Summary

I am the lead proofreader (nights) for an international law firm, and my passion is advancing the contributions of people with lived experience to health care.

Experience

Lead Proofreader (Nights)

Debevoise & Plimpton

Sep 2021 - Present (2 years 7 months)

Person-Centered Care Consultant

Phreesia

Oct 2023 - Present (6 months)

CDRH Patient Engagement Advisory Committee (Consultant)

FDA

Jul 2023 - Present (9 months)

The Committee addresses complex scientific issues relating to medical devices, the regulation of devices, and their use by patients. Agency guidance and policies, clinical trial or registry design, patient preference study design, benefit-risk determinations, device labeling, unmet clinical needs, available alternatives, patient reported outcomes, device-related quality of life measures or health status issues are among the topics that may be considered by the Committee. The Committee provides relevant skills and perspectives in order to improve communication of benefits, risks and clinical outcomes, and increase integration of patient perspectives into the regulatory process for medical devices. It performs its duties by identifying new approaches, promoting innovation, recognizing unforeseen risks or barriers, and identifying unintended consequences that could result from FDA policy.

Patient Advisory Board Member

ProKidney Corp.

May 2023 - Present (11 months)

Expert Advisory Panelist

Kidney Transplant Collaborative

Apr 2021 - Present (3 years)

The Kidney Transplant Collaborative (KTC) recently launched as a national nonprofit organization based in Washington, DC. KTC is an advocacy group dedicated to increasing kidney transplants while decreasing financial obstacles and other common challenges recipients and donors experience during

the kidney transplant process. Additionally, KTC will be awarding substantial grants, ranging from \$50,000 to \$3 million, to fund projects that will further its mission.

Responsum for CKD Expert Advisory Council

Responsum Health

Apr 2020 - Present (4 years)

Patient Project Advisor

NCQA

Jun 2017 - Present (6 years 10 months)

"Supporting Age-Friendly Health Systems: Implementing and Disseminating Person-Driven Outcome Measures," funded by The John A. Hartford Foundation and The SCAN Foundation, is designed to increase the use of person-driven outcome measures to improve care. The overall goal of this project is to increase the delivery of care that matters to older adults through wide use of measures that matter – person-driven outcome measures – for quality improvement and value-based payment. The desired outcomes of this three-year project are to incorporate the measures into at least one NCQA program, achieve national endorsement of the measures, implement an outreach campaign and communication strategy, and refine tools to support implementation and measure reporting. I am working with the NCQA project team to prioritize measure concepts and provide feedback on all major aspects of the project.

Community Advisory Board

The Light Collective

May 2022 - Oct 2022 (6 months)

The Light Collective supports a trusted health community-driven and health community-governed online collective for peer support groups sharing health journeys, curated content, and research, and connecting individuals, including patients, caregivers, and clinicians. The Light Collective is transparently identified and committed to respecting patient privacy, and being held to account for doing so.

The value of the collective governance is derived from the ability of an online community to make and carry out decisions. Stewardship of that value is for the benefit of the members who are part of that online community. Therefore, the potential for both individual and group benefit, and the potential for both individual and group harm, must be considered in decision-making.
