Dear Mr. MacPherson:

Based on an initial review of Food and Drug Administration (FDA) records, information from the ClinicalTrials.gov data bank operated by the National Library of Medicine (a part of the National Institutes of Health), and any available public information, it appears that University Health Network, Toronto, is the “responsible party”<sup>1</sup> for the above-identified clinical trial, which appears to be an “applicable clinical trial”<sup>2</sup> subject to the requirements of section 801 of the Food and Drug Administration Amendments Act of 2007, including its implementing regulations in 42 CFR part 11. A responsible party for an applicable clinical trial is required to submit to the ClinicalTrials.gov data bank certain results information for the clinical trial; such results information generally must be submitted no later than one year after the primary completion date of the applicable clinical trial, unless the responsible party has submitted a certification of delay.<sup>3</sup>

It appears that results information for the referenced applicable clinical trial has not been submitted to the ClinicalTrials.gov data bank. Moreover, it appears that your organization did not update the primary completion date for the referenced applicable clinical trial within 30 calendar days after the trial reached its primary completion date, pursuant to 42 CFR 11.64(a)(1)(i)(C). Your organization should review its records of this clinical trial and determine whether your organization submitted all required information. If your organization determines that information is required and due for this clinical trial, please submit the information promptly.

Failure to submit clinical trial information required under section 402(j) of the Public Health Service Act (PHS Act) (42 U.S.C. 282(j)), including information required under the regulations found in 42 CFR part 11, is a prohibited act under section 301(jj)(2) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) (21 U.S.C. 331(jj)(2)). FDA intends to further review and assess the above-identified clinical trial beginning 30 calendar days after you receive this letter. If FDA determines that your organization is not in compliance with all applicable requirements of section 402(j) of the PHS Act (42 U.S.C. 282(j)) and 42 CFR part 11, your organization may receive from FDA a Notice of Noncompliance,<sup>4</sup> and FDA may thereafter initiate an administrative action seeking a civil monetary penalty.<sup>5</sup> In addition to civil monetary penalties, violations of section 301(jj) of the FD&C Act (21 U.S.C. 331(jj)) could result in other regulatory action, such as injunction and/or criminal prosecution.

As requested, please review your organization’s clinical trial records and submit any required information to the ClinicalTrials.gov data bank.
