Applicants at the GS-12 and GS-13 level are encouraged to apply. PHS Commissioned Corps Officers may apply. The Detail is available immediately for a period up to 120 days.

Bargaining Unit Status: Bargaining Unit Position

Office Location: FDA
Center for Tobacco Products
11785 Beltsville Drive
Beltsville, MD 20705

Duty Location: Anywhere in the U.S. (REMOTE JOB)

Opening Date: November 8, 2023
Closing Date: November 21, 2023

Area of Consideration: FDA-Wide

The CTP, OS offers a fast-paced, dynamic environment and an opportunity to work with dedicated, energetic people who really want to make a difference and improve public health. This Detail position is ideal for someone who wants to have a critical role in the organization and would enjoy the challenge of working with Information Technology (IT) projects.

Duties include:

The Detail will be in the OS, DRSI, Informatics Services Support Branch. The primary role of the incumbent is as a project manager for various OS IT initiatives.

Duties for this position may include:

- Planning and executing all facets of project management to include day-to-day management and oversight of multiple, concurrent IT projects in OS.
- Develops status reports for project, reviews contractor deliverables such as requirements, design, project schedule, test documents, etc.
- Schedules user acceptance testing (UAT).
- Plans and manages IT project’s scope, schedule, and cost, as well as risk and resource management.
- Participates in performing OS activities required to develop acquisition packages.
- Develops project plans and cost estimates.
- Elicits requirements from stakeholders and business owners to establish project scope and priorities.
- Evaluates and recommends the adoption of new or enhanced approaches to delivering IT products and/or services.
- Ensures projects adhere to the FDA’s Enterprise Performance Lifecycle (EPLC) process.

Desired Knowledge and Skills:

- Thorough knowledge of, and skill applying, performance management and measurement methods, tools, and techniques.
- Knowledge of system testing and evaluation principles, methods, and tools.
- Ability to plan and carry out complex assignments and develop new methods, approaches, and procedures on a wide variety of IT issues.
- Knowledge of new and emerging information technologies and/or industry trends sufficient to evaluation and recommend adoption of new or enhanced approaches to delivering IT services.

Application Procedure:

Supervisory concurrence is required to accept a Detail but is not required to apply. Interested applicants should submit a resume or CV, a copy of your most recent SF-50 (Notification of Personnel Action) that identifies your current pay plan, series, grade, full performance level, and time in grade. Within grade increases or promotion SF-50s are preferred. Commissioned Corps Officers are also encouraged to apply and should submit a resume or CV. The Detail opportunity is open to all candidates qualified at the GS-12 or GS-13 grade level or Commissioned Corps Officers equivalent. A temporary promotion may be available.
