)
Mikael Anne Greenwood-Hickman, Research Associate, Kaiser Permanente Washington Health Research Institute, Seattle, WA (Mentoring Committee member)
Sarah Randall, Research Support Specialist, Kaiser Permanente Washington Health Research Institute, Seattle, WA

TEACHING

Masters Committees

Chair, Master's thesis committee, Barbara Harding, MPH in Epidemiology, University of Washington.
"Proton Pump Inhibitor Use and Risk of Fracture." Completed June 2016.

Chair, Master's thesis committee, Noa Kay, MPH in Epidemiology, University of Washington. "Adverse maternal and neonatal delivery outcomes associated with non-indicated labor induction at 39 weeks gestation." Completed June 2011.

Member, Master's thesis committee, Paul Jensen, MPH in Epidemiology, University of Washington. "Racial differences in the Incidence of and Risk Factors for Atrial Fibrillation in Older Adults: The Cardiovascular Health Study." Completed December 2011.

Doctoral Committees

Chair, Dissertation committee, Paige Wartko, PhD in Epidemiology, University of Washington. "Antidepressant use in pregnancy and metabolic outcomes." Completed August 2018.

Member, Dissertation committee, Erin Wallace, PhD in Epidemiology, University of Washington. "Atrial Fibrillation and Disability-Free Survival, Functional Decline and the Risk of Hip and Forearm Fracture in the Cardiovascular Health Study." Completed December 2013.

Other teaching and precepting

Invited lecture, University of Washington School of Public Health. EPI 515, Advanced Epidemiologic Methods I. "Use of Electronic Health Data for Research." November 15, 2021.

Invited lecture, Modern Pregnancy Pharmacoepidemiology: Outcomes, a Skills Course as part of the International Conference on Pharmacoepidemiology 2021. "Use of Electronic Medical Records Data to Study Medical Product Safety in Pregnancy." August 2, 2021.

Invited lecture, University of Washington School of Public Health. EPI 515, Advanced Epidemiologic Methods I. "Studying COVID-19 Using Electronic Health Data." November 9, 2020.

Invited lecture, University of Washington School of Public Health. EPI 515, Advanced Epidemiologic Methods I. "Use of Electronic Health Data for Research." November 2, 2020.

Invited lecture, University of Washington School of Public Health. EPI 515, Advanced Epidemiologic Methods I. "Use of Electronic Health Data for Research." November 18, 2019.

Led a discussion of two articles about methods for screening for gestational diabetes, University of Washington School of Public Health. EPI 591, Current Literature in Epidemiology. May 23, 2019.

Invited lecture, University of Washington School of Public Health. EPI 515, Advanced Epidemiologic Methods I. "Use of Electronic Health Data for Research." October 29, 2018.

Invited lecture, University of Washington School of Public Health. EPI 533, Pharmacoepidemiology. "Studying Medication Safety in Pregnancy." May 2, 2016; May 4, 2018; and May 18, 2020.

Invited lecture, University of Washington School of Public Health. EPI 515, Advanced Epidemiologic Methods I. "Use of Electronic Health Data for Research." October 30, 2017.

Invited lecture, University of Washington School of Public Health. EPI 528, Advanced Epidemiologic Methods I. "Use of Electronic Health Data for Research." November 7, 2016.

Invited lecture, University of Washington School of Public Health. EPI 542, Clinical Epidemiology. "Can Statins Prevent or Treat Infection?" May 25, 2016 and also May 17, 2017.

Invited lecture, University of Washington School of Public Health. EPI 592A, Maternal and Child Health Seminar. "Mentorship." October 17, 2016.

Small group preceptor, University of Washington School of Public Health. EPI 514, Application of Epidemiologic Methods, Spring quarters of 2010 and 2012-2016. Precepted small group of graduate students analyzing Washington State birth certificate and linked hospital discharge data.

Invited lecture, University of Washington School of Public Health. EPI 542, Clinical Epidemiology. "Can Statins Prevent or Treat Infection?" May 27, 2015.

Invited lecture, University of Washington School of Public Health. EPI 533, Pharmacopidemiology. "Medication Safety in Pregnancy." May 14, 2014.

Invited lecture, University of Washington School of Public Health. EPI 533, Pharmacopidemiology. "Healthy user bias in observational studies of vaccine & medication effects: the limits of adjustment." April 18, 2012.

Practicum supervisor, MPH practicum, Paul Jensen, 6/2010-2/2011, University of Washington. Project: systematic review for the Food and Drug Administration examining accuracy of algorithms using electronic health data to identify atrial fibrillation (for Mini-Sentinel.)

Invited lecture, University of Washington School of Public Health and Community Medicine. EPI 533, Pharmacopidemiology. "Healthy user bias in observational studies of vaccine & medication effects: the limits of adjustment." May 10, 2010.

Invited session leader, University of Washington School of Public Health and Community Medicine. EPI 591A, Epidemiology Journal Club. "Acid-suppressing medications and risk of hospital-acquired pneumonia." October 22, 2009.

University of Washington School of Medicine, Seattle, WA

| | | |
|-------------|---|--------------------------------|
| 2011 | Problem-Based Learning (small group co-leader) | 10 students, 16 contact hrs |
| 2010 | Problem-Based Learning (small group co-leader) | 10 students, 16 contact hrs |
| 2008 | Problem-Based Learning (substitute group leader) | 10 students, 6 contact hrs |
| 2007 | Problem-Based Learning (substitute group leader) | 10 students, 10 contact hrs |
| 2006 | Problem-Based Learning (small group leader) | 10 students, 30 contact hrs |
| 2005 | Problem-Based Learning (small group leader) | 10 students, 30 contact hrs |
| 2001 | Introduction to Clinical Medicine | 6 students; 6 contact hrs |
| | Taught physical exam skills to first-year medical students. | |
| 1998 & 1999 | Epidemiology (small group discussion leader) | 10 students; 6 contact hrs |
| 1998 | Tutor, Epidemiology | 3-50 students; ~12-15 hrs |
| | Led weekly reviews for first-year medical students & review sessions for USMLE I-II. | |
| 1996-1998 | T.A., Medicine, Health & Society | 150 students; 30 hrs.; 3 yrs |
| | Participated in development of curriculum in health policy & economics for medical students; led small group discussion sessions. | |
| 1994 | T.A., Anatomy & Embryology | 100 students; 70 contact hours |

Oregon Health & Science University, Portland, OR

2002-03 Assisted with epidemiology course for physician assistant students; led journal clubs. Lectured to MPH students and Preventive Medicine students on pharmacoepidemiology and epidemiologic methods.

Kaplan Educational Centers, New York, NY and Seattle, WA

1996-1999 Seattle head MCAT instructor, training and supervising 6 other instructors
1996 National MCAT organic chemistry coordinator
1994-2000 Seattle MCAT instructor

PROFESSIONAL CERTIFICATION AND LICENSING

ABIM certification in Internal Medicine, 2004-present. Successful recertification in 12/2014.
Washington State medical license, 2001-present

CLINICAL RESPONSIBILITIES

Clinical practice: 1 day per week in primary care, Kaiser Permanente Washington Federal Way clinic.

OTHER PROFESSIONAL INVOLVEMENT

Peer reviewer, *JAMA*, *Annals of Internal Medicine*, *BMJ*, *Archives of Internal Medicine*, *Journal of General Internal Medicine*, *European Journal of Internal Medicine*, *Journal of Internal Medicine*, *Clinical Infectious Diseases*, *Pediatrics*, and *Pharmacoepidemiology and Drug Safety*

- Named as a top reviewer (in top 10% by review quality) by *Annals of Internal Medicine* in 2008, 2009, 2010, 2011, 2013, 2014 and 2016; as a distinguished reviewer by *Pharmacoepidemiology and Drug Safety* in 2010, 2011, 2013, 2015 and 2018; and as a distinguished reviewer by *JGIM* in 2009.

Associate council member, Society of General Internal Medicine Northwest Region, 2004-2007

- Developed and organized new session, Fellows' Work-in-Progress, highlighting work of Northwest region fellows and matching them with regional mentors

Lecturer on study skills and test-taking skills, Office of Multicultural Affairs, UW School of Medicine

- African American Mentorship Network Retreat, January 2005
- Pre-matriculation program, July 2005 and July 2006
- Pre-medical/pre-dental summer program, July 2005

Member, International Society for Pharmacoepidemiology, 2007-present

Student member, Curriculum Committee, University of Washington School of Medicine, 1993-2001
