Additional information on 21st Century Cures Act can be found here:

[21st Century Cures Act Information](#)

Introduction

The Food and Drug Administration (FDA or Agency) is the regulatory, scientific, public health and consumer protection agency responsible for ensuring all human and animal drugs, medical devices, cosmetics, foods, food additives, drugs and medicated feeds for food producing animals, tobacco and radiation emitting devices safe, and effective.

The mission of the Center for Food Safety and Applied Nutrition (CFSAN) protects and promotes

public health by ensuring that the nation's food supply is safe, sanitary, wholesome, and honestly labeled, and that cosmetic products and dietary supplements are safe and properly labeled.

Duties/Responsibilities

The incumbent serves as the Branch Chief of the Virulence Mechanisms Branch and is responsible for the planning, initiation, coordination, and effective management of food safety or food defense programmatic activities.

- Providing leadership and direction to a multidisciplinary staff. Performing technical functions in the biology field of work in the regulatory, administrative and control programs of the Branch. Developing the most cost-effective and fiscally responsible methods to conduct these programs and solve problems.
- Serving as an expert on the policies, procedures, and programmatic activities related to food safety, foodborne pathogens, food allergens and gluten programs, or the toxic effects of substances in the biological field of study. Initiating, formulating planning, and executing major studies or continuing specialized projects.
- Developing scientific approaches and oversees scientists to perform such work related to food safety, foodborne pathogens, food allergens and gluten programs, or the toxic effects of substances.
- Providing oversight and direction to staff members on biological research matters. Making certain that the assigned research conducted is within parameters needed for support of regulatory programs.
- Serving as the focal point within FDA for short term and long-term studies related to food safety. Providing managerial direction for studies pertaining to studies related to food safety or food defense studies.
- Coordinating intra-center/office/staff support of proposed legal and administrative actions/sanctions/ proceedings arising from initiated enforcement actions related to food safety, foodborne pathogens, food allergens and gluten programs, or the toxic effects of substances. Coordinates and/or responds to requests for intra/inter-agency participation and cooperation on matters of mutual interest.
- Applying legal knowledge and keeps abreast of scientific, legislative, and technological developments which are related to or have a bearing on regulatory/ scientific activities.
- Participating in and contributes to meetings and conferences with senior level management and top-level Center officials; industry representatives; senior scientific, professional, legal, and subject-matter specialists; members of the scientific and academic communities; counterparts from federal, state, and local government agencies; and others to discuss and explain Center policies, plans, programs, operations, and decisions related to biological and regulatory activities, including Formal Evidentiary Hearings.

Supervisory Responsibilities:

Supervisor provides occupational specific technical and administrative direction 25 percent or more of the time to three or more subordinate employees performing the work and functions of the organization. * Obtains resources and identifies strategic objectives for the organization. * Defines jobs, selects employees, and assigns work; defines technical work requirements and milestones; evaluates the organization and employee accomplishments by accepting or rejecting work products; and presents and defends organization and employees work to senior management and other offices. * Recommends employee promotions and recognition; approves leave; implements performance modifications and takes corrective actions as appropriate. * Provides equal opportunity in all Federal human capital and employment programs regardless of race, color, gender, national origin, religion, age, disability, genetic information, sexual orientation, affiliation or non-affiliation with a labor organization, political affiliation, status as a parent or gender identity. * Provides employees resources and information that insures a safe and healthy work environment.

Conditions of Employment

- U.S. Citizenship requirement or proof of being a U.S. National must be met by closing date.
- Employment is subject to the successful completion of a background investigation, verification of qualifications, completion of onboarding forms, submission of required documents, and any other job-related requirement before or after appointment.
- Applicants must meet all qualification requirements by the closing date of this announcement.
- Direct Deposit: You will be required to have all federal salary payments electronically deposited into a bank account with a financial institution of your choice.
- FDA participates in e-Verify: All new hires must complete the I-9 form; this information will be processed through e-Verify to determine your employment eligibility. If a discrepancy arises, you must take affirmative steps to resolve the matter.
- Males born after December 31, 1959, must be registered with the Selective Service.
- One-year probationary period may be required.
- Financial Disclosure may be required.
- Ethics Clearance may be required.
- Background Investigation/Security Clearance is required. All employees must pass a security investigation. Failing to pass the background check may be grounds for removal or legal action. If hired, you may be subject to additional investigations at a later time.

Qualifications

To be placed into a Cures position, candidates must meet the following criteria:

1. Scientific, Technical, and Professional Fields
2. Qualified and Outstanding Candidates
 - a. **Qualified** applies to all candidates for Cures appointments. The FDA OTS will use the basic requirements defined in the [OPM Qualification Standards](#) as a baseline

for comparing experience levels and other candidate attributes for relevant positions.

- b. **Outstanding** candidates can be defined by existing outstanding work experience, outstanding performance rating, or both.

In order to qualify for this Title 21 Cures position, the candidate(s) must meet the following **required** qualifications. *Please note: Additional education and experience listed that is not indicated as **required** is preferable and desired. Candidates who do not meet the “desired” criteria will **not** be excluded from consideration for this position.*

Education Requirement:

Biologist Series, 0401:

Degree: biological sciences, agriculture, natural resource management, chemistry, or related disciplines appropriate to the position. **OR**

Combination of education and experience: Courses equivalent to a major, as shown in A above, plus appropriate experience or additional education.

For more information please see: [OPM Occupational Series Qualification Requirements](#).

Professional Experience: You must possess specialized experience in detecting and identifying foodborne pathogens and making oral presentation to management.

Desired Professional Experience:

- Experience communicating highly technical information in a clear way and work with staff at all levels of the organization and varying levels of domain expertise; excellent listening skills and a commitment to communicate in a timely manner.
- Good time management and organizational skills to effectively determine priorities and move work forward.
- Demonstrated ability to develop networks and build alliances; collaborates across boundaries to build strategic relationships and achieve common goals.
- Leading others or projects related to food safety activities.
- Identifies and analyze problems; weighs relevance and accuracy of information; generates and evaluates alternative solution; make recommendations.
- Experience in conducting studies related to development of food safety methods.

Education Transcripts

SUBMITTING YOUR TRANSCRIPTS: Positions which are scientific or technical in nature often have very specific educational requirements. A transcript is required to verify educational

achievement. Pay careful attention to the Qualifications and Education sections to identify vacancies where a transcript is required. Even if you hold a similar position or are a current FDA employee, you are not exempt from transcript requirements.

FOREIGN EDUCATION: If you are using education completed in foreign colleges or universities to meet the qualification requirements, you must show that the education credentials have been evaluated by a private organization that specializes in interpretation of foreign education programs and such education has been deemed equivalent to that gained in an accredited U.S. education program; or full credit has been given for the courses at a U.S. accredited college or university. For more information about this requirement, please visit the [U.S. Department of Education website for Foreign Education Evaluation](#).

Security Clearance Requirements

Background Investigation/Security Clearance Requirements: All employees must pass a security investigation. Failing to pass the background check may be grounds for removal or legal action. If hired, you may be subject to additional investigations at a later time. Please refer to the Ethics Clearance Requirements section.

Ethics Clearance Requirements

This position may require financial disclosure reporting and will be subject to FDA's prohibited financial interest regulation. If you are hired, you may be required to divest of certain financial interests. You are advised to seek additional information on this requirement from the hiring official before accepting any job offers. For more information, please visit the FDA Ethics web page: <https://www.fda.gov/about-fda/jobs-and-training-fda/ethics>.

Equal Employment Opportunity

The United States Government does not discriminate in employment on the basis of race, color, religion, sex (including pregnancy and gender identity), national origin, political affiliation, sexual orientation, marital status, disability, genetic information, age, membership in an employee organization, retaliation, parental status, military service, or other non-merit factor. [Equal Employment Opportunity \(EEO\) for federal employees & job applicants](#)

Reasonable Accommodation

Federal agencies must provide reasonable accommodation to applicants with disabilities where appropriate. Applicants requiring reasonable accommodation for any part of the application process should follow the instructions in the job opportunity announcement. For any part of the remaining hiring process, applicants should contact the hiring agency directly.

Determinations on requests for reasonable accommodation will be made on a case-by-case basis. A reasonable accommodation is any change to a job, the work environment, or the way things are usually done that enables an individual with a disability to apply for a job, perform job duties or receive equal access to job benefits. Under the Rehabilitation Act of 1973, federal agencies must provide reasonable accommodations when: An applicant with a disability needs an accommodation to have an equal opportunity to apply for a job. An employee with a

disability needs an accommodation to perform the essential job duties or to gain access to the workplace. An employee with a disability needs an accommodation to receive equal access to benefits, such as details, training, and office-sponsored events. You can request a reasonable accommodation at any time during the application or hiring process or while on the job. Requests are considered on a case-by-case basis. Learn more about [disability employment and reasonable accommodations](#) or [how to contact an agency](#).

E-Verify

The Food and Drug Administration participates in the USCIS Electronic Employment Eligibility Verification Program (E-Verify). E-Verify helps employers determine employment eligibility of new hires and the validity of their Social Security numbers.

How to Apply

Submit resume or curriculum vitae with cover letter and a copy of transcripts (with foreign credentials evaluation, if applicable) by the closing date as identified above to CFSAN-Cures@fda.hhs.gov. Candidates can opt out of this process by annotating resume with “do not share”. Please reference Job ID: “OARSA Supervisory Biologist” when applying.
