

**STATE IMPLEMENTATION AGREEMENT
And
YEAREND EVALUATION**

Background

The FDA State Contract Audit Program (hereafter known as the Audit Program) is described in FDA Staff Manual Guide (SMG) 8076. SMG 8076 provides procedures for auditing all contract inspection programs. State agencies have the opportunity to assume responsibility for auditing their human food and animal food contract inspections. The transition to a state-based Audit Program occurs in two phases (Phase II and Phase III) after the inspectorate division has completed Phase I of the Audit Program. Phases I, II, and III are described in SMG-8076. This option does not apply to other contract inspection programs including egg, tissue residue, and medical device.

Planned Resources

A. Funding

1. FDA/HFP/OIFSSP/ODP will provide funding for state inspectors to attend the audit courses.
2. FDA/HFP/OIFSSP/ODP will provide funding to the state agency for implementation of the Audit Program.

B. Personnel

1. The inspectorate division or state agency will provide auditors to train and verify the performance of state auditors assigned to audit human food and animal food contract inspections.
 2. The state agency will provide experienced (qualified) staff to be trained as auditors. This could include supervisors, team leaders, or inspectors.

Reporting

Refer to Appendix B.2 (Human Food) and Appendix C.2 (Animal Food) in the SMG 8076 for specific reporting instructions.

III. STATE BASED AUDIT PROGRAM

The state agency has provided the training required by the human food or animal food inspection contract and the SMG 8076 to the state inspectors designated as auditors for the Audit Program. Qualifications for auditors are stated in SMG 8076. The inspectorate division agrees that the state program is ready to implement the Audit Program.

Under this agreement, the FDA and the state agency will:

- a. Follow the requirements in the SMG 8076 and human food or animal food contract Statement of Work (SOW).
- b. Develop a plan to train and verify the performance of state auditors assigned to audit contract inspections.
- c. Develop an audit plan based on the firms assigned for inspection by the state agency to verify the performance of state inspectors. The firm selection should be based on the inspection priorities listed in the "Statement of Work" section of the contract and the contract obligation of the state.
- d. Develop a plan for state inspectors who require remedial training to resume conducting inspections or audits under FDA contract.
- e. Complete Section VII, Yearend Evaluation, of this form for the contract performance period. Complete separate forms for Human Food and Animal Food programs.

VII. YEAREND EVALUATION

This section will be completed by the inspectorate division. The state will be evaluated on its overall work performance during the contract year, not the outcome of one contract audit. The inspectorate division, state liaison, and state agency should follow the procedures in SMG 8076 when program or performance deficiencies occur. An unacceptable audit will not cause a contract to be altered or unpaid nor will payment for the contract inspection be withheld.

1. Evaluation (*record strengths/weaknesses*):

2. Date yearend evaluation was discussed between inspectorate division, state liaison, and state agency:

3. Names and titles of persons who participated in yearend evaluation:
