Metrix COVID-19 Test
Your health, in your hands

PCR accuracy in 30 minutes
Saliva or nasal swab - your choice

For use under Emergency Use Authorization (EUA) only.
Requires the Metrix Reader (sold separately).
For in vitro diagnostic use.
**Start Here**

Carefully read all instructions before beginning.

- No food/drink (including water)/oral hygiene products for 30 minutes before test.
- Complete the entire procedure without delay between steps.
- Metrix Reader required. Available separately.

**Contents**

- Scan QR code for interactive instructions and a video demonstration

**01 Power Up**

Connect reader to power supply. The center light will turn solid white (not flashing) when ready.

**02 Collect Sample**

Choose one preferred sample method:

**Saliva Collection**

Deposit a small amount of saliva into the collector.

**Nasal Swab Collection**

Insert the nasal swab into your nostril until the tip is fully inside. Stop when you meet resistance (about 1 inch for adults, ½ inch for children). Roll the swab against the inside of your nostril 5 times. **REPEAT WITH OTHER NOSTRIL**

Firmly insert the swab into collector until it cannot go any further. Snap off and discard the swab handle.

**03 Cap Sample**

Put the cap on the collector and press down firmly until the cap clicks into place.

**04 Shake to Mix**

Shake the collector very hard for 20 seconds to mix. **MAKE SURE THAT YOUR SAMPLE IS MIXED WELL.**

**05 Attach to Sensor**

Open sensor pouch and place sensor on a flat surface.

**06 Run the Test**

CONFIRM THAT THE READER IS READY. THE CENTER LIGHT WILL BE SOLID (NOT FLASHING).

Insert sensor into reader until it cannot go further. The test will begin automatically and will take 30 minutes.

**07 Read Your Results**

Use the following visual signifiers to note the results of the test:

- **Solid green = COVID Negative SARS-CoV-2 was not present.**
- **Solid red = COVID Positive SARS-CoV-2 was present.**
- **Solid purple = Invalid Repeat test with a new kit.**

**08 Discard the Sensor**

Pull the sensor out of the reader and discard the sensor. Do not disassemble.

The reader is ready to begin a new test.
A negative test result indicates that SARS-CoV-2, the virus that causes COVID-19, was not detected in your sample. However, it is possible for this test to give a negative result that is not correct (false negative) in some people with COVID-19. Negative results do not rule out SARS-CoV-2 infection and should not be used as the sole basis for treatment of an individual, including infection control decisions. If you have symptoms, contact a healthcare provider for additional testing.

A positive test result indicates that SARS-CoV-2, the virus that causes COVID-19, was detected in your sample. It is very likely that you have COVID-19. Positive test results do not rule out bacterial infection or other infections, and should not be used as the sole basis for treatment of an individual, including infection control decisions. If you have symptoms, contact a healthcare provider for additional testing.

The Metrix COVID-19 Test detects active COVID-19 infections and does not test for previous infections.

After Your Test

To report your Metrix COVID-19 Test results to public health agencies, please visit: aptitudemetrrex.com/publichealth/reporting.

If symptoms persist or if you are concerned about your health, please seek follow-up care from a healthcare professional.

The emergency use of this product is only authorized for the duration of the declaration that circumstances exist justifying the authorization of emergency use of an in vitro diagnostic for detection of viral nucleic acid from SARS-CoV-2, as specified in Section 564(b)(1) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. § 360bbb-3(b)(1)), unless the declaration is terminated or authorization is revoked sooner.

Your health, in your hands.

Meet Metrix.
The 24/7 laboratory that lives on your countertop.
Start Here

Scan QR code for interactive instructions and video demonstration.

01 Power Up
Connect reader to power supply. The center light will turn solid (not flashing) when ready.

02 Collect Sample
Open the Metrix COVID-19 Test kit (available separately) if you have not done so already.
The Metrix COVID-19 Test kit will guide you through how to collect and run your sample.

Reader Statuses

Indicates flashing light

Starting Up
The reader is starting up. Wait until the center light is solid white before inserting a sensor.

Ready
The reader is ready to start a test.

Test Running
The reader is running a test. DO NOT remove the sensor or unplug the reader.

Positive Result
The test is complete and SARS-CoV-2 was detected in the sample.

Negative Result
The test is complete and SARS-CoV-2 was NOT detected in the sample.

Invalid Result
The test is complete and the result is invalid. Repeat with a new Metrix COVID-19 Test kit.

UG-00005 Ver 1, p. 5 of 6
Troubleshooting

Test Error
Remove sensor and firmly press down on collector. Firmly reinsert sensor into reader. If flashing light persists, discard sensor and use a new test kit.

CANCELED TEST
The test did not complete. Discard the sensor and run the test with a new test kit.

Hardware Failure
There is an error with the reader. Disconnect and reconnect the power.

No Power
Check all electrical connections. The reader is not receiving power.

Indicates flashing light

Certification that the electromagnetic interference from the device is under limits approved by the Federal Communications Commission.

Warnings and Precautions

• Do not use components that are visibly damaged.
• The Metrix Reader can be cleaned by wiping the exterior with disinfectant. Do not spray disinfectant into or onto the reader.
• If a power failure occurs or if the Metrix Reader is unplugged while the Sensor is inserted, the test result is invalid. The test should be redone with a new test kit.
• Use only the provided power cable and power adapter.
• This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
• This product has not been FDA cleared or approved, but has been authorized for emergency use by FDA under an EUA. This product has been authorized only for the detection of nucleic acid from SARS-CoV-2, not for any other viruses or pathogens.
• The emergency use of this product is only authorized for the duration of the declaration that circumstances exist justifying the authorization of emergency use of in vitro diagnostics for detection and/or diagnosis of COVID-19 under Section 564(b)(1) of the Federal Food, Drug, and Cosmetic Act, 21 U.S.C. § 360bbb-3(b)(1), unless the declaration is terminated or authorization is revoked sooner.
• The Metrix COVID-19 Test and Metrix Reader are for FDA Emergency Use Authorization (EUA) only.
