

IFSS RLTS Strategic Plan

Strategy Principles

The strategy principles below serve as the vision for the IFSS (Integrated Food Safety System) Regulatory and Laboratory Training System (RLTS), and are the foundation for the IFSS RLTS Strategic Plan.

A.	Built with full collaboration & support of the human & animal food (HAF) regulatory & laboratory partners within the IFSS.
B.	Flexible & adaptable learning tools that incorporate advancements in instructional design, adult learning theories, & technology to ensure effective learning & knowledge transfer.
C.	Ensures course content is kept current & addresses emerging training needs.
D.	Standardizes job-specific competencies to ensure the consistency of training across HAF regulatory & laboratory partners.
E.	Maximizes training capacity & access to meet the current & forecasted needs of HAF regulatory & laboratory partners.
F.	Leverages opportunities for HAF regulatory & laboratory partners to share in the responsibility of providing training.
G.	Ensures long-term sustainment of proficiency & knowledge to ensure effective & consistent application of competencies across HAF regulatory & laboratory partners.
