The candidate selected for this position will serve under a career or career-conditional appointment and be paid under the provisions of this authority.

Additional information on 21st Century Cures Act can be found here:

[21st Century Cures Act Information](#)

Introduction

The Food and Drug Administration is the regulatory, scientific, public health, and consumer protection agency responsible for ensuring that all human and animal drugs, and medical devices are safe and effective, that cosmetics, foods, food additives, drugs and medicated feeds for food producing animals, and radiation emitting devices are safe, and that all such products marketed in the United States are adequately, truthfully and informatively labeled and safely

and properly stored, transported, manufactured, packaged and regulated. FDA's programs are national in scope and effect, and the agency's activities have a direct and significant impact on multi-billion-dollar industries, in addition to protecting the health and safety of American Consumers. The work of the Agency is carried out by a staff of more than 18,000 scientists, physicians, regulatory and other personnel stationed throughout the United States.

The mission of the Office of Regulatory Affairs is to protect consumers/patients and enhance public health by ensuring timely access to safe, quality FDA-regulated products. To view our ORA Vision, Mission, and Values please visit: <https://www.fda.gov/about-fda/fda-organization/office-regulatory-affairs>

The Office of Regulatory Affairs (ORA) is at the forefront of building a public health safety net for today's complex, global regulatory environment. ORA professionals work in a range of program areas and locations, with 227 offices and 12 laboratories throughout the United States. As the lead office for all FDA field activities, ORA serves as the agency's direct connection with regulated industry through: a) inspections of firms and plants producing FDA-regulated products; b) investigations of consumer complaints, emergencies and criminal activity; c) enforcement of FDA regulations; d) sample collection and analysis; and e) review of imported products.

The Office of Medical Products and Tobacco Operations (OMPTO) oversees four program directors in the coordination, interpretation, and evaluation of the Agency's overall field inspections and compliance efforts in the areas of medical products and tobacco. OMPTO is led by an Assistant Commissioner for Medical Products and Tobacco Operations (ACMPTO) who reports directly to the Associate Commissioner for Regulatory Affairs.

Office of Biological Products Operations (OBPO) covers a wide range of products such as vaccines, blood and blood components, allergenics, gene therapies, human and animal cells, tissues, and cell- and tissue-based products, and recombinant therapeutic proteins. OBPO protects public health by assuring the safety, efficacy and quality of biological products and ensures that consumers have access to safe, high-quality biological products by striving to be the world's pre-eminent biologics inspectorate.

Duties/Responsibilities

- Conducts objective surveys and emergency activities within the assigned area of responsibility. Assists the immediate supervisor or a team leader by planning inspections, investigations, sample collections, and related activities in the area of assigned responsibility; training new personnel and providing training for high graded personnel.
- Independently plans and conducts regulatory inspections and in-depth investigations of various biologics industry establishments; such as blood and blood component manufacturers, tissue processors, re-packers, own label distributors, and biological

device and drug firms. Conducts re-inspections to follow up with non-compliant industry establishments on previously noted violations.

- Performs analyses and evaluation on data and documented information gathered during inspections and investigations in order to ensure that documentation and practices are in compliance with Federal laws, rules and regulations. Documents and organizes required evidence, data and other information to support violations noted during inspections, investigations, sample collections or filer audits..
- Gathers scientific and technical comments from team members, assists with the preparation of letters and correspondence relevant to the review, and contributes to status reports for submissions and investigations under review.
- Interacts with and advises various levels of officials representing the establishments subject to regulatory review. Initiates contact with industry officials to obtain basic incomplete or missing information on regulatory and scientific documents and to discuss the status of investigations. Prepares final reports, position papers and other written documentation that support investigative findings and recommendations.
- Prepares final Establishment Investigation Report (EIR), investigations memoranda, and proposed or final endorsements for inspections and investigations conducted.

Supervisory Responsibilities: This is not a supervisory role.

Conditions of Employment

- U.S. Citizenship requirement or proof of being a U.S. National must be met by closing date.
- Employment is subject to the successful completion of a background investigation, verification of qualifications, completion of onboarding forms, submission of required documents, and any other job-related requirement before or after appointment.
- Applicants must meet all qualification requirements by the closing date of this announcement.
- Direct Deposit: You will be required to have all federal salary payments electronically deposited into a bank account with a financial institution of your choice.
- FDA participates in e-Verify: All new hires must complete the I-9 form; this information will be processed through e-Verify to determine your employment eligibility. If a discrepancy arises, you must take affirmative steps to resolve the matter.
- Males born after December 31, 1959 must be registered with the Selective Service.
- One-year probationary period may be required.
- Financial Disclosure may be required.
- Ethics Clearance may be required.
- Background Investigation/Security Clearance is required. All employees must pass a security investigation. Failing to pass the background check may be grounds for removal or legal action. If hired, you may be subject to additional investigations at a later time.

Qualifications

To be placed into a Title 21 position, candidates must meet the following criteria:

1. Scientific, Technical, and Professional Fields
2. Qualified and Outstanding Candidates
 - a. **Outstanding** candidates can be defined by existing outstanding work experience, outstanding performance rating, or both.
 - b. **Qualified** applies to all candidates for Title 21 appointments.

In order to qualify for this Title 21 position, the candidate(s) must meet the following **required** qualifications. *Please note: Additional education and experience listed that is not indicated as **required** is preferable and desired. Candidates who do not meet the “desired” criteria will **not** be excluded from consideration for this position.*

Education Requirement: The education must have been obtained at a college, university, or an accrediting body recognized by the Secretary, [U.S. Department of Education](#) at the time the degree was obtained.

A bachelor’s degree or higher in quality assurance/management, data science, statistics, computer forensics, epidemiology, pharmacy, public health, engineering, food science, law or regulations, or related healthcare or science field. The degree must be from an accredited program or institution.

OR

Experience: Comparable experience with FDA, a state or federal partner agency, or in an FDA-regulated industry or organization providing investigative or compliance services to an FDA-regulated industry, focused on evaluating or ensuring compliance with FDA or related public health laws and regulations.

Desired Education: Advanced Degree

Desired Professional Experience:

Band A: Our ideal candidate will have:

- Knowledge and skill in applying a wide range of complex professional theories, concepts, principles, standards, to determine, execute, and explain actions that modify standard practices, equipment, devices, processes, known techniques and resolve a wide variety of complications and constraints contained in traditional projects.
- Skill to adapt precedents and existing strategies which allow occupational projects to meet unusual needs or demands as a principal contributor for the assigned specialty areas on team-based projects.
- Ability to coordinate a team project by providing technical oversight and direction for a variety of principal team members representing related professional disciplines.
- Experience in evaluating and presenting plans, designs, reports, and correspondence concerning projects and product issues.

- Knowledge of and skill in selecting, adapting, and applying investigative methods and negotiating techniques to conduct complete and professional inspections and investigations,
- Ability to persuade reluctant persons and officials to provide information or access to information and persuade industry representatives to agree to terms needed to achieve compliance.
- Skill in planning and carrying out assignments, resolving most conflicts that arise, coordinating the work with others as necessary, and interpreting policy on own initiative in terms of established objectives. In some assignments, the employee also determines the approach to be taken and the methodology to be used. The employee keeps the supervisor informed of progress and potentially controversial matters.
- Ability to apply judgment in interpreting and adapting guidelines, such as agency policies, regulations, precedents, and work directions for application to specific cases or problems. The employee analyzes results and recommends changes.
- Skill in making decisions to assess unusual circumstances, variations in approach, and incomplete or conflicting data.

Band B: In addition to the skills/experience listed for Band A, the ideal candidate for Band B will also have the following skills and experience:

- Skill in planning, conducting, and leading highly technical, complex, and multi-faceted inspections and in-depth investigations, and skill in interview and investigation techniques.
- Skill in analyzing and evaluating complex data samples and documented information gathered during inspections and investigations and utilizes novel approaches as needed to ensure compliance with federal laws, rules and regulations.
- Ability to prepare final Establishment Inspection Report (EIR), investigations memoranda and proposed or final endorsements for inspections and investigations.
- Ability to evaluate and make recommendations on the state of compliance of a firm/individual involved in human and animal food manufacturing, or other FDA regulated product manufacturing.

Additional Requirements of this Position:

- Candidates for this position must complete a statement regarding their physical ability and may be required to undergo physical examination because the position requires:
 - the need to work long and unscheduled hours.
 - exposure to all kinds and extremes of weather and noise.
 - the need to lift heavy objectives up to 50 pounds, walk, bend, stand, stoop, kneel, and climb.
 - the need to meet the vision, hearing, and olfactory requirements necessary to perform the work of this position.
- Domestic and international travel up to 50 percent of the time which will often require the Investigator to be away from the duty station for up to two to three weeks at a time.
- The work involves regular and reoccurring exposure to moderate risks, discomforts, and unpleasantness such as:
 - contagious diseases

- infectious materials, or toxic or irritating chemicals
- carcinogenic materials
- noxious fumes
- flammable liquids
- radiation, and/or
- potentially pathogenic bacteria.
- Special safety precautions such as protective clothing and equipment may be necessary.
- While some work is performed in an adequately lighted and climate-controlled office, onsite investigations and inspections may involve exposure to moderate risks or discomforts such as high levels of noise, dust, moving parts of machinery, irritant fumes, etc. Protective clothing and gear, and observance of safety precautions are required.
- Inspection and sample collection duties are performed either inside buildings and other structures, outdoors, or both depending on the type and location of the facility. Consequently, employees are exposed to a variety of environmental conditions including extremes of heat, cold or humidity; excessive noise; excessive dust; uneven surfaces and slippery floors; and extremely adverse conditions during natural and other disasters such as floods, fires, hurricanes, etc. During these periods, employees must eat and sleep in primitive conditions with little or no privacy. As Investigators, incumbents must travel into and work in areas that have been the subject of violence and that are otherwise considered unsafe.
- This position requires the incumbent must possess a valid Driver's License to drive a government/private owned motor vehicle.

Education Transcripts

SUBMITTING YOUR TRANSCRIPTS: Positions which are scientific or technical in nature often have very specific educational requirements. A transcript is required to verify educational achievement. Pay careful attention to the Qualifications and Education sections to identify vacancies where a transcript is required. Even if you hold a similar position or are a current FDA employee, you are not exempt from transcript requirements.

FOREIGN EDUCATION: If you are using education completed in foreign colleges or universities to meet the qualification requirements, you must show that the education credentials have been evaluated by a private organization that specializes in interpretation of foreign education programs and such education has been deemed equivalent to that gained in an accredited U.S. education program; or full credit has been given for the courses at a U.S. accredited college or university. For more information about this requirement, please visit the [U.S. Department of Education website for Foreign Education Evaluation](#).

Security Clearance Requirements

Background Investigation/Security Clearance Requirements: If not previously completed, a background security investigation will be required for all appointees. Appointment will be subject to the applicant's successful completion of a background security investigation and favorable adjudication. Failure to successfully meet these requirements may be grounds for

appropriate personnel action. In addition, if hired, a background security investigation or supplemental investigation may be required later.

Ethics Clearance Requirements

This position may require financial disclosure reporting and will be subject to FDA's prohibited financial interest regulation. If you are hired, you may be required to divest of certain financial interests. You are advised to seek additional information on this requirement from the hiring official before accepting any job offers. For more information please visit the FDA Ethics web page: <https://www.fda.gov/about-fda/jobs-and-training-fda/ethics>.

Equal Employment Opportunity

The United States Government does not discriminate in employment on the basis of race, color, religion, sex (including pregnancy and gender identity), national origin, political affiliation, sexual orientation, marital status, disability, genetic information, age, membership in an employee organization, retaliation, parental status, military service, or other non-merit factor. [Equal Employment Opportunity \(EEO\) for federal employees & job applicants](#)

Reasonable Accommodation

Federal agencies must provide reasonable accommodation to applicants with disabilities where appropriate. Applicants requiring reasonable accommodation for any part of the application process should follow the instructions in the job opportunity announcement. For any part of the remaining hiring process, applicants should contact the hiring agency directly.

Determinations on requests for reasonable accommodation will be made on a case-by-case basis. A reasonable accommodation is any change to a job, the work environment, or the way things are usually done that enables an individual with a disability to apply for a job, perform job duties or receive equal access to job benefits. Under the Rehabilitation Act of 1973, federal agencies must provide reasonable accommodations when: An applicant with a disability needs an accommodation to have an equal opportunity to apply for a job. An employee with a disability needs an accommodation to perform the essential job duties or to gain access to the workplace. An employee with a disability needs an accommodation to receive equal access to benefits, such as details, training, and office-sponsored events. You can request a reasonable accommodation at any time during the application or hiring process or while on the job.

Requests are considered on a case-by-case basis. Learn more about [disability employment and reasonable accommodations](#) or [how to contact an agency](#).

E-Verify

The Food and Drug Administration participates in the USCIS Electronic Employment Eligibility Verification Program (E-Verify). E-Verify helps employers determine employment eligibility of new hires and the validity of their Social Security numbers.

Additional Information

Incentives: Incentives may be authorized; however, this is contingent upon funds availability. If

authorized, certain incentives will require you to sign a service agreement to remain in the Federal government for a period of up to 3 years.

Note: This statement does not imply nor guarantee an incentive will be offered and paid. Incentives include the following: student loan repayment (for government employees only), creditable service for annual leave for prior non-federal work experience or prior uniformed military service, etc.

How to Apply

How to Apply: Applications will be accepted from all qualified internal and external applicants. Please send letter of interest addressing your experience in the major duties and responsibilities of the position and preferred location(s), resume/curriculum vitae and bibliography, redacted SF-50 (for federal employees only), transcript (with foreign credentials evaluation, if applicable) to the ORA Executive Recruitment and Scientific Staffing Committee, ORAInvestigatorHiring@fda.hhs.gov. Applications will be accepted through November 24, 2023. Candidate resumes may be shared with hiring official within the OMPTO with a similar job vacancy. Candidates can opt out of this process by annotating resume with “do not share”. For questions, please contact ORAInvestigatorHiring@fda.hhs.gov. The application must show this job reference ID in the subject line: **2/6-OBPO-CSOI (Biologics) name of preferred location(s)**.
