

INDICATIONS

For the control of post-procedural pain in mice, rats, ferrets, and non-human primates.

DOSAGE AND ADMINISTRATION

See package insert for dosing and administration information.

Each mL contains approximately 1.3 mg buprenorphine hydrochloride, cholesterol, benzyl alcohol, and glyceryl tristearate suspended in MCT oil.

STORAGE

Store vial at temperatures between 15° and 25°C +/- 2°C (59° and 77°F) or refrigerate. DO NOT FREEZE. Once broached, the multi-dose vial should be discarded after 90 days. Do not store outside original vial or storage conditions.

Before using this drug, read package insert for full prescribing information.

HUMAN SAFETY WARNINGS

Not for use in humans. Keep this and all medications out of reach of children and pets.

Human User Safety While Handling Ethiq®a XR in the Hospital:

Ethiq®a XR should only be handled and administered by a veterinarian, veterinary technician, or laboratory staff trained in the handling of potent opioids.

To prevent human adverse reactions or abuse, at least 2 trained administrators should be present during injection of Ethiq®a XR.

 Ethiq®a XR 

(buprenorphine extended-release
injectable suspension)
1.3 mg/mL

Opioid Analgesic

For subcutaneous use only in mice, rats,
ferrets, and non-human primates.

CAUTION: Federal law restricts this drug to use by or on the order of a licensed veterinarian.

This product is not to be used in animals intended for use as food for humans or food producing animals.

WARNING: Due to serious human safety and abuse concerns, read the entire package insert before using this drug, including the complete Boxed Warning.
