## **Book Editor**

1. **Gooden CK**, Lowrie L, Jackson B, Editors (1<sup>st</sup> ed.). 2018. New York, NY, Oxford University Press: *The Pediatric Procedural Sedation Handbook*. [www.global.oup.com](http://www.global.oup.com)

In 2015, I submitted a book proposal to Oxford University Press for the above listed book. The proposal was approved. I compiled a list of potential authors that I invited, based on a multi-disciplinary approach that I wanted for this book. The authors includes pediatric anesthesiologists, pediatric intensivists, pediatric sedationists, pediatric sedation nurses, pediatric dentists, and child-life specialists.

## **Educationally Relevant Publications**

*Pediatric Airway Rounds* is an educational video series that I developed for teaching airway management in infants and children with videolaryngoscopy (VL). The use of VL is a newer technique for managing the airway, and educational material is lacking in this area. The teaching series has been distributed on a DVD worldwide with the support of Verathon<sup>®</sup> Medical. The trailer of this video series is available at [www.verathon.com](http://www.verathon.com)
