

INDICATION: For the Management of Adrenal Gland Cortical Disease in the Male and Female Domestic Ferret.

DIRECTIONS FOR USE: Refer to the package insert for complete directions for use. Each implant contains 4.7 mg of deslorelin acetate. Do not use if the foil pouch is damaged. Administer one implant per ferret. One implant should be injected subcutaneously at the dorsal base of the neck.

USER SAFETY: Avoid direct skin contact with the implant. DO NOT HANDLE OR ADMINISTER THIS PRODUCT IF YOU ARE PREGNANT OR SUSPECT YOU MAY BE PREGNANT.

WARNINGS: KEEP OUT OF THE REACH OF CHILDREN. For use in ferrets only. Do not use in animals intended for breeding.

For technical assistance, to request an SDS, or to report suspected adverse drug events, please call Virbac at 1-800-338-3659.

DISPOSAL: The implanting needle is a single use device and should be disposed of after use in the appropriate receptacle for sharp medical waste. The actuator syringe can be re-used. Unused implants should be disposed of in accordance with local environmental requirements.

STORAGE: Store at temperatures between 2° and 8°C (36° and 46°F). Do not freeze.
