## Introduction

The Food and Drug Administration (FDA) is the regulatory, scientific, public health and consumer protection agency responsible for ensuring all human and animal drugs, medical devices, cosmetics, foods, food additives, drugs and medicated feeds for food producing animals, tobacco and radiation emitting devices are safe, and effective.

The mission of the Center for Drug Evaluation and Research (CDER) is to perform an essential public health task by making sure that safe and effective drugs are available to improve the health of people in the United States.

CDER regulates over-the-counter and prescription drugs, including biological therapeutics and generic drugs.

The Office of New Drugs (OND) is a dynamic, purpose-driven organization dedicated to the review of new drug applications (NDAs), interactions with the pharmaceutical industry and ultimately deciding whether the benefits of a drug outweigh the known risks. OND is a multi-disciplinary organization engaged in the oversight of human drug trials in the United States, in review of NDAs and biologics license applications (BLAs) for marketing drugs and therapeutic biologics in this country, and in regulating over-the-counter (OTC) drug products.

## Duties/Responsibilities

As a **Deputy Division Director**, the incumbent will serve as the principal advisor to the Division Director and assists with providing leadership and technical direction to scientific review staff engaged in review and evaluation of Investigational New Drug Applications (INDs) and NDA application; provides scientific, clinical, and technical authority on all medical and scientific decisions and judgment in connection with the review and evaluation of drugs. Serves as an expert or consultant to high-level managers within the organization or to a broad consortium of experts and special interest groups who are seeking evaluations on problems that require long-range solutions.

The Deputy Division Director will assist with the creation of Division level plans for professional development of staff, meet with direct reports to establish Individual Development Plans (IDP) and identify a mechanism to assess expertise gaps (current and future) within OND. Performance is evaluated in terms of personal observations, effectiveness, allocation of resources and achieving the required objectives.

Provides employees with resources and information that insures a safe and healthy work environment. Hears and resolves complaints from subordinate staff, referring group grievances and more serious unresolved complaints to a high-level supervisory authority. Ensures the mission, vision, strategic goals, and values are communicated to the staff and are appropriately implemented and integrated into the work program. Reviews work products periodically to ensure the work objectives are met. Ensures the effectiveness of the organization by finding and implementing ways to eliminate and reduce significant bottlenecks and barriers to productivity.

Assigns work based on priorities, complexity of the assignments and the capabilities of the staff. Provides advice, counsel, or instructions to employees on, scientific, and clinical matters. Provides staff leadership and direction and advises the Office and Center directors in all matters related to the planning development, formulation, implementation, execution, administration, and coordination of activities which affect policies, programs and goals involving the safety and effectiveness of drug products intended for human use.

Assists the Division Director with directing the review and evaluation of New Drug applications (NDAs) and Biologics License Applications (BLAs), amendments and supplements to determine if drugs are safe and effective; consults with other medical-scientific specialists in FDA for their opinions and/or discuss the particular drug/biologic application with individual physicians, specialists in universities, research foundations and other organizations who have performed pertinent clinical investigation of the drug or who have recognized expertise in the issue under question.

Determines whether pre-clinical evaluation performed on new or marketed drugs are adequate to support clinical uses; manages the review of Investigational New Drug Applications (INDs); determines whether the protocols for study of such drugs relate to the establishment of evidence to evaluate safety and efficacy and whether the use and distribution of investigational drugs are in accordance with applicable regulations.

Determines if an investigational new drug may be distributed to clinical investigators to establish its value as a therapeutic and beneficial product; evaluates or directs the evaluation of statements of investigators and program reports on the conduct and results of investigations; determines clinical investigations are progressing satisfactorily or that notification of termination of exemption should be issued.

Serves as a professional participant in meetings/conferences with other Center and Agency officials, academia and regulated industry related to issues pertaining to safety, health hazards, contamination, recall actions, and other matters associated with the marketing of those drugs which fall within the purview of the Division; advises other agencies of government, industry representatives, and others on medical-scientific questions, including methods and criteria for research and testing, and performance of clinical research.

#### Supervisory Responsibilities:

As the supervisor, the incumbent will supervise and evaluate staff who serve as experts in their field, provide occupational specific technical and administrative direction and supervision to subordinate supervisors and staff.

### Conditions of Employment

- U.S. Citizenship requirement or proof of being a U.S. National must be met by closing date.
- Employment is subject to the successful completion of a background investigation, verification of qualifications, completion of onboarding forms, submission of required documents, and any other job-related requirement before or after appointment.
- Applicants must meet all qualification requirements by the closing date of this announcement.
- Direct Deposit: You will be required to have all federal salary payments electronically deposited into a bank account with a financial institution of your choice.
- FDA participates in e-Verify: All new hires must complete the I-9 form; this information will be

processed through e-Verify to determine your employment eligibility. If a discrepancy arises, you must take affirmative steps to resolve the matter.

- Males born after December 31, 1959 must be registered with the Selective Service.
- One year supervisory probationary period may be required.
- Financial Disclosure may be required.
- Ethics Clearance may be required.
- Background Investigation/Security Clearance is required. All employees must pass a security investigation. Failing to pass the background check may be grounds for removal or legal action. If hired, you may be subject to additional investigations at a later time.

## Qualifications

To be placed into a Cures position, candidates must meet the following criteria:

1. Scientific, Technical, and Professional Fields
2. Qualified and Outstanding Candidates
  - a. **Qualified** applies to all candidates for Cures appointments. The FDA OTS will use the basic requirements defined in the [OPM Qualification Standards](#) as a baseline for comparing experience levels and other candidate attributes for relevant positions.
  - b. **Outstanding** candidates can be defined by existing outstanding work experience, outstanding performance rating, or both.

To qualify for this Title 21 Cures position, the candidate(s) must meet the following **required** qualifications. *Please note: Additional education and experience listed that is not indicated as **required** is preferable and desired. Candidates who do not meet the “desired” criteria will **not** be excluded from consideration for this position.*

### **Education Requirement:**

#### **Physician Series, AD-0602**

The individual occupational requirements for the AD-0602 Physician series can be found at: <https://www.opm.gov/policy-data-oversight/classification-qualifications/general-schedule-qualification-standards/0600/medical-officer-series-0602/>

### **Basic Qualifications:**

Doctor of Medicine, Doctor of Osteopathic Medicine or equivalent from a school in the United States or Canada. This degree must have been accredited by the Council on Medical Education of the American Medical Association; Association of American Medical Colleges; Liaison Committee on Medical Education; Commission on Osteopathic College Accreditation of the American Osteopathic Association, or an accrediting body recognized by the U.S. Department of Education at the time the degree was obtained.

Degree from Foreign Medical School: A Doctor of Medicine or equivalent degree from a foreign medical school must provide education and medical knowledge equivalent to accredited schools in the United States. Evidence of equivalency to accredited schools in the United States is demonstrated by permanent certification by the Educational Commission for Foreign Medical Graduates, a fifth pathway certificate for Americans who completed premedical education in the United States and graduate education in a foreign country, or successful completion of the U.S. Medical Licensing Examination.

#### Licensure

For all grade levels and positions, applicants must possess a current, active, full, and unrestricted license or registration as a Physician from a State, the District of Columbia, the Commonwealth of Puerto Rico, or a territory of the United States.

#### **Professional Experience:**

- Experienced and effective communicator who can drive collaboration, empower team members, provide expert advice and consultation, coordinate program activities, and spearhead important program initiatives.
- Demonstrated experience in leadership principles and concepts

#### **Desired Professional Experience:** Our ideal candidates will possess:

- Extensive knowledge of the oncology therapeutic areas (i.e., breast, gynecologic, and genitourinary cancers, and supportive care) and associated guidance documents.
- Excellent leadership skills, capable of providing guidance to clinical review staff and input across OND and to other internal and external stakeholders.
- Excellent collaborative skills, capable of working with a wide range of individuals of all levels from both public and private organizations, including the Center, Office of the Commissioner, other FDA Centers, other Federal agencies, and Congress, as well as the scientific/medical community, academia, and industry, which requires tact, diplomacy, and technical expertise in communicating Center/Agency policies.
- Excellent verbal and written communication skills in order to develop policy, guidance(s) to industry, internal procedures, Center-level responses to congressional inquiries, etc.
- Excellent skills in critical thinking and strategic vision, to advance OND's policies, research agenda, training, and collaboration across other divisions, offices, and stakeholders.
- Solid understanding of the regulations and policies as well as experimental design, theories and practices utilized in new drug evaluation.

## Education Transcripts

**SUBMITTING YOUR TRANSCRIPTS:** Positions which are scientific or technical in nature often have very specific educational requirements. A transcript is required to verify educational achievement. Pay careful attention to the Qualifications and Education sections to identify vacancies where a

transcript is required. Even if you hold a similar position or are a current FDA employee, you are not exempt from transcript requirements.

**FOREIGN EDUCATION:** If you are using education completed in foreign colleges or universities to meet the qualification requirements, you must show that the education credentials have been evaluated by a private organization that specializes in interpretation of foreign education programs and such education has been deemed equivalent to that gained in an accredited U.S. education program; or full credit has been given for the courses at a U.S. accredited college or university. For more information about this requirement, please visit the [U.S. Department of Education website for Foreign Education Evaluation](#).

## Security Clearance Requirements

Background Investigation/Security Clearance Requirements: Non-sensitive-high risk

This position requires a Public Trust security clearance, and the incumbent has access to sensitive, proprietary, or financial information.

If not previously completed, a background security investigation will be required for all appointees. Appointment will be subject to the applicant's successful completion of a background security investigation and favorable adjudication. Failure to successfully meet these requirements may be grounds for appropriate personnel action. In addition, if hired, a background security investigation or supplemental investigation may be required later.

Applicants are also advised that all information concerning qualification is subject to investigation. False representation may be grounds for non-selection and/or appropriate disciplinary action.

## Ethics Clearance Requirements

This position may require financial disclosure reporting and will be subject to FDA's prohibited financial interest regulation. If you are hired, you may be required to divest of certain financial interests. You are advised to seek additional information on this requirement from the hiring official before accepting any job offers. For more information, please visit the FDA Ethics web page: <https://www.fda.gov/about-fda/jobs-and-training-fda/ethics>.

## Equal Employment Opportunity

Equal Employment Opportunity Policy

The United States Government does not discriminate in employment on the basis of race, color, religion, sex (including pregnancy and gender identity), national origin, political affiliation, sexual orientation, marital status, disability, genetic information, age, membership in an employee organization, retaliation, parental status, military service, or other non-merit factor.

[Equal Employment Opportunity \(EEO\) for federal employees & job applicants](#)

## Reasonable Accommodation

### Reasonable Accommodation Policy

Federal agencies must provide reasonable accommodation to applicants with disabilities where appropriate. Applicants requiring reasonable accommodation for any part of the application process should follow the instructions in the job opportunity announcement. For any part of the remaining hiring process, applicants should contact the hiring agency directly.

Determinations on requests for reasonable accommodation will be made on a case-by-case basis. A reasonable accommodation is any change to a job, the work environment, or the way things are usually done that enables an individual with a disability to apply for a job, perform job duties or receive equal access to job benefits.

Under the Rehabilitation Act of 1973, federal agencies must provide reasonable accommodations when: An applicant with a disability needs an accommodation to have an equal opportunity to apply for a job. An employee with a disability needs an accommodation to perform the essential job duties or to gain access to the workplace. An employee with a disability needs an accommodation to receive equal access to benefits, such as details, training, and office-sponsored events. You can request a reasonable accommodation at any time during the application or hiring process or while on the job. Requests are considered on a case-by-case basis. Learn more about [disability employment and reasonable accommodations](#) or [how to contact an agency](#).

## E-Verify

The Food and Drug Administration participates in the USCIS Electronic Employment Eligibility Verification Program (E-Verify). E-Verify helps employers determine employment eligibility of new hires and the validity of their Social Security numbers.

## How to Apply

Submit resume or curriculum vitae with cover letter to: [Kathryn.Hall@fda.hhs.gov](mailto:Kathryn.Hall@fda.hhs.gov). Candidate resumes may be shared with hiring officials within CDER with a similar job vacancy. Candidates can opt out of this process by annotating resume with “do not share”. **Please reference source code: OND-DO1-1009 in the subject line of your submission.**

## Announcement Contact

For questions regarding this Cures position, please contact [Kathryn.Hall@fda.hhs.gov](mailto:Kathryn.Hall@fda.hhs.gov).
